Goel, Goyal Brothers Prakashan, 2020-04-01 Goyal Brothers Prakashan *Managing Community Resettlement* Robert Gerrits, 2023-06-22 Each year millions of people are displaced from their homes and lands While international environmental and social performance standards on land access and involuntary resettlement exist no framework supporting livelihood restoration has been developed This book provides a framework that will help improve practice for those who are involved in resettlement projects and crucially improve the outcomes for the resettlement affected households and communities Evidence from the implementation of public and private sector led resettlement projects indicates that livelihood restoration is a persistent shortcoming if not failure across these projects This book addresses this issue by re characterising the livelihood restoration objective as livelihood re establishment and development and proposes a framework for the entire resettlement process that puts livelihood considerations first The framework enables proactive identification of the potential livelihood challenges associated with each step of the resettlement process design planning execution monitoring and evaluation as well as the opportunities that resettlement project development and induced economic growth create This book is essential reading for experts in social impact assessment resettlement specialists planners administrators non governmental and civil society organisations and students of development studies and social policy **World Economic Outlook, October 2016** International Monetary Fund. Research Dept., 2016-10-04 According to the October 2016 World Economic Outlook global growth is projected to slow to 3.1 percent in 2016 before recovering to 3.4 percent in 2017 The forecast revised down by 0.1 percentage point for 2016 and 2017 relative to April's report reflects a more subdued outlook for advanced economies following the June U.K. vote in favor of leaving the European Union Brexit and weaker than expected growth in the United States These developments have put further downward pressure on global interest rates as monetary policy is now expected to remain accommodative for longer Although the market reaction to the Brexit shock was reassuringly orderly the ultimate impact remains very unclear as the fate of institutional and trade arrangements between the United Kingdom and the European Union is uncertain Financial market sentiment toward emerging market economies has improved with expectations of lower interest rates in advanced economies reduced concern about China's near term prospects following policy support to growth and some firming of commodity prices But prospects differ sharply across countries and regions with emerging Asia in general and India in particular showing robust growth and sub-Saharan Africa experiencing a sharp slowdown In advanced economies a subdued outlook subject to sizable uncertainty and downside risks may fuel further political discontent with anti integration policy platforms gaining more traction Several emerging market and developing economies still face daunting policy challenges in adjusting to weaker commodity prices These worrisome prospects make the need for a broad based policy response to raise growth and manage vulnerabilities more urgent than ever Ethics and Law of Intellectual Property
