The History of Virginia in Four Parts Robert Beverley, 2020-09-28 The learned and valiant Sir Walter Raleigh having entertained some deeper and more serious considerations upon the state of the earth than most other men of his time as may sufficiently appear by his incomparable book the History of the World and having laid together the many stories then in Europe concerning America the native beauty riches and value of that part of the world and the immense profits the Spaniards drew from a small settlement or two thereon made resolved upon an adventure for farther discoveries According to this purpose in the year of our Lord 1583 he got several men of great value and estate to join in an expedition of this nature and for their encouragement obtained letters patents from Queen Elizabeth bearing date the 25th of March 1584 for turning their discoveries to their own advantage 2 In April following they set out two small vessels under the command of Capt Philip Amidas and Capt Arthur Barlow who after a prosperous voyage anchored at the inlet by Roanoke at present under the government of North Carolina They made good profit of the Indian truck which they bought for things of much inferior value and returned Being overpleased with their profits and finding all things there entirely new and surprising they gave a very advantageous account of matters by representing the country so delightful and desirable so pleasant and plentiful the climate and air so temperate sweet and wholesome the woods and soil so charming and fruitful and all other things so agreeable that paradise itself seemed to be there in its first native lustre They gave particular accounts of the variety of good fruits and some whereof they had never seen the like before especially that there were grapes in such abundance as was never known in the world Stately tall large oaks and other timber red cedar cypress pines and other evergreens and sweet woods for tallness and largeness exceeding all they had ever heard of wild fowl fish deer and other game in such plenty and variety that no epicure could desire more than this new world did seem naturally to afford The History and Present State of Virginia Robert Beverley, 2014-05-13 While in London in 1705 Robert Beverley wrote and published *The History and Present State of Virginia* one of the earliest printed English language histories about North America by an author born there Like his brother in law William Byrd II Beverley was a scion of Virginia's planter elite personally ambitious and at odds with royal governors in the colony As a native born American most famously claiming I am an Indian he provided English readers with the first thoroughgoing account of the province's past natural history Indians and current politics and society In this new edition Susan Scott Parrish situates Beverley and his History in the context of the metropolitan provincial political and cultural issues of his day and explores the many contradictions embedded in his narrative Parrish's introduction and the accompanying annotation along with a fresh transcription of the 1705 publication and a more comprehensive comparison of emendations in the 1722 edition will open Beverley's History to new twenty first century readings by students of transatlantic history colonialism natural science literature and ethnohistory **A History of Virginia in Four Parts** Robert Beverly, 2010-07-21 This book was written by Mr Robert Beverly a native and lifelong
