Women, Agency and Religion Ilaria Valenzi,2024-11-28 On both Mediterranean shores women s agency is articulated by new social and legal actors that face the religious factor both as an asset and as a brake This book explores how female agency is defined and takes place in the region The collection brings together contributions of both theoretical and thematic nature mapping various experiences on the public role of women in the Mediterranean context In particular the book relates the two sides observing affinities and differences in the affirmation of women s agency This synoptic approach avoids

essentialist contraposition and dialectic between different cultural religious and political universes and emphasizes the role of a common geopolitical space where women's agency is playing an increasingly decisive role in the building and defense of constitutional democratic political systems. The reflection is enriched by the specific analysis of the role of a religious factor in the process of affirmation or in contrast as a restraint on women's agency. The book focuses both on the role of women believers in the processes of transformation of the political contexts of the North African and Euro Mediterranean area and on the role of women within religions questioning from inside the patriarchal traditions of the latter. The book applies a multidisciplinary approach to the theme of women's agency in which law sociology theology and philosophy interact with each other. As such it will be a valuable resource for those working in the areas of Human Rights Law Law and Religion Socio legal Studies and Gender Studies. [Music Sketches](#) Friedemann Sallis, 2015-01-29 The term music sketch relates to the vast variety of documents that are used by composers to work out a musical technique or idea and to prepare their work for performance or publication. These documents can often provide crucial insights into authorship biography editorial practice and musical analysis. This introduction provides students and scholars with the knowledge and skills they need to embark on research projects involving the study of composers working documents. Presenting examples of the compositional process over a 400 year period it includes a selection of detailed case studies on how sketches were created and the techniques that were used such as transcription and the sorting of loose leaves. Numerous illustrations of manuscripts and autographs many of which have never been published before show how these vital documents can be used to better understand compositional processes.

From Jihad to Politics Jerome Drevon, 2024-08-27 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations. In *From Jihad to Politics* Jerome Drevon offers a comprehensive examination of the Syrian armed opposition tracing the emergence of Jihadi groups in the conflict their increasing dominance and their political transformation. Drawing upon extensive field research and interviews with Syrian insurgents in northwestern Syria and Turkey Drevon demonstrates how the context of a local conflict can shape combatants' groups' behavior in unexpected ways. Further he marshals unique evidence from the Arab world's most intense conflict of this century to explain why the trajectory of the broader transnational Jihadi movement has altered course in recent years.

Teaching Artistic Strategies Fatma Kargin, Dorothée King, Selena Savic, 2024-08-02 Artistic strategies have a great transformative potential to improving research teaching and artistic expression. The contributors to this volume show how to unleash this potential by presenting a variety of epistemological experiments at the intersection of artistic research pedagogy and innovative practices in art and design education. The diversity of contributions demonstrates the non-exhaustive space for experimental phenomenological adventures. This collection strengthens new communities of educators and researchers in arts and design whose practices are

Critical Strategies for Ecological Architectures Mathias Rollot, 2025-11-01 This book addresses the alarming state of the planet and considers a potential new role for architecture in the Anthropocene It explores ways in which architecture could contribute to solutions as well as how the discipline should prepare for the future Drawing on other disciplines such as bioregionalism animalism and decolonial thinking it demonstrates how architecture can extend its relevance The book introduces new theoretical approaches that encourage completely different ways of thinking showing and designing It introduces concepts such as human energy decolonial bioregionalism and emancipatory architecture which serve to challenge anthropocentric theories and promote more sustainable architectural practices This book makes an ethical appeal to architects and non architects alike proposing new strategies for thinking teaching and creating a wholly different kind of architecture for a rapidly changing world In doing so it addresses the challenges facing contemporary societies and ecological changes demonstrating how the ecological humanities can transform architecture as a field and radically alter its history references values and aims The book aims to contribute to a metamorphosis of architecture towards greater ecological and emancipatory capacity and towards pluriversal bioregions Rapport d'information sur l'impact du numérique sur le secteur touristique français Daniel Fasquelle, Pascale Got, 2015-02-10 Le tourisme est aujourd'hui l'un des secteurs les plus réceptifs à l'économie numérique Le touriste devient de plus en plus un consommateur Le présent rapport

tente de mesurer et d'apprécier la portée de ce choc technologique pour le tourisme français. Du côté de l'offre de nouvelles opportunités sont apparues pour valoriser le potentiel touristique et le promouvoir. Des géants mondiaux de l'e-tourisme sont apparus depuis quinze ans. L'e-tourisme français et européen existe même s'il prouve des difficultés à atteindre une taille critique et combler son retard. Enfin les acteurs institutionnels du tourisme au niveau des territoires comme au niveau national doivent aussi s'adapter à la numérisation. D'une façon générale l'absence de véritable structuration de la filière touristique se fait particulièrement ressentir dans le rapport que les différents acteurs entretiennent avec l'outil numérique. La deuxième partie du rapport traite plus particulièrement de la question de l'offre d'hébergement touristique et de la manière dont les acteurs mondiaux de premier plan tels que Booking, Expedia, Airbnb ou TripAdvisor impactent l'économie du secteur. Les hôteliers français sont aujourd'hui en première ligne pour contester des pratiques qu'ils considèrent nocives pour leur garde-manger. La numérisation a également contribué largement à élargir considérablement le champ d'activité de la location saisonnière. Le rapport se penche également sur la question de la fiabilité des avis de consommateurs sur Internet. En premier lieu des actions doivent être menées afin que l'industrie touristique française paracheve sa mutation numérique. En conclusion les propositions des rapporteurs sont les suivantes :

- 1 Encourager l'innovation dans le secteur touristique et favoriser l'essor de start-up en particulier dans le domaine du m-tourisme ou de l'exploitation de données
- 2 Faciliter l'accès des entreprises innovantes aux financements existants et mieux les intégrer au cosystème touristique
- 3 Mettre en place un 35e plan de reconquête industrielle au bénéfice de la filière touristique axé sur la thématique de l'e-tourisme pour rapprocher les acteurs du secteur et identifier les enjeux venir en termes d'innovation
- 4 Mettre davantage l'accent sur la formation aux outils numériques des professionnels du secteur dans une approche de commercialisation directe plus efficace
- 5 Intégrer la dimension numérique dans l'ensemble des programmes de formation professionnelle pour les métiers du tourisme notamment ceux de l'hôtellerie
- 6 Rapprocher les producteurs de l'offre des acteurs qui veulent déjà leur offrir des solutions innovantes en direction notamment du marché domestique
- 7 Promouvoir les initiatives de mise en commun par des acteurs aujourd'hui atomisés des moyens permettant leur mise à niveau

Il s'agit ensuite de redéfinir les partenariats conclus entre l'industrie touristique et les pouvoirs publics au niveau des territoires comme au niveau national

- 8 Redéfinir le rôle et les missions des organismes institutionnels de tourisme face aux mutations générées par la numérisation dans leur rapport avec les prestataires locaux et la clientèle touristique
- 9 Favoriser la mutualisation des moyens au niveau territorial pour la production de contenus touristiques diffusables et exploitables en ligne dans une logique de destination plus que dans une logique administrative
- 10 Définir une stratégie nationale de marques de portée à la fois mondiale, européenne et nationale selon les clientèles ciblées dont le pilotage serait assuré par Atout France en tant que fédérateur des acteurs institutionnels
- 11 Donner aux destinations françaises une visibilité accrue par la création d'un portail national qui bénéficierait de la remontée des contenus des différents niveaux institutionnels et qui en assurerait la promotion
- 12 Enfin les pouvoirs publics ont également une responsabilité vis-à-vis des professionnels afin de leur offrir un cadre

juridique propice au développement des activités touristiques 13 Adapter le cadre normatif applicable aux acteurs traditionnels du tourisme afin que ceux-ci ne soient pas pénalisés face aux acteurs de l'e-tourisme 14 Opérer une remise en place des règles relatives à l'information et la protection du consommateur en matière d'e-tourisme 15 Encourager la mobilisation des acteurs du tourisme en faveur d'une véritable concurrence libre et non faussée à l'échelle européenne pour le renforcement sur les moteurs de recherche Mieux protéger nos marques sur Internet dès lors qu'elles peuvent être détournées en tant que commercialisées comme mots-clés ou en noms de domaines Faire en sorte que les acteurs de l'e-tourisme basés ou non en France apportent une meilleure contribution aux charges publiques par des mesures visant davantage d'impôt fiscal Sur tous ces points prendre l'initiative d'une concertation européenne afin que les enjeux du tourisme soient mieux pris en compte à cette échelle

Genre et fondamentalismes/Gender and Fundamentalisms Fatou Sow, 2018-09-26 When why and how can religion and culture be both sources and places of expression for fundamentalisms particularly in relation to politics Those are the central questions asked throughout this book alongside a discussion on the result when religion strengthened by culture is used as a political tool to access moral and social power Cultural and religious messages often form the basis of decisions laws and programs made in politics and have a direct effect on society in general and on women and gender relations in particular The various forms taken by fundamentalisms in some African countries and the contexts under which they have emerged the ways in which they reshape identities and relationships between men and women are also analysed in this book These fundamentalisms are frequently sources of concern in social debates in feminist and feminine organizations as well as in academia and politics The manipulation of cultures and religions are becoming progressively political and consequently can cause social discrimination or even physical moral and symbolic violence

Natural Language Processing for Social Media Anna Atefeh Farzindar, Diana Inkpen, 2020-04-10 In recent years online social networking has revolutionized interpersonal communication The newer research on language analysis in social media has been increasingly focusing on the latter's impact on our daily lives both on a personal and a professional level Natural language processing NLP is one of the most promising avenues for social media data processing It is a scientific challenge to develop powerful methods and algorithms that extract relevant information from a large volume of data coming from multiple sources and languages in various formats or in free form This book will discuss the challenges in analyzing social media texts in contrast with traditional documents Research methods in information extraction automatic categorization and clustering automatic summarization and indexing and statistical machine translation need to be adapted to a new kind of data This book reviews the current research on NLP tools and methods for processing the non-traditional information from social media data that is available in large amounts and it shows how innovative NLP approaches can integrate appropriate linguistic information in various fields such as social media monitoring health care and business intelligence The book further covers the existing evaluation metrics for NLP and social media applications and the new efforts in evaluation campaigns or shared

tasks on new datasets collected from social media. Such tasks are organized by the Association for Computational Linguistics such as SemEval tasks, the National Institute of Standards and Technology via the Text REtrieval Conference (TREC) and the Text Analysis Conference (TAC) or the Conference and Labs of the Evaluation Forum (CLEF). In this third edition of the book, the authors added information about recent progress in NLP for social media applications, including more about the modern techniques provided by deep neural networks (DNNs) for modeling language and analyzing social media data.
