Intersectionality Roland Betancourt, 2020-10-06 Intersectionality a term coined in 1989 is rapidly increasing in importance within the academy as well as in broader civic conversations It describes the study of overlapping or intersecting social identities such as race gender ethnicity nationality and sexual orientation alongside related systems of oppression domination and discrimination Together these frameworks are used to understand how systematic injustice or social inequality occurs In this book Roland Betancourt examines the presence of marginalized identities and intersectionality in the medieval era He reveals the fascinating little examined conversations in medieval thought and visual culture around matters of sexual and reproductive consent bullying non monogamous marriages homosocial and homoerotic relationships trans and non binary gender identifications representations of disability and the oppression of minorities In contrast to contemporary expectations of the medieval world this book looks at these problems from the Byzantine Empire and its neighbors in the eastern mediterranean through sources ranging from late antiquity and early Christianity up to the early modern period In each of five chapters Betancourt provides short carefully scaled narratives used to illuminate nuanced and surprising takes on now familiar subjects by medieval thinkers and artists For example Betancourt examines depictions of sexual consent in images of the Virgin the origins of sexual shaming and bullying in the story of Empress Theodora early beginnings of trans history as told in the lives of saints who lived portions of their lives within different genders and the ways in which medieval authors understood and depicted disabilities Deeply researched this is a groundbreaking new look at medieval culture for a new generation of scholars David Jones and Rome Jasmine Hunter Evans, 2022-02-03 This interdisciplinary and archival study

explores the reception of ancient Rome in the artistic literary and philosophical works of David Jones 1895 1974 the Anglo Welsh Roman Catholic First World War veteran For Jones the twentieth century was a period of crisis an age of conflict disillusionment and cultural decay all of which he saw as evidence of the decline of Western civilisation Across his lifetime Jones would create a dynamic vision of ancient Rome in an attempt both to understand and to challenge this situation His reimagining of Rome was not founded on a classical education Instead it was fashioned from his lived experience extensive reading and most importantly his engagement with four areas of contemporary discourse that were themselves built upon intricate and conflicting representations of Rome British political rhetoric cyclical history the Catholic cultural revival and the Welsh nationalist movement Tracing Jones s developing approach to Rome across these contexts can provide a way into his art and thought Whether in his poetic fragments watercolours essays letters marginalia or unique painted inscriptions Jones strove to question complicate and remake Rome s relationship with modernity In this way Rome appears in Jones s

Garroway, 2018-06-11 In this innovative study Joshua D Garroway offers a revised account of the origin of the all important Christian word gospel yielding significant new insights into the development of early Christian history and literature Long thought to have originated on the lips of Jesus or his disciples gospel was in fact coined by Paul midway through his career to describe his controversial new interpretation of Jesus death and resurrection

For nearly a decade after the crucifixion the thoroughly Jewish Jesus movement demanded circumcision and Law observance from Gentile converts Only in the early 40s did Paul arrive at the belief that such observance was no longer necessary an insight he dubbed the gospel or good news The remainder of Paul s career featured clashes with authorities over the legitimacy of the gospel debates that continued after his death in the writings of Mark Matthew and Luke Acts These writings obscured the original context of the gospel however and in time the word lost its specific association with Paul and his scandalous notion of salvation outside the Law
