History Theory Text Historians And The Linguistic Turn:

History, Theory, Text Elizabeth A. Clark, 2004-10-30 A historian of early Christianity considers various theoretical critiques to examine the problems and opportunities posed by the ways in which history is written Clark argues for a renewal of the study of premodern Western history through engagement with the critical methods that have transformed other humanities disciplines in recent decades *The Routledge Companion to Historical Theory* Chiel van den Akker, 2021-11-15 This Companion provides a wide ranging and up to date overview of the conceptual issues that history as a discipline and mode of thought gives rise to The book offers both historical and systematic treatments of these issues as well as addressing their contemporary relevance Structured in three parts Modes and Schools of Historical Thought Epistemology and Metaphysics of History and Issues and Challenges in Historical Theory it offers the reader a wide scope and expert treatment of each topic in this vibrant field that can be read in any order An international team of experts both discuss the basis of their topic and present their own view offering the reader a cutting edge contribution while ensuring their chapters are of interest to both students and specialists in the field of historical theory and engaging with the very nature of historical thought the metaphysics of historical existence the politics of history writing and the intelligibility of the historical process The volume is an indispensable companion to the study of history and essential reading for anyone interested in the reflection on the nature of history and our historical existence **From History to Theory** Kerwin Lee Klein, 2011-05-19 From History to Theory describes major changes in the conceptual language of the humanities particularly in the discourse of history In seven beautifully written closely related essays Kerwin Lee Klein traces the development of academic vocabularies through the dynamically shifting cultural political and linguistic landscapes of the twentieth century He considers the rise and fall of philosophy of history and discusses past attempts to imbue historical discourse with scientific precision He explores the development of the meta narrative and the post Marxist view of history and shows how the present resurgence of old words such as memory in new contexts is providing a way to address marginalized peoples In analyzing linguistic changes in the North American academy From History to Theory innovatively ties semantic shifts in academic discourse to key trends in American society culture and politics **Theory, History, and the Study of Religion in Late Antiquity** Maia Kotrosits, 2023-02-09 Theory is not a set of texts it is a style of approach It is to engage in the act of speculation gestures of abstraction that re imagine and dramatize the crises of living This Element is a both a primer for understanding some of the more predominant strands of critical theory in the study of religion in late antiquity and a history of speculative leaps in the field It is a history of dilemmas that the field has tried to work out again and again questions about subjectivity the body agency violence and power This Element additionally presses us on the ethical stakes of our uses of theory and asks how the field's interests in theory help us understand what's going on half spoken in the disciplinary unconscious [The Historian's Toolbox](#) Robert C. The Cappadocian Mothers Carla D. Sunberg,2018-01-01 The Cappadocian Fathers had great influence on the church of the fourth century having brought their passion for Christ and theological expertise to life in their ministry Their work was not devoid of influence including that of their immediate family members Within their writings we uncover the lives of seven women the Cappadocian Mothers who may have had more influence on the theology of the church than previously believed As the Cappadocians wrestle with the Christianization of the concept of deification we find the women in their lives becoming models for their theological understanding The lives of the women become points of intersection in the kenosis theosis parabola Not only are the Cappadocian Mothers uncovered in the texts but they become models of an optimistic theology of restoration for all of humanity without constraint of gender

Plurihistoricity Zoltán Boldizsár Simon,2025-07-25 This book situates historical scholarship within a plurihistoricity of contemporary historical culture exploring conflicting conceptions of historical change in technological utopias of human enhancement in prospects of human extinction in societal responses to the Anthropocene and in the imperative of bringing colonial patterns of historical injustice to justice Contemporary societies increasingly reclaim history from the academic pursuit of historiography On the one hand societal engagement in history is growing palpably History is literally everywhere in the fallen statues of past political regimes in trajectories of environmental degradation and in technological prospects of space expansion On the other hand societal demand for history seems to diminish rather than strengthen the authority of professionalized historical studies What do these societal historicities stand for How do they create pasts that matter What futures do they desire or attempt to avoid How do they view the historical transitions into those futures And what is the societal role of historical scholarship and scholarly conceptions of history in the plurihistoricity of contemporary historical culture By addressing these questions Simon s book is essential reading for everyone interested in the present and future of viewing the world historically

liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including intersexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life
