Yalom considered head on the limitations imposed by these new realities and revolutionized his practice Turning his focus to what might be achieved in a one hour one time only meeting between patient and practitioner Dr Yalom employed an even more concerted use of his here and now approach In *Hour of the Heart* Yalom recounts some of these intense life changing sessions exploring an array of human predicaments and his own late career development as a therapist In recounting these consultations he shows how a therapist's willingness to be open helps patients let down their own guards leading to a deeper and more immediate connection one necessary to achieving profound realizations in just sixty minutes This vulnerability led Yalom to disclose details about his personal life that he might previously have kept hidden from patients including his traumatic childhood in Washington DC the evolution of his thinking about philosophy and psychotherapy and the recent death of his wife Throughout he pushes the boundaries of self revelation as a therapeutic tool Life is precious and our time together short Written in collaboration with his son *Hour of the Heart* shows us how to relate to each other better in the moment with more honesty and vulnerability That hour of connection occurring during a time of isolation and grief for so many helped to sustain both patient and therapist and enriched Yalom's vision of what psychotherapy can do
