Ethical Decisions for Social Work Practice Frank M. Loewenberg, Ralph Dolgoff, 1982 Design, Ecology, Politics Joanna Boehnert, 2018-02-08 *Design Ecology Politics* links social and ecological theory to design theory and practice critiquing the ways in which the design industry perpetuates unsustainable development Boehnert argues that when design does engage with issues of sustainability this engagement remains shallow due to the narrow basis of analysis in design education and theory The situation is made more severe by design cultures which claim to be apolitical Where design education fails to recognise the historical roots of unsustainable practice it reproduces old errors New ecologically informed design methods and tools hold promise only when incorporated into a larger project of political change *Design Ecology Politics* describes how ecological literacy challenges many central assumptions in design theory and practice By bringing design ecology and socio

political theory together Boehnert describes how power is constructed reproduced and obfuscated by design in ways which often cause environmental harms She uses case studies to illustrate how communication design functions to either conceal or reveal the ecological and social impacts of current modes of production The transformative potential of design is dependent on deep reaching analysis of the problems design attempts to address Ecologically literate and critically engaged design is a practice primed to facilitate the creation of viable sustainable and just futures With this approach designers can make sustainability not only possible but attractive Researching Medical Education Jennifer Cleland, Steven J.

Durning, 2015-06-18 Researching Medical Education is an authoritative guide to excellence in educational research in the health professions Presented by the Association for the Study of Medical Education and the Association for Medical Education in Europe Researching Medical Education includes contributions from a team of international clinicians and non clinical researchers in health education representing a range of disciplines and backgrounds This accessible reference provides readers with the basic building blocks of research introduces a range of theories and how to use them illustrates a diversity of methods and their use and gives guidance on practical researcher development By linking theory and design and methods across the health profession education research spectrum this book supports the improvement of quality capacity building and knowledge generation Researching Medical Education is the ideal resource for anyone researching health education from undergraduate through postgraduate training to continuing professional development **Technology and the Virtues** Shannon Vallor, 2016-08-18 New technologies from artificial intelligence to drones and biomedical enhancement make the future of the human family increasingly hard to predict and protect This book explores how the philosophical tradition of virtue ethics can help us to cultivate the moral wisdom we need to live wisely and well with emerging technologies *Coronavirus Disease (COVID-19): Psychological Reactions to the Pandemic* Joanna Sokolowska, Peter

Ayton, Eduard Brandstätter, 2021-10-14 **Social Medicine in the 21st Century** Samuel Barrack, 2011-04 PLoS Medicine s October 2006 issue contained a special collection of eleven magazine articles and five research papers devoted entirely too social medicine The collection featured many of the leaders in the field including Paul Farmer Arthur Kleinman David Satcher Nancy Scheper Hughes Dorothy Porter and Leon Eisenberg The Kaiser Family Foundation has conducted interviews with two of the authors of papers in this collection David Satcher and Paul Farmer In its launch issue in October 2004 PLoS Medicine signaled a strong interest in creating a journal that went beyond a biological view of health to incorporate socioeconomic ethical and cultural dimensions For example that first issue contained a policy paper on how the health community should respond to violent political conflict a debate on whether health workers should screen all women for domestic violence and a study on the global distribution of risk factors for disease Two years on our October 2006 issue takes our interest even further It contains a special collection of ten magazine articles and five research papers devoted entirely to social medicine We are delighted that the collection features many of the leaders in the field including the renowned medical anthropologists

Paul Farmer and Arthur Kleinman the former United States Surgeon General David Satcher and the Harvard professor of social medicine and psychiatry Leon Eisenberg Most of our readers have welcomed our inclusive view of what a medical journal should highlight Some however have been critical suggesting that we should publish less soft stuff and more hard science These critics might argue that in this era of stem cell research and the human genome project of molecular medicine and DNA microarray technology the notion of social medicine seems irrelevant and outmoded But the ultimate role of a medical journal is surely to contribute to health improvement and that means looking not just at molecules but at the social structures that contribute to illness The stark fact is that most disease on the planet is attributable to the social conditions in which people live and work The socially disadvantaged have less access to health services and get sicker and die earlier than the privileged Despite impressive technological advances in medicine global health inequalities are worsening
