Islam And The Secular State Negotiating The Future Of Sharia:

Islam and the Secular State Abdullahi Ahmed An-Na'im, 2010-03-30 What should be the place of Shari'a Islamic religious law in predominantly Muslim societies of the world In this book a Muslim scholar and human rights activist envisions a positive and sustainable role for Shari'a based on a profound rethinking of the relationship between religion and the secular state in all societies

Islam and the Secular State Abdullahi Ahmed An-Na'im, 2010-03-30 What should be the place of Shari'a Islamic religious law in predominantly Muslim societies of the world In this ambitious and topical book a Muslim scholar and human rights activist envisions a positive and sustainable role for Shari'a based on a profound rethinking of the relationship between religion and the secular state in all societies An Na'im argues that the coercive enforcement of Shari'a by the state betrays the Qur'an's insistence on voluntary acceptance of Islam Just as the state should be secure from the misuse of religious authority Shari'a should be freed from the control of the state State policies or legislation must be based on civic reasons accessible to citizens of all religions Showing that throughout the history of Islam Islam and the state have normally been separate An Na'im maintains that ideas of human rights and citizenship are more consistent with Islamic principles than with claims of a supposedly Islamic state to enforce Shari'a In fact he suggests the very idea of an Islamic state is based on European ideas of state and law and not Shari'a or the Islamic tradition Bold pragmatic and deeply rooted in Islamic history and theology *Islam and the Secular State* offers a workable future for the place of Shari'a in Muslim societies

Islam and the Secular State: Negotiating the Future of Shari'a 'Abd Allāh Aḥmad Na'im, *The Shari'a* Aryn Sajoo, 2018-03-30 2019 Choice Outstanding Academic title I B Tauris in association with the Institute of Ismaili Studies Why is the term shari'a the mention of which conjures up images of a politicised religion in many parts of the world understood in the ways that it is today For Muslims and non Muslims alike much is read into this term often with scant regard for its historical cultural or theological underpinnings The politics of identity has a profound effect on contemporary life both secular and religious and this includes our understandings of the shari'a Yet at the core of this concept for Muslims is the quest for a moral compass by which to navigate a path through life Qur'an 45:18 informed deeply by revelation and its interpretation by the Prophet Muhammad as well as his closest Companions Built on this foundation is an ongoing human endeavour to grasp and lend expression to that teaching elaborately in law but no less so in devotional ethical and customary practices in diverse Shi'i and Sunni Muslim communities including in the West Popular myths about the shari'a that it is divine law that it is contained in a single code recognised by all Muslims that it is about controlling behavior that it defines Islam are challenged in this volume by leading scholars with a view to illuminating how we arrived here and where we might be headed The claims of the modern state as the custodian of the shari'a are put into perspective alongside the vital role of a pluralist civil society From bioethics human development family law and finance to constitutional and human rights issues this fifth volume in the Muslim Heritage Series offers an accessible account of the ideals and realities of the shari'a As such it

will appeal not only to specialists in the humanities and social sciences but also to the general reader with an interest in global affairs and informed citizenship *Islamic Doctrines and Political Liberalism* Gozde Hussain, 2024-11-13 This book delves into the compatibility of Islam with liberal values engaging in a comparative analysis of Islamic moral language and John Rawls's liberal democratic ideas Rawls a prominent modern liberal political philosopher posits that diverse moral and religious doctrines in a pluralistic society should align with the principles of a liberal democratic political culture The author shares Rawls's assumptions and maps out a spectrum of Islamic orthodoxy positions to assess the plausibility of reconciling Islamic doctrines with a liberal political order While acknowledging that such compatibility is not the mainstream outlook the book argues that it is feasible through reasonable interpretations of Islamic sources The central question addressed is the realism of observant Muslims endorsing a liberal democratic state from within their doctrinal tradition By examining a range of Islamic orthodoxy positions the book demonstrates that Muslims can theoretically find Islamic reasons rooted in acceptable interpretations of divine sources to justify their commitment to a liberal state Furthermore it provides moral reasons and strategies for the liberal state to address incompatible Islamic doctrines ensuring Muslims can maintain religious practices without an Islamic political authority This theoretical framework offers insights for future empirical and theoretical studies on Muslims navigating pluralistic liberal societies making it a vital contribution to the discourse on Islam and liberalism

Shari'a Politics Robert W. Hefner, 2011-04-04 One of the most important developments in Muslim politics in recent years has been the spread of movements calling for the implementation of sharia or Islamic law *Sharia Politics* maps the ideals and organization of these movements and examines their implications for the future of democracy citizen rights and gender relations in the Muslim world These studies of eight Muslim majority societies and state of the field reflections by leading experts provide the first comparative investigation of movements for and against implementation of sharia These essays reveal that the Muslim public's interest in sharia does not spring from an unchanging devotion to received religious tradition but from an effort to respond to the central political and ethical questions of the day

Shari'a and the Constitution in Contemporary Legal Models Federico Lorenzo Ramaioli, 2024-03-23 This comparative law book aims at formulating a new analytical approach to constitutional comparisons assuming as a starting point the different legal perspectives implied in the Sunni Islamic outlook on the juridical phenomena and the Western concept of law with particular reference to constitutionalism The volume adopts a wider and comprehensive viewpoint comparing the different ways in which the Islamic shari'a and Western legal categories interact regardless of substantive contents of specific provisions thus avoiding conceptual biases that can sometime affect present literature on the matter The book explores the various dynamics subtended to the interactions between shari'a and Western constitutionalism providing a new classification to the different contemporary models The philosophical and legal comparisons are analyzed in a dynamic way based on a wide range of contemporary constitutional systems virtually encompassing all the States in which Sunni Islam plays a major cultural role

and taking also into consideration non State actors and non recognized actors Published in cooperation with gLAWcal Global Law Initiatives for Sustainable Development Hornchurch Essex United Kingdom *The Law of God*, 2014-10-16 In today's society a positive relation between God and civilization is by no means self evident Religious believers who want to live their lives in accordance with the law of God are often considered a threat to civilization To many monotheistic religion is inherently repressive and violent The central aim of this volume is to think of both God and civilization in a more open space giving way God is seen as the One who prevents man from making an absolute claim for a relative reality including one's religion and culture The multifaceted relations between God and civilization are explored from systematic theological missiological philosophical and ethical perspectives The Oxford Handbook of Islamic Law Anver M. Emon, Rume Ahmed, 2018-10-25 This volume provides a comprehensive survey of the contemporary study of Islamic law and a critical analysis of its deficiencies Written by outstanding senior and emerging scholars in their fields it offers an innovative historiographical examination of the field of Islamic law and an ideal introduction to key personalities and concepts While capturing the state of contemporary Islamic legal studies by chronicling how far the field has come the Handbook also explains why certain debates recur and indicates fundamental gaps in our knowledge Each chapter presents bold new avenues for research and will help readers appreciate the contested nature of key concepts and topics in Islamic law This Handbook will be a major reference work for scholars and students of Islam and Islamic law for years to come
