Catherine A. Brekus, 2009-11-13 More than a generation after the rise of women's history alongside the feminist movement it is still difficult to locate women in histories of American religion. Mary Dyer a Quaker who was hanged for heresy, Lizzie Robinson a former slave and laundress who sold Bibles door to door, Sally Priesand a Reform rabbi, Estela Ruiz who saw a vision of the Virgin Mary: how do these women's stories change our understanding of American religious history and American women's history? In this provocative collection of twelve essays contributors explore how considering the religious history of American women can transform our dominant historical narratives. Covering a variety of topics including Mormonism, the women's rights movement, Judaism, witchcraft, trials, the civil rights movement, Catholicism, everyday religious life, Puritanism, African American women's activism and the Enlightenment, the volume enhances our understanding of both religious history and women's history. Taken together, these essays sound the call for a new, more inclusive history.

Dilemmas of Authenticity Zaid Adhami, 2025-05-07 The past two decades have witnessed pervasive anxieties in US Muslim communities around a perceived crisis of faith As Zaid Adhami argues in this richly textured ethnography these concerns are fundamentally about the pressures and dilemmas of authenticity what it really means to be a Muslim While discussions about authenticity in Islam typically focus on maintaining tradition and competing claims to true Islam Adhami focuses instead on the powerful idea of being true to one's own self and what it means to have genuine belief Drawing on extensive conversations with American Muslims and careful readings of broader communal discourse Adhami shows that this drive for personal authenticity plays out in complicated ways It can produce deep doubt while also serving as the grounds to affirm tradition It can converge with revivalist modes of piety but it can also prompt emphatic challenges to communal orthodoxies Through vivid storytelling and sensitive analysis Adhami illuminates why religious doubt is often a source of intense anxiety in today's world and how people maintain their faith despite such unsettling uncertainty

Beyond "Holy Wars" Christoffer H. Grundmann, 2014-04-23 The 9/11 al Qaeda attacks on the U.S. in 2001 shocked the world not only because of their viciousness but also because of the disillusionment that holy wars are a phenomenon of the past Holy wars rather are a reality in today's world too threatening global peace like never before In this volume Christoffer Grundmann pleads for the cultivation of religious literacy and interreligious dialogue First he attempts to regain an adequate understanding of religion by showing the incompatibility of abstract concepts of religion with religions actually lived So Grundmann suggests perceiving religion as the lived relationship toward an Ultimate Given that interreligious dialogue is communication about diverse ways of relating to the Ultimate the religiously embedded primarily Jewish philosophy of encounter and dialogical thinking with its personalistic nature comes into focus here as uniquely suited for such communication Even though interreligious encounter implies risk Christians cannot but engage in it fearlessly says Grundmann because they trust that the risen Christ will reveal himself anew as the one he really is wherever and whenever Christians take part in dialogue with people of other faiths
