**Aldous Huxley's Island: A True Utopia?** Annika Wildersch,2009-12-01 Seminar paper from the year 2006 in the subject English Language and Literature Studies Literature grade 1 3 University of Hamburg Institut f r Anglistik course Alternate Worlds Utopian and Counterfactual English Fiction from the late 19th Century to the 1990 s language English abstract 1 Introduction Island is a novel of ideas light on the novel part and heavy on the ideas In fact it could also be seen as an essay with a bit of a plot entangled around it The plot in any case is secondary and easy to summarize The English journalist Will Farnaby is stranded on the island of Pala and is on the secret mission to negotiate a contract for oil Injured in the beginning he leads long conversations with some inhabitants through which he learns about the Palanese way of life As he takes pleasure in their virtues and beliefs he gives up his initial oil plans Nevertheless in the end Pala gets invaded by the neighbour island Rendang The emphasis in Island lies in the long conversations that Will leads in which he learns about the Palanese lifestyle and through which we the readers get to know about Huxley's ideas of an ideal society The questions this research paper deals with are What exactly are the utopian features in Island Are those features attainable and what is more are they worth to attain at all And in this context is Island rather a utopia of escape or reconstruction In order to find out the answers to these questions the paper will first offer an analysis of the ideas and then it will turn to the novel part with an analysis of the main plot

**Aldous Huxley Between East and West** ,2021-11-01 Although the title of this volume is Aldous Huxley between East and West the order of the articles found within goes from West to East which naturally imitates Huxley s own progress especially since he went to the trouble of stepping out as far West as possible before starting for the East Indeed one could argue that he was already on his way there before he left for California a continuous journey perhaps since from the Californian shores of the Pacific the East is the further West After the Introduction which places Huxley between East and West the book starts with a consideration of Huxley s family connections then goes onto his earliest fictions his interest in science and the issue of modernity and his experiments with drama and their inherent philosophical concerns The

poetry with which he began his writing career is then viewed as a link between his earlier Western self and his later Oriental interests suggesting that the latter was always inherent in the former A number of considerations of the Utopian themes in Huxley's middle and later fiction leads the volume to a climax with four articles surveying the foibles and the wisdom of Huxley's encounter with Eastern religious thought and philosophy his misunderstandings as well as ours of what actually he had learned and wished to pass on to the Western world *Aldous Huxley Annual* Jerome Meckier, Bernfried
