Through the Prism of Slavery Dale W. Tomich,2004-10-26 In this thoughtful book Dale W Tomich explores the contested relationship between slavery and capitalism Tracing slavery's integral role in the formation of a capitalist world economy he reinterprets the development of the world economy through the prism of slavery Through a sustained critique of Marxism world systems theory and new economic history Tomich develops an original conceptual framework for answering theoretical and historical questions about the nexus between slavery and the world economy The author explores how particular slave systems were affected by their integration into the world market the international division of labor and the interstate system He further examines the ways that the particular local histories of such slave regimes illuminate processes of world economic change His deft use of specific New World examples of slave production as local sites of global transformation highlights the influence of specific geographies and local agency in shaping different slave zones Tomich's cogent analysis of the struggles over the organization of work and labor discipline in the French West Indian colony of Martinique vividly illustrates the ways that day to day resistance altered the relationship between master and slave precipitated crises in sugar cultivation and created the local conditions for the transition to a post slavery economy and society

The Origins of the Modern World Robert Marks,2007 Robert B *Empire to Nation* Joseph W. Esherick,Eric Van Young,Hasan Kayali,2006-05-04 The fall of empires and the rise of nation states was a defining political transition in the making of the modern world As United States imperialism becomes a popular focus of debate we must understand how empire the nineteenth century's dominant form of large scale political organization had disappeared by the end of the twentieth century Here ten prominent specialists discuss the empire to nation transition in comparative perspective Chapters

on Latin America the Middle East Eastern Europe Russia and China illustrate both the common features and the diversity of the transition Questioning the sharpness of the break implied by the empire nation binary the contributors explore the many ways in which empires were often nation like and nations behaved imperially While previous studies have focused on the rise and fall of empires or on nationalism and the process of nation building this intriguing volume concentrates on the empire to nation transition itself Understanding this transition allows us to better interpret the contemporary political order and new forms of global hegemony

Politics and the Past John Torpey, 2004-09-01 Politics and the Past offers an original multidisciplinary exploration of the growing public controversy over reparations for historical injustices Demonstrating that reparations politics has become one of the most important features of international politics in recent years the authors analyze why this is the case and show that reparations politics can be expected to be a major aspect of international affairs in coming years In addition to broad theoretical and philosophical reflection the book includes discussions of the politics of reparations in specific countries and regions including the United States France Latin America Japan Canada and Rwanda The volume presents a nuanced historically grounded and critical perspective on the many campaigns for reparations currently afoot in a variety of contexts around the world All readers working or teaching in the fields of transitional justice the politics of memory and social movements will find this book a rich and provocative contribution to this complex debate

The Mongols at China's Edge Uradyn E. Bulag, 2002-04-03 This important study explores the multifaceted Mongol experience in China past and present Combining insights from anthropology history and postcolonial criticism Uradyn Bulag avoids romanticizing Mongols either as pacified primitive Other or as gallant resistance fighters Rather he portrays them as a people whose communist background and standing in China's northern borderlands has informed their political efforts to harness or confront Chinese nationalistic and political hegemony Breaking new ground in the study of Chinese and Mongol history and ethnicity the author offers a fresh interpretation of China viewed from the perspective of its peripheries and of minority nationalities in relation to the study of Chinese representation and minority self representation The author interrogates received wisdom about Chinese and minority nationalism by unraveling the Chinese discourse and practice of national unity He shows how the discourse was constructed over time through political rituals and sexuality in relation to Mongols and other non Chinese peoples that hark back to Chinese Xiongnu confrontations two millennia ago and Manchu conquest in the 17th and 18th centuries Titular rulers of an autonomous region in which they constitute a minority Mongols face enormous barriers in building and maintaining a socialist Mongolian nationality and a Mongolian language and culture Acknowledging these difficulties Bulag discusses a range of sensitive issues including the imbrication of nation class and ethnicity in the context of Mongol Chinese relations tensions inherent in writing a postrevolutionary history for a socialist nationality and the moral dilemma of building a socialist model with Mongol characteristics Charting the interface between a state centered multinational Chinese polity and a primordial nationalist multiculturalism that aims to manage minority

nationalities as cultures he explores Mongol ethnopolitical strategies to preserve their heritage *China's Great Proletarian Cultural Revolution* Woei Lien Chong, 2002 Treating China's Cultural Revolution as much more than a political event this innovative volume explores its ideological dimensions The contributors focus especially on the CR's discourse of heroism and messianism and its demonization of the enemy as reflected in political practice official literature and propaganda art arguing that these characteristics can be traced back to hitherto neglected undercurrents of Chinese tradition Moreover while most studies of the Cultural Revolution are content to point to the discredited cult of heroism and messianism this book also explores the alternative discourses that have flourished to fill the resulting vacuum The contributors analyze the intense intellectual and artistic ferment in post Mao China that embody resistance to CR ideology as well as the urgent quest for authentic individuality new forms of social cohesion and historical truth Contributions by Anne Marie Brady Woei Lien Chong Lowell Dittmer Monika Gaenssbauer Nick Knight Stefan R Landsberger Nora Sausmikat Barend J ter Haar Natascha Vittinghoff and Lan Yang

The Economic Aspect of the Abolition of the West Indian Slave Trade and Slavery Eric Williams, 2014-02-07 In his influential and widely debated *Capitalism and Slavery* Eric Williams examined the relation of capitalism and slavery in the British West Indies Binding an economic view of history with strong moral argument his study of the role of slavery in financing the Industrial Revolution refuted traditional ideas of economic and moral progress and firmly established the centrality of the African slave trade in European economic development He also showed that mature industrial capitalism in turn helped destroy the slave system Establishing the exploitation of commercial capitalism and its link to racial attitudes Williams employed a historicist vision that has set the tone for an entire field Williams's profound critique became the foundation for studies of imperialism and economic development and has been widely debated since the book's initial publication in 1944 *The Economic Aspect of the Abolition of the West Indian Slave Trade and Slavery* now makes available in book form for the first time his dissertation on which *Capitalism and Slavery* was based The significant differences between his two works allow us to rethink questions that were considered resolved and to develop fresh problems and hypotheses It offers the possibility of a much deeper reconsideration of issues that have lost none of their urgency indeed whose importance has increased

Local Democracy and Development T. M. Thomas Isaac, Richard W. Franke, 2002 In this definitive history a key figure in the People's Campaign in Kerala provides a unique insider's account of one of the world's most extensive and successful experiments in decentralization Launched in 1996 the campaign mobilized over 3 million of Kerala's 30 million people and resulted in bottom up development planning in all 1 052 of its villages and urban neighborhoods The authors tell a powerful story of mass mobilization and innovation as bureaucratic opposition was overcome corruption and cynicism were rooted out and parliamentary democracy prevailed Considering both the theoretical and applied significance of the campaign in the context both of India's development since independence and of recent international debates about decentralization civil society and empowerment the book provides invaluable lessons for

sustainable development worldwide **American Journal of Islamic Social Sciences 18:4** Eltigani Abdulqadir Hamid,M. Kabir Hassan & Faridul Islam,Larry Poston,Abdelilah Bouasria,Yasien Mohamed, The American Journal of Islamic Social Sciences AJISS established in 1984 is a quarterly double blind peer reviewed and interdisciplinary journal published by the International Institute of Islamic Thought IIIT and distributed worldwide The journal showcases a wide variety of scholarly research on all facets of Islam and the Muslim world including subjects such as anthropology history philosophy and metaphysics politics psychology religious law and traditional Islam Perilous Passage Amiya Kumar Bagchi,2008-01-28 In this innovative and ambitious global history distinguished economic historian Amiya Kumar Bagchi traces the global history of human change and survival under the sway of capitalism since the voyages of Columbus Writing with extraordinary range and depth he offers a criti **Masters of Terror** Gerry Van Klinken,Richard Tanter,Desmond Ball,2006-06-16 The terror campaign by pro Indonesian armed groups before during and after East Timor s independence referendum in 1999 was a blatant challenge to the international community as many of the acts of murder political intimidation destruction and mass deportation took place before the eyes of the world Yet still the ultimate responsibility has been denied and obscured Masters of Terror provides an authoritative analysis and documentation of the brutal operations carried out by the Indonesian army and its East Timorese allies The authors carefully assemble detailed accounts of the actions of the major Indonesian officers and East Timorese militia commanders accused of gross human rights violations This indispensable work explores a horrific frontal attack on democracy and calls for the establishment of an international tribunal for crimes against humanity in East Timor *War Is Hell* Charles Douglas Lummis,2023-03-03 War is Hell is a study of the philosophy of war and peace ranging critically from ancient peace thinking to today The author uses a Socratic method focused on political philosophy rather than on cultural or psychological aspects of war and peace making The book is not a treatise on ethics but rather an analysis of some aspects of the nature of war and peace This book is a study of war and by extension peace from the standpoint of political theory For all those who think there is too much war and to deal with that we need to search for new ways of thinking **The Politics of Greed** Andrew Harrison Schwartz,2006-10-12 With the dissolution of the Soviet Empire it seemed that market capitalism had triumphed and that democracy might replace authoritarian regimes Economic reformers in the former Eastern Bloc rushed to liberalize prices and transfer state assets to private hands They assumed that private owners in a market setting would have no choice but to behave rationally_ that is to invest in restructuring privatized enterprises so as to maximize profits They also assumed that these owners would perceive a stable institutional environment as conducive to economic success and thus become a powerful lobby in favor of the rule of law paving the way for democracy The post communist reality turned out to be very different Private owners found that in a weak state with limited laws and regulations and ineffective corporate governance structures it was more lucrative to steal enterprise assets and exploit opportunities for arbitrage than to restructure enterprises The lesson learned is that not all forms of private ownership are

the same As this book s in depth political history of privatization in Central and Eastern Europe demonstrates the way that assets are privatized matters both with respect to national economic performance and the successful development of the rule of law Andrew Harrison Schwartz had unprecedented access to high level Czech government officials during the Czech Republic s privatization process This book is the result of the unique insights he gained and the innovative analytical framework he subsequently developed_ownership regime theory_which for the first time places ownership structures at the center of political transition analysis Engaging and important The Politics of Greed applies ownership regime theory to a broad range of post communist privatization cases including those of the Czech Republic Poland Hungary Russia and Ukraine

Researching Music Censorship Helmi Järviluoma,Annemette Kirkegaard,Jan Sverre Knudsen,2017-06-23 Freedom of expression and its direct counterpart censorship and silencing are increasingly gaining attention in the world of art and culture Through the growth of social media and its worldwide distribution arts and cultural products are shared and the increased visibility and audibility of culture is highlighted through iconic and pivotal clashes such as the fatwa on The Satanic Verses in 1989 the recurring bans on the music of Wagner the alleged censorship of playlists following 9 11 and the cartoon crisis in 2006 This volume takes the discussion directly to the field of music studies in a broad frame and insists on examining music censorship in a global perspective The book addresses the important and increasingly relevant issue of scholarship on music censorship and thus contributes to a detailed understanding of the phenomenon Often words and semantic meaning are held to be determining to the restrictions on musicians and singers but as this collection documents the reasons for censorship might not always be found in verbal messages Rather the positioning of a more broad understanding of why and how music can convey meaning and accordingly trigger censorship and bans is at the heart of this work The complexity of music censorship includes historical structural as well as emotional listenings and interpretations of sound The topic accordingly is political as well as scholarly urgent

Women, Urbanization and Sustainability Anita Lacey,2017-03-28 This work considers the city as a gendered space and examines women s experiences and engagement in both urbanization and sustainability Such a focus offers distinctive insights into the question of what it means for a city to be sustainable asking further how sustainability needs to work with gender and the gendered lives of cities inhabitants Vitally it considers women s lives in cities and their work to forge more sustainable cities through a wide variety of means including governmental non governmental and local grassroots and individual efforts towards sustainable urban life The volume is transnational offering case studies from a wide range of city sites and sustainability efforts It explores crucial questions such as the gendered nature and women s experiences of current urbanization the gendered nature of urban sustainability thinking and programmes and local alternatives and resistances to dominant modes of addressing urbanization challenges

The Republic of Love Martin Stokes,2010-10 Focusing on three entertainers who have become national icons Martin Stokes offers a portrait of Turkish identity that is very different from the official version of anthems and flags In particular he

discusses how a Turkish concept of love has been developed through the work of the singers and the public reaction to them

Leaving China Wanning Sun, 2002-08-15 More than ever before China is on the move When the flow of people and images is fused meanings of self place space community and nation become unstable and contestable This fascinating book explores the ways in which movement within and across the national borders of the PRC has influenced the imagination of the Chinese people both those who remain and those who have left Travelers or no all participate in the production and consumption of images and narratives of travel thus contributing to the formation of transnational subjectivities Wanning Sun offers a fine grained analysis of the significant narrative forms and discursive strategies used in representing transnational space in contemporary China This includes looking at how stay at homes fantasize about faraway or unknown places and how those in the diaspora remember experiences of familiar places She considers the ways in which mobility of people capital and images affects localities through individuals constructions of a sense of place Relatedly the author illustrates how economic social and political forces either facilitate or inhibit the formation of a particular kind of transnational subjectivity *The Heritage of Edirne in Ottoman and Turkish Times* Birgit Krawietz, Florian Riedler, 2019-12-16 Modern scholarship has not given Edirne the attention it deserves regarding its significance as one of the capitals of the Ottoman Empire This edited volume offers a reinterpretation of Edirne s history from Early Ottoman times to recent periods of the Turkish Republic Presently disconnections and discontinuities introduced by the transition from empire to nation state still characterize the image of the city and the historiography about it In contrast this volume examines how the city engages in the forming deflecting and creative appropriation of its heritage a process that has turned Edirne into a UNESCO heritage hotspot A closer historical analysis demonstrates the dissonances and contradictions that these different interpretations and uses of heritage produce From the beginning Edirne was shaped by its connectivity and relationality to other places above all to Istanbul This perspective is employed at many different levels e g with regard to its population institutions architecture infrastructures and popular culture but also regarding the imaginations Edirne triggered In sum this multi disciplinary volume boosts urban history beyond Istanbul and offers new insight into Ottoman and Turkish connectivities from the vantage point of certain key moments of Edirne s history
