Ever since the beginning of the world man has contained within him an insatiable desire to be the captain of his own ship and master of his own fate It s a natural flaw in man in our fallen state It really becomes problematic when pride prevents one from looking outside their selves for help or for the correct answers in life It s not that God has abandoned us with no direction or answers it is simply the failure to launch in oneself a humbling posture to allow us to receive that which God has given to us freelyhis wisdom If any of you lacks wisdom let him ask God who gives generously to all without reproach and it will be given him Jas 1 5 ESV After years of history on display man makes the same mistake every day He understands what faith is and knows how to apply it but fails to seek out wisdom to point him in the right direction to place his faith Where you place your faith determines the directions your path of life will be Will you travel the long hard pothole ridden dusty road or the wellpaved smooth and straight road that sojourners decided to take before you to success Why not follow them and make it easier on yourself The book is my commentary of examples from my life where it seemed I always did it the hard way Taking the wrong road because I trusted my feelings instead of the trusted GPS men never stop to ask for directions I wrote this book from my failures and my search for truth to help others reach for wisdom in decision making processes Of course everyone still has that great gift from God of freedom of choice to make decisions in what they think is right In the end it may lead to the lemonade stand Proverbs 14 12      *10 Undisputable Principles for Prosperity* David S. Gardner,2015-11-06 This is a book about excellence more particularly about the conditions under which excellence is possible in our kind of society but it is also inevitably a book about equality about the kinds of equality that can and must be honored and the kinds that cannot be forced Such a book must raise some questions which

Americans have shown little inclination to discuss rationally What are the characteristic difficulties a democracy encounters in pursuing excellence Is there a way out of these difficulties How equal do we want to be How equal can we be What do we mean when we say Let the best man win Can an equalitarian society tolerate winners Are we overproducing highly educated people How much talent can the society absorb Does society owe a living to talent Does talent invariably have a chance to exhibit itself in our society Does every young American have a right to a college education Are we headed toward domination by an intellectual elite Is it possible for a people to achieve excellence if they don't believe in anything Have the American people lost their sense of purpose and the drive which would make it possible for them to achieve excellence **Nation's Manpower Revolution** United States.
