Italian Renaissance Historical Imagination 1860 1930:

The Italian Renaissance in the German Historical Imagination Martin A. Ruehl, 2015-10-15 Explores German engagement with the Italian Renaissance in the decades from German unification to the Weimar republic *The Italian Renaissance in the German Historical Imagination, 1860-1930* Martin A. Ruehl, 2015-10-15 Towards the end of the nineteenth century Germany's bourgeois elites became enthralled by the civilization of Renaissance Italy As their own country entered a phase of critical socioeconomic changes German historians and writers reinvented the Italian Renaissance as the onset of a heroic modernity a glorious dawn that ushered in an age of secular individualism imbued with ruthless vitality and a neo pagan zest for beauty *The Italian Renaissance in the German Historical Imagination* is the first comprehensive account of the debates that shaped the German idea of the Renaissance in the seven decades following Jacob Burckhardt's seminal study of 1860 Based on a wealth of archival material and enhanced by more than one hundred illustrations it provides a new perspective on the historical thought of Imperial and Weimar Germany and the formation of a concept that is still with us today *The Making of Modernity* Martin A. Ruehl, 2010 **The Renaissance Restored** Matthew Hayes, 2021-07-27 This handsomely illustrated volume traces the intersections of art history and paintings restoration in nineteenth century Europe Repairing works of art and writing about them the practices that became art conservation and art history share a common ancestry By the nineteenth century the two fields had become inseparably linked While the art historical scholarship of this period has been widely studied its restoration practices have received less scrutiny until now This book charts the intersections between art history and conservation in the treatment of Italian Renaissance paintings in nineteenth century Europe Initial chapters discuss the restoration of works by Giotto and Titian framed by the contemporary scholarship of art historians such as Jacob Burckhardt G B Cavalcaselle and Joseph Crowe that was redefining the earlier age Subsequent chapters recount how paintings conservation was integrated into museum settings The narrative uses period texts unpublished archival materials and historical photographs in probing how paintings looked at a time when scholars were writing the foundational texts of art history and how contemporary restorers were negotiating the appearances of these works The book proposes a model for a new conservation history object focused yet enriched by consideration of a wider cultural horizon *Print, Power, and Cultural Hegemony* Federico Dal Bo, 2024-09-23 Federico Dal Bo examines the design of early Hebrew books from the late fifteenth and sixteenth centuries focusing not only on the words in these early books but also on how they were arranged on the page He follows in the tradition of scholars such as Christopher de Hamel Marvin J Heller and David Stern who have explored the importance of these Hebrew books in influencing Jewish learning and attracting the interest of Christians The author discusses important prints such as the first Talmud and rabbinical bibles which marked a shift from being for Jewish readers only to being for both Jews and Christians The collaboration between Jewish editors and Christian printers changed the way these books looked and the audience for

whom they were intended At first these early prints copied the style of handwritten Hebrew manuscripts The simple layout could be difficult to read especially for long books like the Bible or Talmud But over time influenced by the humanism of the Italian Renaissance the layout became more complex The book also looks at how the layout changed from full page commentaries to a more complicated design in which the main text and commentaries shared the same page This shift challenged the idea of who was the primary author and emphasized the role of editors The layout with the main text in the center and the commentaries on the sides created a kind of unwritten rule for how to read religious texts Dal Bo s study also includes new information about a 1553 trial in which the Talmud was burned Overall it explores how the layout of these early Hebrew books shaped cultural power and influenced how people read

Vico, Hegel and the Making of Modern Italy

Alessandro De Arcangelis,2025-06-26 Embracing a transnational approach to 19th century Italian intellectual history this book examines the encounter and amalgamation of local and foreign philosophical traditions chiefly represented by the thought of Giambattista Vico and Georg Wilhelm Friedrich Hegel showcasing their contribution to shaping a historical mindset that guided and legitimised Italians experiences of political change Taking a revisionist stance the author challenges the prevailing view that Italian thinkers passively adopted foreign ideas Instead they engaged critically with them questioning their conceptual foundations and applicability to Italy s political landscape Vico Hegel and the Making of Modern Italy reveals that Italian intellectuals sought cultural and political renewal at both local and European levels not through assimilation but through steadfast allegiance to a local strand of political thought inspired by Vico s humanist historicism The book ultimately explores how philosophical thought empowered Italian intellectuals to navigate the uncertainties drama and energy of the Risorgimento underscoring the enduring significance of philosophical knowledge in shaping Italy s political trajectory

The World of Mr Casaubon Colin Kidd,2016-10-31 The World of Mr Casaubon takes as its point of departure a fictional character Mr Casaubon in George Eliot s classic novel Middlemarch The author of an unfinished Key to All Mythologies Casaubon has become an icon of obscurantism irrelevance and futility Crossing conventional disciplinary boundaries Colin Kidd excavates Casaubon s hinterland and illuminates the fierce ideological war which raged over the use of pagan myths to defend Christianity from the existential threat posed by radical Enlightenment criticism Notwithstanding Eliot s portrayal of Casaubon Anglican mythographers were far from unworldly and actively rebutted the radical freethinking associated with the Enlightenment and French Revolution Orientalism was a major theatre in this ideological conflict and mythography also played an indirect but influential role in framing the new science of anthropology The World of Mr Casaubon is rich in interdisciplinary twists and ironies and paints a vivid picture of the intellectual world of eighteenth and nineteenth century Britain

Georg Simmel and German Culture Efraim Podoksik, 2021-07-15 The significance of the

German philosopher and social thinker Georg Simmel 1858-1918 is only now being recognised by intellectual historians. Through penetrating readings of Simmel's thought taken as a series of reflections on the essence of modernity and modern civilisation, Efraim Podoksik places his ideas within the context of intellectual life in Germany and especially Berlin under the Kaiserreich. Modernity, characterised by the growing differentiation and fragmentation of culture and society, was a fundamental issue during Simmel's life, underpinning central intellectual debates in Imperial Germany. Simmel's thought is depicted here as an attempt at transforming the complexity of these debates into a coherent worldview that can serve as an effective guide to understanding their main parameters. Paying particular attention to the genealogy and usage of the concepts of *Bildung*, culture and civilisation in Germany, this study offers contextual analyses of Simmel's philosophies of culture, society, art, religion and the feminine, as well as his interpretations of Dante, Kant, Nietzsche, Schopenhauer, Goethe and Rembrandt.

Trust in Early Modern International Political Thought, 1598-1713 Peter Schröder, 2017-03-06 This book examines how trust relates to the main political concepts: sovereignty, reason of state and natural law of seventeenth century discourse.

The Emergence of Modern Aesthetic Theory Simon Grote, 2017-10-26 Broad in its geographic scope and yet grounded in original archival research, this book situates the inception of modern aesthetic theory, the philosophical analysis of art and beauty in theological contexts that are crucial to explaining why it arose. Simon Grote presents seminal aesthetic theories of the German and Scottish Enlightenments as outgrowths of a quintessentially Enlightenment project: the search for a natural foundation of morality and a means of helping naturally self-interested human beings transcend their own self-interest. This conclusion represents an important alternative to the standard history of aesthetics as a series of preludes to the achievements of Immanuel Kant, as well as a reinterpretation of several canonical figures in the German and Scottish Enlightenments. It also offers a foundation for a transnational history of the Enlightenment without the French philosophes at its centre, while solidly endorsing historians' growing reluctance to call the Enlightenment a secularising movement.

Roman Law in the State of Nature Benjamin Straumann, 2015-02-12 *Roman Law in the State of Nature* offers a new interpretation of the foundations of Hugo Grotius' natural law theory. Surveying the significance of texts from classical antiquity, Benjamin Straumann argues that certain classical texts, namely Roman law and a specifically Ciceronian brand of Stoicism, were particularly influential for Grotius in the construction of his theory of natural law. The book asserts that Grotius, a humanist steeped in Roman law, had many reasons to employ Roman tradition and explains how Cicero's ethics and Roman law, secular and offering a doctrine of the freedom of the high seas, were ideally suited to provide the rules for

Grotius state of nature This fascinating new study offers historians classicists and political theorists a fresh account of the historical background of the development of natural rights natural law and of international legal norms as they emerged in seventeenth century early modern Europe
