Subjectivity Rossella M. Riccobono, 2013-09-17 This collection of essays surveys some of the artistic productions by female figures who stood at the forefront of Italian modernity in the fields of literature photography and even the theatre in order to explore how artistic engagement in women informed their views on and reactions to the challenges of a changing society and a disinhibiting intellectual landscape However one other objective takes on a central role in this volume that of opening a window on the re definition of the subjectivity of the self that occurred during an intriguing and still not fully studied period of artistic and societal changes In particular the present volume aims to define a female Italian Modernism which can be seen as complementary and not necessarily in opposition to its male counterpart *Cronache di un fotografo impenitente.*

Le immagini vanno lette nel mistero iconico spesso fatalmente poetico che possibile individuare nelle vibrazioni dei segni dove c'è il profumo della Verità. Nel racconto di una notte magica e onirica Italo Zannier disegna la sua personalissima storia della fotografia la Signora dell'Arte a cui ha dedicato la vita. Una commedia profana in cui l'autore personaggio evoca la selva dei numi tutelari da Nicéphore Niépce a Gianni Berengo Gardin in un percorso che dagli esperimenti analogici di due secoli fa porta all'era della fotografia digitale in cui l'immagine ha invaso le nostre esistenze. Nel mezzo il sorgere di una cultura fotografica in Italia: gli incontri con i grandi maestri, le scoperte e le cocenti delusioni, la difesa appassionata di una sempre più necessaria educazione all'immagine.

Photography and Italy Maria Antonella Pelizzari, 2010-11-15

In this beautifully illustrated book Maria Antonella Pelizzari traces the history of photography in Italy from its beginnings to the present as she guides us through the history of Italy and its ancient sites and Renaissance landmarks. Pelizzari specifically considers the role of photography in the formation of Italian national identity during times of political struggle such as the lead up to Unification in 1860 and later in the nationalist wars of Mussolini's regime. While many Italians and foreigners such as Fratelli Alinari or Carlo Ponti, John Ruskin or Kit Talbot focused their lenses on architectural masterpieces, others documented the changing times and political heroes, creating icons of figures such as Garibaldi and the brigands. Pelizzari's exploration of Italian visual traditions also includes the photographic collages of Bruno Munari, the neorealist work of photographers such as Franco Pinna, the bold stylized compositions of Mario Giacomelli and the controversial images created by Oliviero Toscani for Benetton advertising in the 1980s. Featuring unpublished works and a rare selection of over one hundred images, this book will appeal to art collectors and students of art history and Italian culture.

Il fondo fotografico del Piano Regolatore di Roma 1883 Federico Del Prete, 2016-03-20T00:00:00+01:00

Le demolizioni e gli sventramenti nelle città del XIX secolo cancellano i palinsesti urbani antichi sovrappponendo ad essi nuove strutture moderne e razionali. La fotografia impiegata in massicce campagne di documentazione si rivela un mezzo di straordinaria efficacia per l'analisi ed il controllo del paesaggio. La rappresentazione dello spazio urbano in trasformazione non mancherà di influenzare a sua volta l'immagine della città: più in generale, vista come un organismo pulsante di vita anziché come uno statico insieme di monumenti. A Roma, durante i lavori per il Piano Regolatore del 1883, un gruppo di fotografi percorre la città per cinque anni con l'incarico di documentarne i cambiamenti. Questi fotografi incuriositi di lavorare lontano dai percorsi abituali per la loro professione cercano nuovi strumenti per documentare una città fino a quel momento vista

come un insieme di monumenti archeologici e scenette pittoresche Il fondo Piano Regolatore 1883 custodito presso l'Archivio Fotografico Comunale di Roma una raccolta di spettacolari immagini di trasformazione fortunate ricerche di archivio hanno permesso di tracciare la storia di queste fotografie dalla committenza alla destinazione finale approfondendo il lato emozionale del lavoro dei fotografi La loro esperienza costituisce il banco di prova per nuove soluzioni visive che saranno chiarite nella fotografia dei decenni successivi documentando così il passaggio dalla veduta fotografica ottocentesca ai modi della fotografia contemporanea
