Cardinal Jacopo Sadoletto, 1477-1547 Richard Mateer Douglas, 1956 **The Papacy and the Levant, 1204-1571**

Kenneth M. Setton, 1984 This is the third of four volumes which trace the history of the later Crusades and papal relations with the Levant from the accession of Innocent III in 1198 to the reign of Pius V and the battle of Lepanto 1566 1571 From the mid fourteenth century to the conclusion of his work the author has drawn heavily upon unpublished materials collected in the course of more than twenty palaeographical journeys to the Archivio Segreto Vaticano and the Archivi di Stato in Venice Mantua Modena Milan Siena Florence and the Archives of the Order of the Hospitallers at Malta Volumes I II and IV are available at www.amphilsoc.org **Biblical Humanism and Scholasticism in the Age of Erasmus** Erika Rummel, 2008 This handbook offers a new reading of the humanist scholastic debate over biblical humanism lending a voice to scholastic critics who have been unfairly neglected in the historical narrative The investigations cover controversies beginning in quattrocento Italy and spreading north of the Alps in the 16th century **Humanism, Universities, and Jesuit Education in Late Renaissance Italy** Paul F. Grendler, 2022-05-02 This book contains twenty essays on Italian Renaissance humanism universities and Jesuit education by one of its most distinguished living historians Paul F. Grendler The first section of the book opens with defining Renaissance humanism followed by explorations of biblical humanism and humanistic education in Venice It concludes with essays on two pioneering historians of humanism Georg Voigt and Paul Oskar Kristeller The middle section discusses Italian universities the sports played by university students a famous law professor and the controversy over the immortality of the soul The last section analyzes Jesuit education the culture of the Jesuit teacher the philosophy curriculum attitudes toward Erasmus and Juan Luis Vives and the education of a cardinal This volume collects Paul Grendler's most recent research published and unpublished offering to the reader a broad fresco on a complex and crucial age in the history of education **Giles of Viterbo on Church and Reform** John W. O'Malley, 2022-07-11 **Calvin and the Early Reformation** Brian C. Brewer, David M. Whitford, 2019-12-09 Those who have a passing knowledge of John Calvin's theology and reforms in Geneva in the sixteenth century may picture the confident and mature theologian and preacher without appreciating the various events people and circumstances that shaped the man Before there was Protestantism's first and eminent systematic theologian there was the French youth the law student and humanist the Protestant convert and homeless exile the reluctant reformer and anguished city leader Snapshots of the young Calvin create a collage that give a bigger picture to the grey bearded Protestant reformer Eleven scholars of early modern history have joined in this volume to depict the people movements politics education sympathizers nemeses and controversies from which Calvin emerged in his young adulthood **Contested Canonizations** Ronald C. Finucane, 2011-10-12 Pope John Paul II famously canonized more saints than all his predecessors combined Several of these candidates were controversial To this day there remain holy men

and women on the books of the Vatican's Congregation for the Causes of Saints whose canonization would provoke considerable debate. This was no less true during the period covered in this pioneering study by renowned medieval historian Ronald C. Finucane. This work, which forms an important bridge between medieval and Counter Reformation sanctity and canonization, provides a richly contextualized analysis of the ways in which the last five candidates for sainthood before the Reformation came to be canonized. Finucane uncovers the complex interplay of factors that lay behind the success of such campaigns, success that could never be taken for granted even when the candidate's holy credentials appeared uncontroversial and his backers politically powerful. Written by a master of the historical craft whose studies on miracles and popular religion for the high Middle Ages have long been an important point of reference for students, this work presents brilliantly reconstructed case studies of the last five successful canonization petitions of the Middle Ages: Bonaventure, Leopold of Austria, Francis of Paola, Antoninus of Florence, and Benno of Meissen.

ABOUT THE AUTHOR Ronald Finucane died at the height of his critical powers in 2009 shortly after he submitted this work for publication. Distinguished professor of history at Oakland University, he was the author of four books, including *Miracles and Pilgrims: Popular Beliefs in Medieval England* and *Soldiers of the Faith: Crusaders and Moslems at War*, both History Book Club selections. This book was brought to publication by Simon Ditchfield, reader in history at the University of York.

PRAISE FOR THE BOOK In this meticulously researched and carefully structured study, Finucane establishes his work as a critical touchstone for future studies of canonization procedures and their revision in the early modern period. David Collins, S.J., associate professor of history, Georgetown University. On the surface, the book is a meticulous, detailed but fairly traditional discussion of the processes or politics of saint making. However, Finucane's use of a case study approach allows him to find important commonalities among successful canonization cases without losing the inevitable complexity involved in the pursuit of each one. There is a great deal to learn from this book. *American Historical Review*. *Remembering the Renaissance*, Kenneth Gouwens, 1998. This study, drawing extensively upon manuscript sources, provides the first comprehensive account of how Rome's humanist community coped with the 1527 sack of the city, an event traditionally viewed as signaling the transition from the Renaissance to the Catholic Reformation.

John Calvin Matthieu Arnold, 2016-07-13 The three years that Calvin spent in Strasbourg are often considered a simple gap between his two periods in Geneva, 1536-1538 and 1541-1564. However, this period has been shown to be extremely fertile for Calvin in literary, theological, and pastoral fields, not forgetting his marriage to Idelette de Bure. It was in Strasbourg that Calvin published the second Latin edition, greatly increased, of his *Institution*, and where he wrote the first French version of this summary of the reformed religion. There, he lectured on Romans, replied to Cardinal Sadoleto, and wrote his *Little Treatise on Holy Communion*, intended to reconcile Protestants. There, he became familiar with Martin Bucer's catechetical practice and with the songs of the Strasbourg parishes, which inspired his *Some Psalms and Canticles* put into

Song and there he gained the friendship of Philippe Melanchthon and the respect of other Reformers The Confessionalization of Humanism in Reformation Germany Erika Rummel, 2000 In each of these areas humanists attempted to inject their own ideas into the Reformation debate but often these ideas were reshaped and resurfaced in a form that was far removed from its original humanistic context BOOK JACKET *Pope Paul III and the Cultural Politics of Reform* Bryan Cussen, 2025-10-01 When Paul III was elected in 1534 hopes arose across Christendom that this pope would at last reform and reunite the Church During his fifteen year reign though Paul's engagement with reform was complex and contentious A work of cultural history this book explores how cultural narratives of honour and tradition including how honour played out in politics significantly constrained Pope Paul and his chosen reformers in framing strategies for change Indeed the reformers programme would have undermined the culture of honour and weakened Rome's capacity to ward off current threats of invasion The study makes a provocative case that Paul called the Council of Trent to contain reform rather than promote it Nevertheless Paul and the Council did sow seeds of reform that eventually became central to the Counter Reformation This book thus sheds new light on a pope whose relationship to reform has long been regarded as an enigma

Cardinal Contarini at Regensburg Peter Matheson, 2014-09-24 The aim of this book is to demonstrate that the sixteenth century ecumenical movement and in particular the colloquy between Catholics and Protestants at Regensburg in 1541 was by no means an idle dream of an understanding doomed from the start Contarini's campaign for reconciliation mirrors the richness and elusiveness of pre Tridentine Catholicism It was the clash of cultures and politics as much as purely theological considerations that led to the failure of the Regensburg colloquy Contarini was not without sympathy for Lutheran theology until faced by the full implications of a Protestant church and a Protestant culture He then retreated first to a confessional Catholicism then to an intolerant Curialism *Beyond the Inquisition* Giorgio Caravale, 2017-04-30 In *Beyond the Inquisition* originally published in an Italian edition in 2007 Giorgio Caravale offers a fresh perspective on sixteenth century Italian religious history and the religious crisis that swept across Europe during that period Through an intellectual biography of Ambrogio Catarino Politi 1484-1553 Caravale rethinks the problems resulting from the diffusion of Protestant doctrines in Renaissance Italy and the Catholic opposition to their advance At the same time Caravale calls for a new conception of the Counter Reformation demonstrating that during the first half of the sixteenth century there were many alternatives to the inquisitorial model that ultimately prevailed Lancellotto Politi the jurist from Siena who entered the Dominican order in 1517 under the name of Ambrogio Catarino started his career as an anti Lutheran controversialist shared friendships with the Italian Spirituals and was frequently in conflict with his own order The main stages of his career are all illustrated with a rich array of previously published and unpublished documentation Caravale's thorough analysis of Politi's works actions and relationships significantly alters the traditional image of an intransigent heretic hunter and an author of fierce anti Lutheran tirades In the same way the reconstruction of his role as a papal theologian and as a bishop in the first

phase of the Council and the reinterpretation of his battle against the Spanish theologian Domingo de Soto and scholasticism reestablish the image of a Counter Reformation that was different from the one that triumphed in Trent the image of an alternative that was viable but never came close to being implemented *The Pontificate of Clement VII* Sheryl E. Reiss, 2017-03-02 The pontificate of Clement VII Giulio de' Medici is usually regarded as amongst the most disastrous in history and the pontiff characterized as timid vacillating and avaricious It was during his years as pope 1523-34 that England broke away from the Catholic Church and relations with the Holy Roman Emperor deteriorated to such a degree that in 1527 an Imperial army sacked Rome and imprisoned the pontiff Given these spectacular political and military failures it is perhaps unsurprising that Clement has often elicited the scorn of historians rather than balanced and dispassionate analysis This interdisciplinary volume the first on the subject constitutes a major step forward in our understanding of Clement VII's pontificate Looking beyond Clement's well known failures and anachronistic comparisons with more successful popes it provides a fascinating insight into one of the most pivotal periods of papal and European history Drawing on long neglected sources as rich as they are abundant the contributors address a wide variety of important aspects of Clement's pontificate re-assessing his character familial and personal relations political strategies and cultural patronage as well as exploring broader issues including the impact of the Sack of Rome and religious renewal and reform in the pre-Tridentine period Taken together the essays collected here provide the most expansive and nuanced portrayal yet offered of Clement as pope patron and politician In reconsidering the politics and emphasizing the cultural vitality of the period the collection provides fresh and much needed revision to our understanding of Clement VII's pontificate and its critical impact on the history of the papacy and Renaissance Europe **Art and Identity in Early Modern Rome** Jill Burke, 2017-07-05 From the late fifteenth to the late seventeenth century Rome was one of the most vibrant and productive centres for the visual arts in the West Artists from all over Europe came to the city to see its classical remains and its celebrated contemporary art works as well as for the opportunity to work for its many wealthy patrons They contributed to the eclecticism of the Roman artistic scene and to the diffusion of Roman artistic styles in Europe and beyond Art and Identity in Early Modern Rome is the first book length study to consider identity creation and artistic development in Rome during this period Drawing together an international cast of key scholars in the field of Renaissance studies the book adroitly demonstrates how the exceptional quality of Roman court and urban culture with its elected monarchy its large foreign population and unique sense of civic identity interacted with developments in the visual arts With its distinctive chronological span and uniquely interdisciplinary approach Art and Identity in Early Modern Rome puts forward an alternative history of the visual arts in early modern Rome one that questions traditional periodisation and stylistic categorisation Education in Renaissance England Kenneth Charlton, 2013-05-13 Covering both formal and informal education this volume examines Renaissance education in England and Italy set within the relevant social political and historical context Episcopal Reform and Politics in Early Modern Europe Jennifer Mara

DeSilva, 2012-09-18 In the tumultuous period of the sixteenth and seventeenth centuries when ecclesiastical reform spread across Europe the traditional role of the bishop as a public exemplar of piety morality and communal administration came under attack In communities where there was tension between religious groups or between spiritual and secular governing bodies the bishop became a lightning rod for struggles over hierarchical authority and institutional autonomy These struggles were intensified by the ongoing negotiation of the episcopal role and by increased criticism of the cleric especially during periods of religious war and in areas that embraced reformed churches This volume contextualizes the diversity of episcopal experience across early modern Europe while showing the similarity of goals and challenges among various confessional social and geographical communities Until now there have been few studies that examine the spectrum of responses to contemporary challenges the high expectations and the continuing pressure bishops faced in their public role as living examples of Christian ideals Contributors include William V Hudon Jennifer Mara DeSilva Raymond A Powell Hans Cools Antonella Perin John Alexander John Christopoulos Jill Fehleison Linda Lierheimer Celeste McNamara Jean Pascal Gay
