## **Is God A Vegetarian Christianity Vegetarianism And Animal Rights:**

**Is God a Vegetarian?** Richard A. Young, 1999 Young gives us a fresh reading of the Jewish and Christian traditions on animal related issues correcting misguided Christian views on the relation between humans and animals while facing up to the hard questions for Christians who want to embrace vegetarianism as a morally responsible way of life Cover **Is God a Vegetarian?** Richard Alan Young, 2012-03-30 Is God a Vegetarian is one of the most complete explorations of vegetarianism in the Judeo Christian tradition Young a linguistics and New Testament scholar attempts to answer the question being asked with greater and greater frequency Are Christians morally obligated to be vegetarians Many people are confused about the apparent mixed messages within the Bible On the one hand God prescribes a vegetarian diet in the Garden of Eden and the apocalyptic visions of Isaiah and John imply the restoration of a vegetarian diet However it is also clear that God permits Jesus partakes in and Paul sanctions the eating of flesh Does the Bible give any clear guidance Close readings of key biblical texts pertaining to dietary customs vegetarianism and animal rights make up the substance of the book Rather than ignoring or offering a literal twentieth century interpretation of the passages the author analyzes the voices of these conflicting dietary motifs within their own social contexts Interwoven throughout these readings are discussions of contemporary issues such as animal testing and experimentation the fur industry raising animals in factories and the effects of meat eating on human health Thirteen chapters cover such topics as the vegetarian diet in the Garden of Eden the clothing of the first humans in animal skins God s permitting humans to eat meat animal sacrifice the dietary habits of Jesus and the early apostles Paul s condemnation of vegetarianism as heresy the dietary views of the early church fathers the peaceable kingdom The author provides two vegetarian recipes at the end of each chapter An epilogue includes guidelines for becoming a vegetarian and a recommended reading list Insightful and challenging Is God a Vegetarian poses provocative questions for vegetarians Christians and anyone reflecting upon her personal choices and ethical role in our world today Vegetarianism and Veganism David E. Newton, 2019-06-24 This detailed and comprehensive overview of meat free diets introduces readers to their long history in human cultures and analyzes some of the important questions and issues surrounding their practice in today s world Vegetarianism and Veganism A Reference Handbook provides a history and background of vegetarianism and veganism from prehistorical times to the present day along with detailed discussions of the practice in each historical period since that time The ancillary chapters provide additional information on important individuals and organizations in the field relevant data and documents on the topic an annotated bibliography a chronology of important events and a glossary of terms likely to be encountered in the field Of special interest is the Perspectives chapter in which stakeholders in the topic write about some specific aspect of its importance in their own lives Intended for high school college and general readers the volume covers the field of vegetarianism and veganism in cultures from around the world Some specific topics include ancient views of vegetarianism religious stands on the practice the growth of vegetarian and vegan institutions and current

controversies over the practice of meat free diets It also includes a host of resources that readers can use to continue their own research in the field      **Ahimsa in the Indic Traditions** Jeffery D. Long, Steven J. Rosen, 2024-09-10 Ahi sa in the Indic Traditions Explorations and Reflections edited by Jeffery D Long and Steven J Rosen examines the diversity of nonviolent ahimsa oriented doctrines originating in the Indic world both in terms of interpersonal relationships and how they apply to the rest of creation including animals This volume engages the voices of scholars from various disciplines and addresses numerous religious doctrines including those of Hinduism Buddhism Jainism and their related sacred texts The book focuses not only on past scholarship and intellectual modes of understanding nonviolence but also on living traditions and the practice of modern and post modern individuals from Vivekananda to Gandhi to Prabhupada and their millions of supporters and followers The volume shows that the implications of ahimsa are staggering with reference to interpersonal exchange vegetarianism animal rights climate change and so on      *Animals and Ethics* Angus Taylor, 2003-05-12 A previous edition of this book appeared under the title Magpies Monkeys and Morals The new edition has been updated throughout Substantial new material has been added to the text including discussions of virtue ethics and Rawlsian contractarianism The bibliography has been significantly enlarged and now includes more than five hundred entries BOOK JACKET

**Christianity and Ecological Theology** E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa      Religious Vegetarianism Kerry S. Walters, Lisa Portmess, 2001-05-31 Stretching back more than two thousand years and spanning diverse traditions religious vegetarianism has an ancient and rich history In this book Kerry S Walters and Lisa Portmess gather writings that reflect devotional as well as more analytical responses to age old questions of animal suffering dietary practice and human responsibility These include writings from ancient Orphic and Pythagorean authors writings that span centuries of Indian and Buddhist thought and writings from the Judaic Christian and Islamic traditions Interesting both to those well versed in the literature of vegetarianism as well as to others encountering it for the first time are tensions within traditions over the use of animals for food whether such use is consonant with fundamental values of the faith whether religious law or tradition requires vegetarian practice and what place animals are thought to hold in the order of nature      **The Lost Religion of Jesus** Keith Akers, 2000 Jesus preaching was first and foremost about simple living pacifism and vegetarianism he never intended to create a new religion separate from Judaism Moreover Jesus radical Jewish ethics rather than a new theology distinguished him and his followers from other Jews It was the earliest followers of Jesus the Jewish Christians who understood Jesus better than any of the gentile Christian groups which are the spiritual ancestors of modern Protestant Catholic and Orthodox churches In this detailed and accessible study Keith Akers uncovers

the history of Jewish Christianity from its origins in the Essenes and John the Baptist through Jesus until its disappearance into Islamic mysticism sometime in the seventh or eighth century Akers argues that only by really understanding this mysterious and much misunderstood strand of early Christianity can we get to the heart of the radical message of Jesus of Nazareth

**After the New Age** Steven H. Propp, 2008-12-16 Its 1976 and Janet Tanhurst is a teenager who feels stifled by life with her strict mother and the authoritarian church she must attend Once out of high school however Janet is initiated into a fascinating new world of Astrology Tarot cards and Spirit Mediums Next she encounters the mysterious world of UFOs a bewildering and sometimes frightening realm encompassing ancient astronauts alien abductions and shadowy government conspiracies As the 1980s arrive the Christian dominated Piscean Age seems to be giving way to a long anticipated Aquarian Age with its hope for a coming revolution in higher consciousness There are new paradigms in philosophy and science promoting a holographic conception of the universe as engaged in a Cosmic Dance along with the emergence of an introspective type of instrumental music known as New Age With the help of bookstore owner Whisper Wynn Janet investigates subjects such as reincarnation quartz crystals chakras and the human aura in addition to an exciting new form of spiritual teaching called channeling Following movement leaders including Shirley MacLaine and Marianne Williamson studying enigmatic teachers like G I Gurdjieff and Carlos Castaneda and inspired by medical doctors such as Deepak Chopra and Andrew Weil she learns about Alternative Medicine and Holistic Health as well as traditional health practices from China Japan and India She assimilates wisdom from the ancient Celts along with rituals from contemporary Goddess worshippers in formulating her own unique concept of the Divine that is within us all

Animals and World Religions Lisa Kemmerer, 2012-01-19 Despite increasing public attention to animal suffering human beings continue to exploit billions of animals in factory farms medical laboratories and elsewhere This wide ranging study shows how spiritual teachings in seven major religious traditions can help people consider their ethical obligations towards other creatures

**The Living Church**, 1999

The Ethics of Animal Experimentation Donna Yarri, 2005-08-18 The ethical treatment of animals has become an issue of serious moral concern Many people are challenging long held assumptions about animals and raising questions about their status and treatment What is the relationship between humans and animals Do animals have moral standing Do we have direct or indirect duties to animals Does human benefit always outweigh animal suffering The use of animals for experimentation raises all of these questions in a particularly insistent way Donna Yarri gives an overview of the current state of the discussion and presents an argument for significantly restricted animal experimentation Pointing to the similarities between humans and animals she argues that the actual differences are differences of degree rather than kind Animal cognition and animal sentience together are the basis for the claim that experimental animals do have rights Examining arguments in the disciplines of ethology philosophy science and theology Yarri makes a case for placing substantial restrictions on animal experimentation Grounding her examination in Christian theology she formulates a more

humane approach to animal experimentation She concludes with a concrete burden benefit analysis that can serve as the foundation for informed decision making The Ethics of Animal Experimentation serves as both a handbook of animal rights theory and a practical guide to navigating the complexities of animal experimentation As animal experimentation features in an increasing number of scientific endeavors it is an ethical issue that requires our immediate attention Yarri s unique contribution forges a path toward an ethical practice of animal experimentation

**The Routledge Handbook of Vegan Studies** Laura Wright,2021-03-30 This wide ranging volume explores the tension between the dietary practice of veganism and the manifestation construction and representation of a vegan identity in today s society Emerging in the early 21st century vegan studies is distinct from more familiar conceptions of animal studies an umbrella term for a three pronged field that gained prominence in the late 1990s and early 2000s consisting of critical animal studies human animal studies and posthumanism While veganism is a consideration of these modes of inquiry it is a decidedly different entity an ethical delineator that for many scholars marks a complicated boundary between theoretical pursuit and lived experience The Routledge Handbook of Vegan Studies is the must have reference for the important topics problems and key debates in the subject area and is the first of its kind Comprising over 30 chapters by a team of international contributors this handbook is divided into five parts History of vegan studies Vegan studies in the disciplines Theoretical intersections Contemporary media entanglements Veganism around the world These sections contextualize veganism beyond its status as a dietary choice situating veganism within broader social ethical legal theoretical and artistic discourses This book will be essential reading for students and researchers of vegan studies animal studies and environmental ethics

**Animals in Religion** Barbara Allen,2016-06-15 Animals in Religion explores the role of animals within a wide range of religious traditions Exploring countless stories and myths passed down orally and in many religious texts Barbara Allen herself a practicing minister offers a fascinating history of the ways animals have figured in our spiritual lives whether they have been Christian Jewish Muslim or any number of lesser known religions Some of the figures here will be familiar such as St Francis of Assisi famous for his accord with animals or that beloved remover of obstacles Ganesha the popular elephant god in the Hindu pantheon Delving deeper Allen highlights the numerous ways that our religious practices have honored and relied upon our animal brethren She examines the principle of ahimsa or nonviolence which has Jains sweeping the pathways before them so as not to kill any insects as well as the similar principle in Judaism of *tsar ba alei chayim* and the notion in some sects of Islam that all living creatures are Muslim From ancient Egypt to the Druids to the indigenous cultures of North America and Australia Allen tells story after story that emphasizes the same message all species are spiritually connected

*Vegetarianism and Veganism in Literature from the Ancients to the Twenty-First Century* Theophilus Savvas,2024-05-31 Vegetarianism and Veganism in Literature from the Ancients to the Twenty First Century reassesses both canonical and less well known literary texts to illuminate how vegetarianism and veganism can be understood as literary phenomena as well as dietary and cultural

practices It offers a broad historical span ranging from ancient thinkers and writers such as Pythagoras and Ovid to contemporary novelists including Ruth L Ozeki and Jonathan Franzen The expansive historical scope is complemented by a cross cultural focus which emphasises that the philosophy behind these diets has developed through a dialogic relationship between east and west The book demonstrates also the way in which carnivorousism has functioned as an ideology one which has underpinned actions harmful to both human and non human animals

*A Faith Embracing All Creatures* Tripp York, Andy Alexis-Baker, 2012-11-09 What is the purpose of animals Didn't God give humans dominion over other creatures Didn't Jesus eat lamb These are the kinds of questions that Christians who advocate compassion toward other animals regularly face Yet Christians who have a faith based commitment to care for other animals through what they eat what they wear and how they live with other creatures are often unsure how to address these biblically and theologically based challenges In *A Faith Embracing All Creatures* authors from various denominational national ethnic and cultural backgrounds wrestle with the text theology and tradition to explain the roots of their desire to live peaceably with their nonhuman kin Together they show that there are no easy answers on what the Bible says about animals Instead there are nuances and complexities which even those asking these questions may be unaware of Editors Andy Alexis Baker and Tripp York have gathered a collection of essays that wrestle with these nuances and tensions in Scripture around nonhuman animals In so doing they expand the discussion of nonviolence peacemaking and reconciliation to include the oft forgotten other members of God's good creation

**Out of Context** Richard L. Schultz, 2012-11-01 Although 92% of American households own at least one Bible their use of the Bible varies significantly Only 59% of Americans read the Bible at least occasionally and an even smaller percentage go beyond merely reading the Bible and actually study it It is no wonder that even those who say they read the Scriptures often don't understand them Veteran Bible professor Richard L Schultz believes the misinterpretation and misapplication of biblical texts amounts to a crisis of interpretive malpractice In *Out of Context* he seeks to explain how biblical interpretation goes wrong and how to get it right He introduces readers to the important concepts of context word meaning genre and the differences between the world of the Bible and our own Readers who delve into the fascinating world of biblical interpretation found in this book will find their Scripture reading enhanced and be enlightened by Schultz's powerful and ultimately positive message

**What Would Jesus REALLY Eat?** Paul Copan, Wes Jamison, 2019-08-08 Until relatively recently vegetarianism was considered a positive dietary alternative for Christians Often considered a preference for those seeking better spiritual awareness for a season biblical tradition still acknowledged that a plant based diet wasn't any more spiritual or moral than eating meat therefore meat eating was considered legitimate for humans not prohibited and was even blessed by God But increasingly and especially in light of the current Green movement that wants to at least limit the eating of meat alongside the relentless calls by other secular organizations and activists to end meat eating altogether it is now more important than ever for people to know what the Bible and biblical tradition have to

say about the subject Within Christian circles well meaning people have been pressuring fellow Christians to turn from eating meat a practice once historically understood as a Christian freedom and are now asking them to embrace abstinence but what many are calling just a new bondage Christian leaders are warning the Christian community not to adopt a false commandment that is mostly based on secular activist s personal convictions Familiar choruses are now resonating throughout Christian communities Meat eating isn t compassionate Animals have rights too Aren t you concerned about animal suffering We should include animals into the moral community Would you kill and eat your dog Lassie In response to this clamor Castle Quay Books has brought together a broad group of scholars who have applied their expertise in a wide range of fields including biblical studies theology philosophy resource management communication and generational animal farming to write an accessible response for all Christians Contributors to the discussion cover both sides of the debate with their host of important views Writers include well known authors such as Dr Walter Kaiser Dr Wes Jamison and Dr Paul Copan as well as other well known authors

**Biodiversity Conservation Ethics in Major Religions** H. S. A. Yahya, 2010-10 Covering three broader issues biodiversity conservation religious doctrine and environment the book Biodiversity Conservation Ethics in Major Religions is the result of a unique approach It attempts to initiate scientific discourse through the fabric of religions Spread across 15 chapters the book covers the essence of 10 religions on biodiversity encompassing a wide range of issues related to conservation The book promises to be a useful resource for biodiversity students researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology
