Issues In Second Language Proficiency:

Issues in Second Language Proficiency Alessandro G. Benati, 2011-10-27 Benati provides clarity about the characteristics and notion of language proficiency in the field of second language acquisition. He looks at four areas of research paradigmatically related to the role of proficiency: theorizing and measuring second language proficiency, the dimensions of L2 proficiency, factors contributing to the attainment of L2 proficiency, and attaining L2 proficiency in the classroom. It also contains a variety of research accounts about the specific factors which have an effect on proficiency together with a theorised measurement of proficiency in second language research. It will be required reading for researchers in applied linguistics and second language acquisition. Issues in Second Language Proficiency Alessandro G. Gass, 2018-12-18 This volume comprises of chapters that deal with language proficiency relating to a wide range of language program issues including curriculum, assessment, learners and instructors and skill development. The chapters cover various aspects of a broad based proficiency initiative focusing on numerous aspects of foreign language learning including how skills develop, how assessments can inform curriculum, how learners and instructors view proficiency and proficiency assessment and how individual use of technology furthers language learning. The concluding chapter points the way forward for issues and questions that need to be addressed. Language, Power, and Pedagogy Jim Cummins, 2000-01-01 As linguistic diversity increases in countries around the world, policy makers and educators are faced with complex and conflictual issues regarding appropriate ways of educating a multilingual school population. This volume reviews the research and theory relating to instruction and assessment of bilingual pupils, focusing not only on issues of language learning and teaching but also the ways in which power relations in the wider society affect patterns of teacher-pupil interaction in the classroom. **Key Issues in Chinese as a Second Language Research** Istvan Kecskes, Chaofen Sun, 2017-06-26 *Key Issues in Chinese as a Second Language Research* presents and discusses research

projects that serve as theoretical grounding for improving the teaching and learning of Chinese as a second language CSL in order to help researchers and practitioners better understand the acquisition development and use of CSL With the exception of the first chapter which is state of the art each chapter makes an attempt to bring together theory and practice by focusing on theory building and theory application in practice The book is organized around areas where most future research is needed in CSL phonology semantics grammar and pragmatics Consisting of contributions from an international group of scholars working on cutting edge research this is the ideal text for researchers graduate students and practitioners in the area of Chinese as a second or foreign language
