debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective

Global Injustice and Crime Control Wendy Laverick, 2016-02-12 Global Injustice and Crime Control places cross border cross national and international crime and crime control within its wider context It examines theory from a range of disciplines and introduces students to the frequently neglected area of the world order and world politics in an effort to direct attention to the links between events power ideas institutions policies actions and counter actions at the international and domestic level In an increasingly interconnected and interdependent world the various dimensions of globalisation play a

pivotal role in issues of crime and criminal justice in the 21st century This interdisciplinary textbook offers a critical treatment of the development and recent acceleration of national regional and international efforts at cross border crime control and law enforcement The book not only places cross national and international efforts by police courts regional and international agencies within their historical context but also focuses on elucidating leading theoretical perspectives from within globalisation literature criminology and international relations to shed light upon both sides of this phenomenon Areas covered include cross border crime and security state crime and corruption international responses to genocide terrorism and counter terrorism organised crime This book will be perfect reading for modules in transnational crime and justice and will be of interest to students in criminology policing public policy and international relations

Punishment, Places and Perpetrators Gerben Bruinsma, Henk Elffers, Jan De Keijser, 2012-12-06 This book brings together an influential group of academics and researchers to review key areas of research theory and methodology within criminology and criminal justice and to identify the most important new challenges facing the discipline The contributors focus on the three central themes of punishment and criminal justice location and mobility and perpetrators and criminal careers on which much cutting edge research within criminology has been taking place A particular strength of the book is its multidisciplinary and international approach with contributors drawn from Europe the UK and the United States

New Challenges for the EU Internal Security Strategy Maria O'Neill, Ken Swinton, Aaron Winter, 2013-07-16 In recent years the EU and its member states have experienced a number of changes as well as challenges in the areas of politics economics security and law As these areas are interconnected changes and challenges to any of them have implications for the others as well as implications for the populations and institutions of the EU or those coming into contact with its international power and influence This edited collection focuses primarily on security and law particularly the EU's internal security strategy The EU's Internal Security Strategy adopted by the Spanish presidency early in 2010 followed the Lisbon Treaty in 2009 building on previous developments within the EU in the Area of Freedom Security and Justice AFSJ policy The focus of the EU Internal Security Strategy is to prevent and combat serious and organised crime terrorism and cybercrime in strengthening the management of our external borders and in building resilience to natural and man made disasters The Internal Security strategy intersects and overlaps with the European Union's Counter terrorism strategy the Strategy for the External Dimension of JHA and the EU's Security Strategy The role of and interaction between these strategies their supplementing documents and their implications for crime victims the law political relations democracy and human rights form the backdrop against which the chapters in this collection are written Building on original research by its contributors this collection comprises work by authors from a wide variety of academic and professional areas and perspectives as well as different countries on a variety of areas and issues related to or raised by the EU's Internal Security Strategy from intelligence led policing to human trafficking and port security This book examines from a wide variety of disciplinary perspectives including law geography

politics and practice both this further refinement of existing internal provisions on cross border crime and the increasing external relations of the EU in the AFSJ

Security Unbound Jef Huysmans, 2014-05-09 Security concerns have mushroomed Increasingly numerous areas of life are governed by security policies and technologies Security Unbound argues that when insecurities pervade how we relate to our neighbours how we perceive international politics how governments formulate policies at stake is not our security but our democracy Security is not in the first instance a right or value but a practice that challenges democratic institutions and actions We are familiar with emergency policies in the name of national security challenging parliamentary processes the space for political dissent and fundamental rights Yet security practice and technology pervade society heavily in very mundane ways without raising national security crises in particular through surveillance technology and the management of risks and uncertainties in many areas of life These more diffuse security practices create societies in which suspicion becomes a default way of relating and governing relations ranging from neighbourhood relations over financial transactions to cross border mobility Security Unbound demonstrates that governing through suspicion poses serious challenges to democratic practice Some of these challenges are familiar such as the erosion of the right to privacy others are less so such as the post human challenge to citizenship Security unbound provokes us to see that the democratic political stake today is not our security but preventing insecurity from becoming the organising principle of political and social life

Politicising and Policing Organised Crime Monique Mann, 2019-07-23 The concept of organised crime is constructed and mobilised by a milieu of complex factors and discourses including a politics of law and order and international insecurity combined with the vested interests and priorities of scholars politicians government officials and policing authorities This book challenges existing assumptions and accepted understandings of organised crime and explores the ways in which it is amplified and reconstructed for political purposes This book critiques how the constitution of the organised crime problem in academic and political discourse provides the conditions necessary for the development of an extensive and international architecture of law policing surveillance and intelligence It examines emerging challenges and future directions including the impact of technology on new problems and for transnational policing such as the ease with which the Internet enables crime to be committed across borders and for electronic communications to be protected with strong encryption hampering interception No other text presents an integrated and comprehensive study of both the politicisation and policing of organised crime while questioning the outcomes for society at large Drawing on international fieldwork and interviews with senior national and supranational policing personnel this book compares and contrasts various narratives on organised crime It will be of interest to students and researchers engaged in studies of criminology criminal justice organised crime policing and law

The SAGE Dictionary of Criminology Eugene McLaughlin, John Muncie, 2006 If the First Edition was an invaluable guide for students the Second is well nigh indispensable I can think of no better starting point for those wanting a quick fix on any given criminological topic Professor Tony Jefferson Keele University Since its initial publication in 2001 I've steadfastly kept The SAGE Dictionary of Criminology within easy reach of my desk referring to it countless times in writing articles books and lectures I've found it to be a remarkable book a comprehensive dictionary certainly but as much so a significant achievement in intellectual inquiry It may seem odd to say of a dictionary but it really is one of my favourite books the only book that can replace it on my desktide bookshelf is this Second Edition whose new entries confirm the editors grasp of contemporary criminology in all its excitement and complexity Professor Jeff Ferrell Texas Christian University The welcome inclusion of entries on contemporary theoretical and policy concerns ranging from Anti Social Behaviour Eco crime and Emotions through Forensic Anthropology Globalisation Governance and Mentoring to Sex Crime Virtual Criminology and What Works adds to the well established strengths of the first edition The entries all written by established scholars provide a clear concise and critical introduction to criminological concepts and constitute an invaluable resource for all criminology students and academics Professor Hazel Croall Glasgow Caledonian University It is unusual for a dictionary to be interesting but this one manages to be both compelling and useful for faculty and students across a range of disciplines and orientations who are commonly interested in criminology The SAGE Dictionary of Criminology is also distinctive in providing a literally encyclopaedic compendium of information that has been carefully placed in social cultural and political contexts Professor Lynn Chancer Hunter College City University of New York The list of new entries is quite impressive Once you've read them you start to wonder how come that the First Edition of The SAGE Dictionary of Criminology already felt so complete Dr Ren van Swaaningen Erasmus University Rotterdam Thoughtful evaluations of the key concepts criminologists must think about by quality contributors who include many of the world's leading criminologists Professor John Braithwaite Australian National University The Second Edition of the bestselling SAGE Dictionary of Criminology is the ultimate reference tool for students of criminology and criminal justice It provides an accessible introduction to key theories concepts and topics offering comprehensive guidance through the field The editors have brought together a group of internationally prominent academics and practitioners to produce this definitive reference and research tool Each entry contains a definition of the concept or topic distinctive features offering detailed comment on

the concept's origins, development and general significance; evaluation of those concepts considered to have greatest theoretical weight and lasting legacy; associated concepts for cross referencing and mapping connections across various fields and issues; key readings to enable the student to take their knowledge further. The new edition contains thirty six new entries covering subjects such as anti social behaviour, globalization, human trafficking and terrorism. Selected entries have been revised and updated. This comprehensive text is the essential reference point for all students of criminology and criminal justice at all levels. Praise for the First Edition: The compilers have done criminology a tremendous service. This dictionary is an invaluable resource for students and teachers and I'm certain will be a key reference work for years to come. Professor Tim Newburn, London School of Economics. Great dictionaries inform, intrigue and investigate. McLaughlin and Muncie's perceptive collection does all three. The SAGE Dictionary of Criminology is wide and accessible enough to interest anyone concerned with crime, the law and the panoply of issues and explanations that surround them. This admirable volume will inform, guide and contribute to debates in the years ahead. Ellis Cashmore, Professor of Culture, Media and Sport, Staffordshire University, author of *Dictionary of Race and Ethnic Relations* and co editor of *Dictionary of Cultural Theorists*. McLaughlin and Muncie have assembled an impressive list of international contributors and have succeeded in putting together a wonderfully entertaining book. The Dictionary belongs on every criminologist's bookshelf. Professor George Mair, Liverpool John Moores University. *Criminal Justice: An International Journal* 22. The main strength of the project lies in its attempts at integration of a wide range of themes and theoretical perspectives under one set of covers. Professor John Raine, University of Birmingham. *Youth Justice* 21. There is a genuine international feel to the compilation as a whole. Nowadays such has criminology grown, it is barely possible to keep up even in a narrowly defined sub field and a new dictionary is essential. Anyway we will all have to read it because our students will. What a relief that it is such a pleasure to do so. Jason Ditton, University of Sheffield. *British Journal of Criminology* 43. 2. **Crime and Insecurity** Adam Crawford, 2013-01-11. Concerns over insecurity have become central issues in political debates across Europe and the western world and crucial changes have followed in the wake of these concerns. This book contributes to an understanding of these developments.

The Oxford Handbook of Criminology Rod Morgan, Mike Maguire, Robert Reiner, 2012-04-12. The approach of the year 2000 has made the study of apocalyptic movements trendy. But groups anticipating the end of the world will continue to predict Armageddon even after the calendar clicks to triple Os. **Comparative, International, and Global Justice** Cyndi Banks, James Baker, 2015-09-23. *Comparative International and Global Justice: Perspectives from Criminology and Criminal Justice* presents and critically assesses a wide range of topics relevant to criminology, criminal justice and global justice. The text is divided into three parts: comparative criminal justice, international criminology and transnational and global criminology. Within each field are located specific topics which the authors regard as contemporary and highly relevant and that will assist students in gaining a fuller appreciation of global justice issues. Authors Cyndi Banks and James Baker address

these complex global issues using a scholarly but accessible approach often using detailed case studies The discussion of each topic is a comprehensive contextualized account that explains the social context in which law and crime exist and engages with questions of explanation or interpretation The authors challenge students to gain knowledge of international and comparative criminal justice issues and think about them in a critical manner It has become difficult to ignore the global and international dimensions of criminal justice and criminology and this text aims to enhance criminal justice education by focusing on some of the issues engaging criminology worldwide and to prepare students for a future where fields of study like transnational crime are unexceptional

Globalizing Local Policing David Sausdal,2023-03-24 The book examines the globalization of local policing through an ethnographic study of the Danish Police Where many studies are looking into how larger inter or transnational policing bodies and policies are changing the world of policing few have gauged how local public police forces are also globalizing This book provides some unique insights into this under researched process Specifically it describes the daily practices and perceptions of two Danish detective task forces tasked with the investigation of organized property crimes committed by foreign nationals In the book readers get to see how the detectives think and work including the many efforts they make in attuning their daily work to a more global reality More so readers get to see how the detectives fail and the many frustrations and concerns that such changes include One the one hand Danish detectives very much understand the need to de localize and develop their work On the other hand they feel that many of these changes are in conflict with what they find to be real and rewarding police work For people interested in contemporary issues of policing the book thus points to a puzzling paradox Globalization might be making for more mobile and even mobilised local forces more technologically driven and collaborating with international partners However these very processes are also making local officers feel more disarmed than ever Ultimately the book describes why that is its consequences as well as how to imagine a form of global policing more in tune with its local actors

Accountability of Policing Stuart Lister,Michael Rowe,2015-07-30 Accountability of Policing provides a contemporary and wide ranging examination of the accountability and governance of police and policing Debates about who guards the guards are among the oldest and most protracted in the history of democracy but over the last decade we have witnessed important changes in how policing and security agencies are governed regulated and held to account Against a backdrop of increasing complexity in the local national and transnational landscapes of policing political legal administrative and technological developments have served to alter regimes of accountability The extent and pace of these changes raises a pressing need for ongoing academic research analysis and debate Bringing together contributions from a range of leading scholars this book offers an authoritative and comprehensive analysis of the shifting themes of accountability within policing The contributions explore questions of accountability across a range of dimensions including those individuals and institutions responsible for its delivery within and between the public and private sectors and at local national and transnational scales of jurisdiction They

also engage with the concept of accountability in a broad sense bringing to the surface the various meanings that have become associated with it and demonstrating how it is invoked and interpreted in different contexts Accountability of Policing is essential reading for academics and students involved in the study of policing criminal justice and criminology and will also be of great interest to practitioners and policymakers

Handbook of Policing Tim Newburn, 2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves

Contemporary Issues in Canadian Policing Stephen Emmanuel Nancoo, 2004 Focuses on the important challenges facing the police and the community Part I articulates two views of public policing policing as force and policing as risk minimization Part II examines the new paradigm of community policing and outlines the principles and practices of a made in Canada community policing model Part III looks at the critical issues of the police subculture ethics and technology Part IV discusses human resources issues of managing diversity women in policing and the recruitment and promotion of visible minorities and aboriginal people Part V features operational issues such as public order interrogation the use of force police discretion and transnational policing Part VI explores trends and prospects in the 21st century and the challenges of globalization terrorism national security racial profiling organizational performance measurement and the public policing private security debate

Nordic Criminal Justice in a Global Context Mikkel Jarle Christensen, Kjersti Lohne, Magnus Hörnqvist, 2022-10-18 This book critically investigates Nordic criminal justice as a global role model Not taking this role for granted the chapters of the book analyze how Nordic approaches to criminal justice were folded into global contexts and how patterns of promotion were built around perceptions that these approaches also had a particular value for other criminal justice systems Specific actors both internal and external to the region itself have branded Nordic criminal justice as a form of penal exceptionalism associated with human rights universalistic welfare and social cohesion The book shows how building and using the brand of Nordic criminal justice allowed stakeholders to champion specific forms of crime control across a variety of criminal justice areas in both domestic and international settings The book will be of interest to scholars and students of criminal justice international law and justice Nordic and Scandinavian studies and more widely to the social sciences and humanities

Challenges of Policing Democracies Dilip Das, Marenin Otwin, 2012-10-12 In this text the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies This cross cultural comparison of various systems highlights the universal observation that police are an anomaly in a democracy and explores how various influences for example large scale social violence a zeal for crime fighting and vulnerability to temptation often find police incapable of behaving in a democratic manner Challenges of Policing Democracies goes beyond just showing the similarities and differences of the policing challenges democratic societies face it

also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing
