The Spiralling of the Securitisation of Migration in the European Union Valeria Bello, Sarah Léonard, 2023-03-31 This book investigates how migration has been transformed into a security threat in Europe It argues that this process has taken place through a self fulfilling spiralling process which involves different actors and their specific narratives practices and policies The book examines how situations stemming from the so called migration crisis in the European Union EU have been dealt with by governments and non governmental organisations It also considers how actors treating migration as an ordinary phenomenon rather than a threat and sharing inclusive narratives can create the conditions for decelerating and eventually stopping securitisation processes Some chapters examine the spiralling of the securitisation of migration in depth by analysing increases in securitisation as well as cases characterised by resistance Others focus on examining the consequences of socially constructing migration as a crisis for the EU's relations with third countries In sum this book shows that there is a wide range of motives for which states and societies would benefit from a
