Women's Poetry of Late Imperial China Xiaorong Li, 2013-05-03 This study of poetry by women in late imperial China examines the metamorphosis of the trope of the inner chambers *gongzi* to which women were confined in traditional Chinese households and which in literature were both a real and an imaginary place Originally popularized in sixth century palace style poetry the inner chambers were used by male writers as a setting in which to celebrate female beauty to lament the loneliness of abandoned women and by extension to serve as a political allegory for the exile of loyal and upright male ministers spurned by the imperial court Female writers of lyric poetry *ci* soon adopted the theme beginning its transition from male fantasy to multidimensional representation of women and their place in society and eventually its manifestation in other poetic genres as well Emerging from the role of sexual objects within poetry late imperial women were agents of literary change in their expansion and complication of the boudoir theme While some take ownership and de-exoticizing its imagery for their own purposes adding voices of children and older women and filling the inner chambers with purposeful activity such as

conversation teaching religious ritual music sewing childcare and chess playing some simply want to escape from their confinement and protest gender restrictions imposed on women Women s Poetry of Late Imperial China traces this evolution across centuries providing and analyzing examples of poetic themes motifs and imagery associated with the inner chambers and demonstrating the complication and nuancing of the gui theme by increasingly aware and sophisticated women writers

Willful Submission Amanda Paxton,2018-01-02 Victorian England a Jesuit priest writes of wrestling with God at night limbs entangled an Anglican sister begs Jesus her divine lover to end her aching anticipation of their union a clergyman exhorts nuns to study the example of medieval women who suffered on the rack in order to become brides of Christ Alongside the march of nineteenth century progress ran a seemingly paradoxical fascination with a dark erotically suggestive side of religious devotion the figuration of the Christian God as a heavenly bridegroom who doles out punishment to his bride the individual soul Through innovative case studies of Victorian religious poetry Amanda Paxton reveals that while the punitive model proved a convenient rhetorical tool with which to deflate burgeoning nineteenth century campaigns for women s rights and challenges to Church authority in the hands of several writers it also provided a means of resisting patriarchal institutions and interrogating distinctions between science and religion *Willful Submission* is the first full length volume to examine the interplay of sex suffering and religion as a touchstone in Victorian culture and verse

Foucault's Strange Eros Lynne Huffer,2020-06-16 What is the strange eros that haunts Foucault s writing In this deeply original consideration of Foucault s erotic ethics Lynne Huffer provocatively rewrites Foucault as a Sapphic poet She uncovers eros as a mode of thought that erodes the interiority of the thinking subject Focusing on the ethical implications of this mode of thought Huffer shows how Foucault s poetic archival method offers a way to counter the disciplining of speech At the heart of this method is a conception of the archive as Sapphic the past s remains are like Sappho s verses hole ridden scattered and dissolved by time Listening for eros across fragmented texts Huffer stages a series of encounters within an archive of literary and theoretical readings the eroticization of violence in works by Freud and Eve Kosofsky Sedgwick the historicity of madness in the Foucault Derrida debate the afterlives of Foucault s antiprison activism and Monique Wittig s Sapphic materialism Through these encounters Foucault s *Strange Eros* conceives of ethics as experiments in living that work poetically to make the present strange Crafting fragments that dissolve into Sapphic brackets Huffer performs the ethics she describes in her own practice of experimental writing *Foucault s Strange Eros* hints at the self hollowing speech of an eros that opens a space for the strange

Circulation of Poetry in Manuscript in Early Modern England Arthur F. Marotti, 2021-05-26 This study examines the transmission and compilation of poetic texts through manuscripts from the late Elizabethan era through the mid seventeenth century paying attention to the distinctive material social and literary features of these documents The study has two main focuses the first the particular social environments in which texts were compiled and second the presence within this system of a large body of usually anonymous rare or unique poems Manuscripts from aristocratic academic and urban professional environments are examined in separate chapters that highlight particular collections Two chapters consider the social networking within the university and London that facilitated the transmission within these environments and between them Although the topic is addressed throughout the study the place of rare or unique poems in manuscript collections is at the center of the final three chapters The book as a whole argues that scholars need to pay more attention to the social life of texts in the period and to little known or unknown rare or unique poems that represent a field of writing broader than that defined in a literary history based mainly on the products of print culture *Masculinity and Its Challenges in India* Rohit K.

The Erotics of Materialism
Jessie Hock, 2021-01-15 In *The Erotics of Materialism* Jessie Hock maps the intersection of poetry and natural philosophy in the early modern reception of Lucretius and his *De rerum natura* Subtly revising an ancient atomist tradition that condemned poetry as frivolous Lucretius asserted a central role for verse in the practice of natural philosophy and gave the figurative realm a powerful claim on the real by maintaining that mental and poetic images have material substance and a presence beyond the mind or page Attending to Lucretius s own emphasis on poetry Hock shows that early modern readers and writers were alert to the fact that Lucretian materialism entails a theory of the imagination and ultimately a poetics which they were quick to absorb and adapt to their own uses Focusing on the work of Pierre de Ronsard Remy Belleau John Donne Lucy Hutchinson and Margaret Cavendish *The Erotics of Materialism* demonstrates how these poets drew on Lucretius to explore poetry s power to act in the world Hock argues that even as classical atomist ideas contributed to the rise of empirical scientific methodologies that downgraded the capacity of the human imagination to explain material phenomena Lucretian poetics came to stand for a poetry that gives the imagination a purchase on the real from the practice of natural philosophy to that of politics In her reading of Lucretian influence Hock reveals how early modern poets were invested in what Lucretius posits as the materiality of fantasy and his expression of it in a language of desire sex and love For early modern poets Lucretian eroticism was poetic method and *De rerum natura* a treatise on the poetic imagination initiating an atomist genealogy at the heart of the lyric tradition
