It's Always Sunny and Philosophy Roger Hunt, Robert Arp, 2015-09-08 Philosophers wittily and expertly uncover amazing philosophical insights from the endlessly fascinating TV show *It's Always Sunny in Philadelphia*. Littmann shows how the values of the gang are the same as those of Homeric heroes. Ketcham argues that the Church should make Charlie a saint partly because *It's Always Sunny* is all about free will. Hamer shows how closely the gang's activities comply with the scientific method. Alkema and Barkman analyze the way the gang perceives happiness and how they try to get it. Leonard proves beyond doubt that the game of Chardee MacDennis reveals everyone's unconscious desires. King examines the morality of the gang's behavior by the standard of how they respond to extreme suffering. Chambers agrees that each of the five central characters is a terrible person but argues that given their circumstances they are not truly to blame for their actions. Tanswell demonstrates that many of the gang's wrong actions result not from immoral motives but from illogical thinking. Aylesworth uses examples from *It's Always Sunny* to bring out some of the moral problems with real consent to sex. Jones reveals that Nietzsche foresaw everything the gang at Paddy's Pub would do. Nicolas Michaud, 2015-04-14 *Adventure Time and Philosophy* is a monster beating wild ride of philosophical mayhem. One of the deepest and most thoughtful television shows ever to assault human brain waves, *Adventure Time* shows us what the world could be like challenging everything we know about life, meaning, heroism, and even burritos, and it's time to give the show some serious thought. This book screws open our cranial lids, mucks about in the mess that is our heads, and attempts to come to some answers about the nature of reality. *Adventure Time and Philosophy* is a chance to put down your broadsword, put your exhausted monster slaying feet up, and try to figure out why you spend your time rescuing people in distress and fighting for justice. Who better than Finn and Jake to have as companions when taking on Plato, Nietzsche, and Baudrillard or encountering the Slime Princess, the Ice King, and Marceline the Vampire Queen? Filled with chapters written by a colorful cast of characters, *Adventure Time and Philosophy* enlightens us about the profound and life-affirming spiritual subtext and dark comedic elements of an awesomely fantastic show. Robert Arp, 2014-10-20 In *Homeland and Philosophy*, 23 philosophers tackle the issues that Showtime's award-winning show *Homeland* asks us to consider. The show, which centers on Marine Sergeant Nicholas Brody's release from an al-Qaeda prison and CIA Agent Carrie Mathison's distrust of his intentions, asks questions of identity, what it means to be a terrorist, the conditions and effects of brainwashing, lying for the greater good, and whether or not courage is a virtue. But these questions are only a few among many that are explored in the shadowy, spy-filled world of *Homeland*. Through the lenses of Rawls, Kant, Arendt, Foucault, Heidegger, Sartre, and Kierkegaard, among others, *Homeland and Philosophy* considers the ethics of drone warfare, whether or not Carrie Mathison's personality changes and psychological disorder make her an interesting character study in the metaphysics of personhood, at what point privacy is only an illusion, and concepts of torture, punishment, and discipline. Nicholas Brody is a

are all illegally produced clones and that someone is having them killed They find themselves in the midst of a secret and violent struggle between a fundamentalist religious group a fanatical cult of superhuman biological enhancement a clandestine department of the military and a giant biotech corporation Law enforcement is powerless and easily manipulated by these sinister forces The clones are forced to form their own Clone Club led by the resourceful Sarah Manning to defend themselves against their numerous enemies and to find out exactly where they came from and why Orphan Black continually raises philosophical issues as well as ethical and policy questions deserving philosophical analysis What makes a person a unique individual Why is it so important for us to know where we came from Should we have a say in whether a clone is made of us Is it immoral to generate clones with built in health problems or personality defects and if so does that mean that producers of clones must practice eugenic selection What light does the behavior of members of the Clone Club shed on the nature nurture debate Is it relevant that most are heterosexual one is a lesbian and one is a transgendered male This TV show shows us problems of biotechnology which will soon be vital everyday issues But what kind of a future faces us when human clones are commonplace Will groups of human clones have a tight bond of solidarity making them a threat to democracy If the world is going to be taken over by an evil conspiracy would it better be a scientific cult like Neolution or a religious cult like the Prolethians Should biotech corporations be able to own the copyright on human DNA sequences What rules of morality apply when you can't trust the police and powerful groups are ready to murder you
