**Ivory's Ghosts** John Frederick Walker, 2010-01-19 A tour de force examination of the history of ivory and the demise of the elephant and human decency in the process of this unholy quest The Huffington Post Praised for the nuance and sensitivity with which it approaches one of the most fraught conservation issues we face today John Frederick Walker's *Ivory's Ghosts* tells the astonishing story of the power of ivory through the ages and its impact on elephants Long before gold and gemstones held allure ivory came to be prized in every culture of the world from ancient Egypt to nineteenth century America to modern Japan for its beauty rarity and ability to be finely carved But the beauty came at an unfathomable cost Walker lays bare the ivory trade's cruel connection with the slave trade and the increasing slaughter of elephants in the nineteenth and early twentieth centuries By the 1980s elephant poaching reached levels that threatened the last great herds of the African continent and led to a worldwide ban on the ancient international trade in tusks But the ban has failed to stop poaching or the emotional debate over what to do with the legitimate and growing stockpiles of ivory recovered from elephants that die of natural causes *Ivory's Ghost* is essential reading for anyone concerned with conservation and with the tenuous future of one of the most magnificent creatures our earth has ever seen George B Schaller author of *A Naturalist and Other Beast*

**The Mother's Day Protest and Other Fictocritical Essays** Stephen Muecke, 2016-06-20 As a genre that confounds the distinction between fiction and non fiction fictocriticism continues to gain currency It solves a problem for researchers and writers who do not wish to be held to that somewhat artificial division and who consider their research methods necessarily to include the stylistic experiments that show their research and thought processes Research knowledge of the world that continues to be written up after the fact in the usual academic genres has a tendency to re inscribe the status quo The world stays the way it is change surprise and experiment elude the writer Stephen Muecke one of the originators of fictocritical writing presents a selection of his best essays in this innovative genre In doing so he offers a rare and important theorization

of the potential of speculative methods across disciplines including Literary Studies Philosophy Anthropology Geography and Science and Technology Studies      **Consuming Ivory** Alexandra Celia Kelly, 2021-05-18 Examines the complex global impact of the ivory trade The economic prosperity of two nineteenth and early twentieth century New England towns rested on factories that manufactured piano keys billiard balls combs and other items made of ivory imported from East Africa Yet while towns like Ivoryton and Deep River Connecticut thrived the African ivory trade left in its wake massive human exploitation and ecological devastation At the same time dynamic East African engagement with capitalism and imperialism took place within these trade histories Drawing from extensive archival and field research in New England Great Britain and Tanzania Alexandra Kelly investigates the complex global legacies of the historical ivory trade She not only explains the complexities of this trade but also analyzes Anglo American narratives about Africa questioning why elephants and ivory feature so centrally in those representations From elephant conservation efforts to the cultural heritage industries in New England and East Africa her study reveals the ongoing global repercussions of the ivory craze and will be of interest to anthropologists archaeologists historians and conservationists      **The Zulu-Boer War 1837-1840** Michał

Leśniewski, 2021-04-19 This book offers an in depth examination of the conflict of 1838 to 1840 between the Zulus and the Boers Le niewski reflects on the established historiography and reappraises some key conceptions of the war The conflict has often been seen as a colonial war with the Zulus cast into the role of either villains or victims Drawing on written primary sources and Zulu oral tradition the author instead argues that the war was a struggle between an established regional power aiming to defend and consolidate its position and an incoming power seeking land settlement and local supremacy

Elephant Talk Ann Downer, 2017-01-01 Audisee eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience On a hot day in the African savannah a group of elephants searches for food While foraging they often lose sight of one another Yet at the end of the day in one coordinated movement the elephants suddenly regroup This coordinated movement and others like it has puzzled scientists and caused them to question how elephants communicate with each other Since the 1990s scientists have gathered significant data on elephant talk Biologists have determined that elephants use a complex system of communication of at least ten distinct sounds combined in many variations Researchers are now asking what do these sounds mean As scientists study the elephant sounds that humans can hear they are also identifying ways elephants communicate through nonverbal behaviors and making sounds too low for human ears Scientists have realized that elephants even receive messages by using their sensitive feet to feel vibrations in the ground All of these discoveries are helping elephant researchers better understand elephant behavior But the elephant s time as a wild animal is running out Threatened by habitat loss and illegally hunted for their ivory tusks elephants are on the brink of extinction Will understanding elephant talk be the key to saving the species      *Animal Modernity: Jumbo the Elephant and the Human Dilemma* Susan Nance, 2015-10-08 The concept of modernity is central to many disciplines but what

is modernity to animals Susan Nance answers this question through a radical reinterpretation of the life of Jumbo the elephant In the 1880s consumers the media zoos circuses and taxidermists and unknowingly Jumbo himself transformed the elephant from an orphan of the global ivory trade and zoo captive into a distracting international celebrity Citizens on two continents imaged Jumbo as a sentient individual and pet but were aghast when he died in an industrial accident and his remains were absorbed by the taxidermic and animal rendering industries reserved for anonymous animals The case of Jumbo exposed the human dilemma of modern living wherein people celebrated individual animals to cope or distract themselves from the wholesale slaughter of animals required by modern consumerism      The Ruling Elite Deanna Spingola,2011-04-14 Lincoln s war the North s attack on the South took the life of 622 000 citizens and altered the government s structure Marx and Engels watched the war from afar and applauded his efforts The media and our government controlled schools have presented a deceptive view of every historical event and have whitewashed the most scandalous political leaders and vilified leaders who have worked in the best interests of the people Following Lincoln s precedent setting war we have been repeatedly lied into wars Currently our young men and women shed their blood in foreign lands while well connected corporations make massive profits rebuilding the infrastructure that other corporations have demolished Meanwhile our politicians possessing inside knowledge grow richer through their investments and the bribes they accept from deep pocketed lobbyists They have not listened to their constituents for decades CIA thugs in behalf of the corporations commit terrorist acts in other countries which the U S government and media blame on the so called insurgents In 2010 the Pentagon paid the following to the top five out of 100 1 Lockheed Martin Corp 16 700 588 328 2 Northrop Grumman Corp 11 145 533 497 3 Boeing Co 10 462 626 196 4 Raytheon Co 6 727 232 555 5 Science Applications International Corp 5 474 482 583 Yet throughout the country vital infrastructure is crumbling and politicians are selling taxpayer funded public properties to private interests as a profitable venture The new owners exploit the public by raising service rates while diminishing the services      **On the Frontiers of the Indian Ocean World** Philip Gooding,2022-08-04 The first history of Lake Tanganyika and of eastern Africa s relationship with the wider Indian Ocean World during the nineteenth century      **Object Stories** Steve Brown,Anne Clarke,Ursula Frederick,2016-06-16 Twenty five archaeologists each tell an intimate story of their experience and entanglement with an evocative artifact      **Death and Compassion** Dan Wylie,2018-10-01 Traces the literary history of the elephant and its role in South Africa s cultural imaginary Elephants are in dire straits again They were virtually extirpated from much of Africa by European hunters in the eighteenth and nineteenth centuries but their numbers resurged for a while in the heyday of late colonial conservation efforts in the twentieth Now according to one estimate an elephant is being killed every 15 minutes This is at the same time that the reasons for being especially compassionate and protective towards elephants are now so well known that they have become almost a cliché their high intelligence rich emotional lives including a capacity for mourning caring matriarchal societal structures that strangely

charismatic grace Saving elephants is one of the iconic conservation struggles of our time As a society we must aspire to understand how and why people develop compassion or fail to do so and what stories we tell ourselves about animals that reveal the relationship between ourselves and animals This book is the first study to probe the primary features and possible effects of some major literary genres as they pertain to elephants south of the Zambezi over three centuries indigenous forms early European travelogues hunting accounts novels game ranger memoirs scientists accounts and poems It examines what these literatures imply about the various and diverse attitudes towards elephants about who shows compassion towards them in what ways and why It is the story of a developing contestation between death and compassion between those who kill and those who love and protect      The Extinction Market Vanda Felbab Brown,2017-11-15 Emphasizes the disturbing consequences poaching and trafficking pose globally in terms of both biodiversity and public health      Biodiversity of Angola Brian J. Huntley,Vladimir Russo,Fernanda Lages,Nuno Ferrand,2019-02-20 This open access multi authored book presents a state of the science synthesis of knowledge on the biodiversity of Angola based on sources in peer reviewed journals in books and where appropriate unpublished official reports The book identifies Angola as one of the most biologically diverse countries in Africa but notes that its fauna flora habitats and the processes that drive the dynamics of its ecosystems are still very poorly researched and documented This state of the science synthesis is for the use of all students of Angola s biodiversity and for those responsible for the planning development and sustainable management of the country s living resources The volume brings together the results of expeditions and research undertaken in Angola since the late eighteenth century with emphasis on work conducted in the four decades since Angola s independence in 1975 The individual chapters have been written by leaders in their fields and reviewed by peers familiar with the region      **The Nature of German Imperialism** Bernhard Gissibl,2016-07-01 Today the East African state of Tanzania is renowned for wildlife preserves such as the Serengeti National Park the Ngorongoro Conservation Area and the Selous Game Reserve Yet few know that most of these initiatives emerged from decades of German colonial rule This book gives the first full account of Tanzanian wildlife conservation up until World War I focusing upon elephant hunting and the ivory trade as vital factors in a shift from exploitation to preservation that increasingly excluded indigenous Africans Analyzing the formative interactions between colonial governance and the natural world The Nature of German Imperialism situates East African wildlife policies within the global emergence of conservationist sensibilities around 1900      Beyond Words Carl Safina,2015-07-14 Hailed conservationist Carl Safina examines animal personhood as told through the inspired narrative portraits of elephants wolves and dolphins      Animal Trade Histories in the Indian Ocean World Martha Chaiklin,Philip Gooding,Gwyn Campbell,2020-07-21 This book examines trades in animals and animal products in the history of the Indian Ocean World IOW An international array of established and emerging scholars investigate how the roles of equines ungulates sub ungulates mollusks and avians expand our understandings of commerce human societies and world systems Focusing
