J Christmas 2015 M Torres:

Coral Reefs of Australia Sarah M. Hamylton, Pat Hutchings, Ove Hoegh-Guldberg, 2022-11-02 Australia's coral reefs stretch far and wide covering 50 000 square kilometres from the Indian Ocean in the West to the Pacific Ocean in the East. They have been viewed as a bedrock of coastal livelihoods, as uncharted and perilous nautical hazards, as valuable natural resources and as unique natural wonders with secrets waiting to be unlocked. Australia's coral reefs have sustained a global interest as places to visit and as objects of study, science, protection and conservation. *Coral Reefs of Australia* examines our evolving relationship with coral reefs and explores their mystery and the fast pace at which they are now changing. Corals are feeling the dramatic impacts of global climate change, having undergone several devastating mass coral bleaching events, dramatic species range shifts and gradual ocean acidification. This comprehensive and engaging book brings together the diverse views of Indigenous Australians, coral reef scientists, managers and politicians to reveal how we interact with coral reefs, focussing on Indigenous culture, coastal livelihoods, exploration, discovery, scientific research and climate change. It will inform and inspire readers to learn more about these intriguing natural phenomena and how we can protect coral reefs for the future. Cultural sensitivity: Readers are warned that there may be words, descriptions and terms used in this book that are culturally sensitive and which might not normally be used in certain public or community contexts. While this information may not reflect current understanding, it is provided by the author in a historical context. This publication may also contain quotations, terms and annotations that reflect the historical attitude of the original author or that of the period in which the item was written and may be considered inappropriate today. Aboriginal and Torres Strait Islander peoples are advised that this publication may contain the names and images of people who have passed away.

Clinical Paths for Soluble Epoxide Hydrolase Inhibitors John D. Imig, Christophe Morisseau, 2020-12-09 This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series; they are collections of at least ten articles all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area. Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact.

COPD Sang-Do Lee, 2017-10-10 This book explains how analysis of the heterogeneity of chronic obstructive pulmonary disease (COPD) enhances understanding of the condition and leads to improved personalized treatment. State-of-the-art knowledge is presented on a range of issues related to the heterogeneity of COPD, such as phenotypes, clinical, physiologic, radiologic, etc. genotypes and the tools to be used for dissecting heterogeneity: CT, MRI, biomarkers, etc. Especially, modern radiologic imaging holds promise in this context and its role is described in detail with the aid of numerous illustrations. The implications of the heterogeneity for personalized treatment are clearly identified with description of an appropriate tailored treatment strategy.

for each subgroup of patients Information is provided on both current and emerging strategies including bronchoscopic lung volume reduction and approaches to the management of pulmonary hypertension and comorbidities This book will be a great asset in clinical practice and research for all who have an interest in COPD a leading cause of morbidity and mortality worldwide

Language Variation and Language Change Across the Lifespan Karen V. Beaman,Isabelle Buchstaller,2021-03-30 This volume brings together research on panel studies with the aim of providing a coherent empirical and theoretical knowledge base for examining the impact of maturation and lifespan specific effects on linguistic malleability in the post adolescent speaker Building on the work of Wagner and Buchstaller 2018 the present collection offers a critical examination of the theoretical implications of panel research across a range of geographic regions and time periods The volume seeks to offer a way forward in the debates circling about the phenomenon of later life language change drawing on contributions from a variety of linguistic disciplines to examine critical topics such as the effect of linguistic architecture the roles of mobility and identity construction and the impact of frequency effects Taken together this edited collection both informs and pushes forward key questions on the nature of lifespan change making this key reading for students and researchers in cognitive linguistics historical linguistics dialectology and variationist sociolinguistics

Artist Management in the Music Industries Yiyi Wang,2024-11-19 Artist Management in the Music Industries A Sui Generis Form of Management provides one of the first substantive academic examinations of the role of an artist manager This book deconstructs the nature of Artist Management unveiling the pivotal role of the artist manager in creating and sustaining a dynamic environment referred to as the Loop where success is realised by navigating four variables Risks Relationships Emotions and Expectations 2Rs and 2Es within and beyond the Loop This book offers a new perspective on Artist Management as a sui generis discipline that does not fit easily inside standard conceptions of management Featuring ethnography and interviews this book sheds light on the realworld challenges and successes in the field It is a must read for researchers students and practitioners in the music business music marketing and artist management offering invaluable insights into the practices that shape the cultural landscape

Selfie

Biometrics Ajita Rattani,Reza Derakhshani,Arun Ross,2019-09-21 This book highlights the field of selfie biometrics providing a clear overview and presenting recent advances and challenges It also discusses numerous selfie authentication techniques on mobile devices Biometric authentication using mobile devices is becoming a convenient and important means of verifying identity for secured access and services such as telebanking and electronic transactions In this context face and ocular biometrics in the visible spectrum has gained increased attention from the research community However device mobility and operation in uncontrolled environments mean that facial and ocular images captured with mobile devices exhibit substantial degradation as a result of adverse lighting conditions specular reflections and motion and defocus blur In addition low spatial resolution and the small sensor of front facing mobile cameras further degrade the sample quality reducing the recognition accuracy of face and ocular recognition technology when integrated into smartphones Presenting the state of the art in mobile biometric research and technology and offering an overview of the potential problems in real time integration of biometrics in mobile devices this book is a valuable resource for final year undergraduate students postgraduate students engineers researchers and academics in various fields of computer engineering

Lung Diseases and Cancer Miguel Angel Martinez-Garcia,Mina Gaga,Kwun M. Fong,2022-12-01 The coexistence of lung disease and cancer in the same person is a frequent occurrence Evidence suggests that this coexistence sometimes goes beyond chance in fact both disease types are associated and the presence of one can be a risk factor or a protective factor for the other In this Monograph the Guest Editors bring together renowned clinical and scientific experts to provide an exhaustive review of the bidirectional relationship between respiratory diseases and cancer not just lung cancer The chapters explore the common causal pathways of cancer and lung disease consider the diseases from an epidemiological clinical and therapeutic point of view and discuss the many ways in which they interact to influence patient management The result is a book that will generate a better understanding of this relationship giving rise to a greater awareness of the possible development of lung disease in people with cancer and of the different types of cancer that are frequently seen in those with lung diseases

Archie: 80 Years of Christmas Archie Superstars,2021-10-12 What s better than 80 years of Archie Comics Simple 80 years of Archie s holiday hijinks Celebrate eight decades of Christmas with Archie With 250 pages of classic holiday stories this festive collection is a yuletide milestone that can t be missed The Riverdale Gang have a hilarious history with the holidays and you can see it all in this ultimate stocking stuffer

Emerging and Epizootic Fungal Infections in Animals Seyedmojtaba

Seyedmousavi,G. Sybren de Hoog,Jacques Guillot,Paul E. Verweij,2018-06-11 This book provides in depth insights into epidemic and emerging mycoses in various animal groups The different categories of pathogens and outbreak fungi are discussed In an introductory chapter the reader will be provided basic information on fungal infections that are non transmissible infections from a common environmental source known as sapronoses and zoophilic fungal pathogens in various animal species and populations worldwide Chapter 2 details the vocabulary and terminology that is required in the scientific literature in order to maintain clarity of expression to the field of Mycology Chapters 3 to 9 discuss epidemic mycoses with a reservoir in animals and occasional outbreaks including dermatophytoses coccidioidomycosis histoplasmosis paracoccidioidomycosis adiaspiromycosis and similar diseases blastomycosis and paracoccidioidomycosis ceti lacaziosis lobomycosis Chapters 10 to 15 comprise emerging mycoses in animals that include feline sporotrichosis lethargic crab disease emergence of *C. gattii* in animals and zoonotic potential white nose syndrome in hibernating bats chytridiomycosis in frogs and salamanders and aspergillosis in cats The last chapter is about treatment possibilities antifungal use in veterinary practice and emergence of resistance The book will address medical and veterinary mycologists microbiologists veterinarians infectious disease specialists epidemiologists ecologists public health scientists from academia and industry as well as graduate students PhD students and postdocs in the field

Cancerous Cells Nima Rezaei,2025-10-07 The rapid flow of studies in the field of cancer and immunology during the last decades has increased our understanding of the interactions between the immune system and cancerous cells In particular it has been well known that such interactions result in the induction of epigenetic changes in cancerous cells and the selection of less immunogenic clones as well as alterations in immune responses Understanding the crosstalk between nascent transformed cells and cells of the immune system has led to the development of combinatorial immunotherapeutic strategies to combat cancer The Handbook of Cancer and Immunology offers a comprehensive and up to date review of cancer immunology and immunotherapy emphasizing key findings and clinically relevant data This reference work is an essential resource for researchers students academics and clinicians committed to advancing knowledge diagnostics and treatments in this vital field

Pigeons and Doves in Australia Joseph Forshaw,William Cooper,2015-04-01 Possibly the most successful urban birds pigeons and doves in the Order Columbiformes are one of the most easily recognised groups They are an ancient and very successful group with an almost worldwide distribution and are most strongly represented in tropical and subtropical regions including Australia In most species simple plumage patterns feature mainly grey and brown with black white or dull reddish markings but the highly colourful fruit doves include some of the most beautiful of all birds From dense rainforests of north Queensland where brilliantly plumaged Superb Fruit Doves *Ptilinopus superbus* are heard more easily than seen to cold windswept heathlands of Tasmania where Brush Bronzewings *Phaps elegans* are locally common most regions of Australia are frequented by one or more species For more than a century after arrival of the First Fleet interest in these birds focused on the eating qualities of

larger species In addition to contributing to declines of local populations in some parts of Australia excessive hunting brought about the extinction of two species on Lord Howe Island and another species on Norfolk Island In Pigeons and Doves in Australia Joseph Forshaw and William Cooper have summarised our current knowledge of all species including those occurring on Christmas Norfolk and Lord Howe Islands and with superb artwork have given readers a visual appreciation of the birds in their natural habitats Historical accounts of extinct species are also included Detailed information on management practices for all species is presented ensuring that Pigeons and Doves in Australia will become the standard reference work on these birds for ornithologists and aviculturists
