perspectief , 1998 **Of States and Cities** Peter Marcuse, Ronald van Kempen, 2002 The nature and effects of globalization are coming under critical scrutiny across all continents This book focuses on one aspect the globalization of cities It examines the claim that the state is powerless to influence events and that history geography and culture have become irrelevant in the worldwide trend towards a uniform urban model a model which features increased segregation decline of the central city and social polarization The international team of contributors is well placed to put these claims in perspective Drawing on their

experiences of cities as diverse as New York and Warsaw Istanbul and Sao Paulo they demonstrate that states and cities have adopted widely varying approaches to the advent of globalization and that its impact has been constrained by each city's history physical layout location environment role in the international economy and demographic composition The diversity of urban development and political response revealed is enormous and provides ample practical examples of what might be done to bring about improvements for the increasing number of people who live in cities **Growth diagrams / deel 1997**
