America. Public Review Board**

Jaarverslag 1959196:

The Mobile Workshop Clapperton Chakanetsa Mavhunga, 2018-06-01 How the presence of the tsetse fly turned the African forest into an open laboratory where African knowledge formed the basis of colonial tsetse control policies The tsetse fly is a pan African insect that bites an infective forest animal and ingests blood filled with invisible parasites which it carries and transmits into cattle and people as it bites them leading to a Ghanaian animal trypanosomiasis and sleeping sickness In The Mobile Workshop Clapperton Chakanetsa Mavhunga examines how the presence of the tsetse fly turned the forests of Zimbabwe and southern Africa into an open laboratory where African knowledge formed the basis of colonial tsetse control policies He traces the pestiferous work that an indefatigable mobile insect does through its movements and the work done by humans to control it Mavhunga's account restores the central role not just of African labor but of African intellect in the production of knowledge about the tsetse fly He describes how European colonizers built on and beyond this knowledge toward destructive and toxic methods including cutting down entire forests forced prophylactic resettlement massive destruction of wild animals and extensive spraying of organochlorine pesticides Throughout Mavhunga uses African terms to describe the African experience taking vernacular concepts as starting points in writing a narrative of *ruvivo* knowledge rather than viewing Africa through foreign keywords The tsetse fly became a site of knowledge production a mobile workshop of pestilence
