Jaffa Shared And Shattered Contrived Coexistence In Israelpalestine:

Jaffa Shared and Shattered Daniel Monterescu, 2015-08-24 Binational cities play a pivotal role in situations of long term conflict and few places have been more marked by the tension between intimate proximity and visceral hostility than Jaffa one of the mixed towns of Israel Palestine In this nuanced ethnographic and historical study Daniel Monterescu argues that such places challenge our assumptions about cities and nationalism calling into question the Israeli state s policy of maintaining homogeneous segregated and ethnically stable spaces Analyzing everyday interactions life stories and histories of violence he reveals the politics of gentrification and the circumstantial coalitions that define the city Drawing on key theorists in anthropology sociology urban studies and political science he outlines a new relational theory of sociality and spatiality

Home, History and Possession in Israel-Palestine Tovi Fenster, 2024-09-05 Taking a micro geographical approach to Israeli Palestinian relations this book analyses the history of space and place in West Jerusalem and Jaffa in the context of specific addresses Based on the unique and innovative archaeology of addresses methodology the book provides an in depth analysis of 11 specific sites This micro perspective paying particular attention to the history and past ownership of an individual property allows the author to draw new insights into the process of population exchange that took place in 1948 when Jewish people began to populate Palestinian deserted homes after the Nakba By looking at archival planning documents the histories of addresses as contact zones between previous and current owners are revealed Moreover the research on each address highlights new theoretical understandings encompassing the micro politics of the contact zone mediated agonism ruinations and beginnings creative destruction in urban planning the right to the city and the right to return the violence of property and fragmented settler colonialism The book concludes by proposing practical applications of the research in teaching and planning practice The book will prove important reading for students and researchers interested in urban planning Middle Eastern geography and the history of the Israeli Palestinian conflict

Lecoquierre, 2021-11-18 The Israeli Palestinian conflict gravitates constantly around the question of territorial control due to the settler colonial principle present at the core of the Zionist project Acknowledging space as a central tool of domination used by the Israeli authorities this volume sheds light on the way space can become both a resource for and an outcome of protest with an emphasis placed on the way it is used and produced through practices of resistance by subaltern groups The research relies on a comparative approach relying on data collected in the course of fieldwork conducted between 2012 and 2015 in Palestine and Israel It focuses on three sites of contention which include the H2 area in Hebron the occupied Old City under Israeli authority the core neighbourhoods of Silwan Wadi Hilwe and al Bustan and the unrecognized Bedouin village of al Araqib in the Negev desert Through these three case studies the book tackles different strategies that engage with the materiality of space place sense of place territory landscape network and scale showing the mobilization of a real spatial repertoire of contention The different regimes of control give rise to strategies that are first and foremost emplaced i.e. rooted in the local Providing an original comparison between flashpoints of the Palestinian resistance against the Israeli

Entangled Histories in

Palestine/Israel Dafna Hirsch,2024-04-16 This edited volume offers a new critical approach to the study of Zionist history and Israeli Palestinian relations based on the encounter between history and anthropology Informed by the anthropological

method of setting large questions to intimate settings the book examines processes of Zionist colonization nation building and Palestinian dispossession by focusing on encounters between members of different national religious and ethnic groups from below through paying close attention to life stories and reconstructing everyday practices and micro histories of places and communities Thus it tells a complex story in which the practices of historical actors are not simply reducible to a single underlying logic of colonization even as they participate in the production and reproduction of colonial structures This approach effectively undermines the prevailing tendency to study national communities in isolation projecting onto the past an essentialist and rigid separation Rather than assuming two clearly bounded and monolithic national groups caught from the start in perpetual conflict this volume probes their historical production through their evolving relationships and their varied and shifting political social economic and cultural manifestations The book will be of interest to students and researchers in an array of fields including the history of Israeli Palestinian relations anthropological perspectives on settler colonialism and Zionism

Established and Outsiders at the Same Time Gabriele Rosenthal, 2016 Palestinians frequently present a harmonizing and homogenizing we image of their own national we group as a way of counteracting Israeli attempts to sow divisions among them whether through Israeli politics or through the dominant public discourse in Israel However a closer look reveals the fragility of this homogenizing we image which masks a variety of internal tensions and conflicts By applying methods and concepts from biographical research and figurational sociology the articles in this volume offer an analysis of the Middle East conflict that goes beyond the polar opposition between Israelis and Palestinians On the basis of case studies from five urban regions in Palestine and Israel Bethlehem Ramallah East Jerusalem Haifa and Jaffa the authors explore the importance of belonging collective self images and different forms of social differentiation within Palestinian communities For each region this is bound up with an analysis of the relevant social and socio political contexts and family and life histories The analysis of locally different figurations means focusing on the perspective of Palestinians as members of different religious socio economic political or generational groupings and local group constellations for instance between Christians and Muslims or between long time residents and refugees The following scholars have contributed to this volume Ahmed Albaba Johannes Becker Hendrik Hinrichsen Gabriele Rosenthal Nicole Witte Arne Worm and Rixta Wundrak Gabriele Rosenthal is a sociologist and professor of Qualitative Methodology at the Center of Methods in Social Sciences University of G ttingen Her major research focus is the intergenerational impact of collective and familial history on biographical structures and actional patterns of individuals and family systems Her current research deals with ethnicity ethno political conflicts and the social construction of borders She is the author and editor of numerous books including *The Holocaust in Three Generations* 2009 *Interpretative Sozialforschung* 2011 and together with Artur Bogner *Ethnicity Belonging and Biography* 2009
