cloud environments Explore recipes to design various data visualizations from simple bar charts to advanced 3D plots

Book Description Matplotlib provides a large library of customizable plots along with a comprehensive set of backends Matplotlib 3.0 Cookbook is your hands on guide to exploring the world of Matplotlib and covers the most effective plotting packages for Python 3.7 With the help of this cookbook you will be able to tackle any problem you might come across while designing attractive insightful data visualizations With the help of over 150 recipes you will learn how to develop plots related to business intelligence data science and engineering disciplines with highly detailed visualizations Once you've familiarized yourself with the fundamentals you will move on to developing professional dashboards with a wide variety of graphs and sophisticated grid layouts in 2D and 3D You will annotate and add rich text to the plots enabling the creation of a business storyline In addition to this you will learn how to save figures and animations in various formats for downstream deployment followed by extending the functionality offered by various internal and third party toolkits such as `axisartist`, `axes_grid`, `Cartopy` and `Seaborn` By the end of this book you will be able to create high quality customized plots and deploy them on the web and on supported GUI applications such as `Tkinter`, `Qt 5` and `wxPython` by implementing real world use cases and examples What you will learn

- Develop simple to advanced data visualizations in Matplotlib
- Use the `pyplot` API to quickly develop and deploy different plots
- Use object oriented APIs for maximum flexibility with the customization of figures
- Develop interactive plots with animation and widgets
- Use maps for geographical plotting
- Enrich your visualizations using embedded texts and mathematical expressions
- Embed Matplotlib plots into other GUIs used for developing applications
- Use toolkits such as `axisartist`, `axes_grid1` and `cartopy` to extend the base functionality of Matplotlib

Who this book is for The Matplotlib 3.0 Cookbook is for you if you are a data analyst data scientist or Python developer looking for quick recipes for a multitude of visualizations This book is also for those who want to build variations of interactive visualizations
