Interactive Number Line Two Digit Adding Ten:

Overcoming Dyscalculia and Difficulties with Number Ronit Bird, 2021-09-08 This practical book draws on Ronit Bird's teaching experience to create detailed strategies and teaching plans for students aged 9-16 who have difficulties with number. Activities and games are used to teach numeracy skills in these key areas: number components, bridging, multiplication, division and reasoning strategies. New to this edition: An updated Part I improving the clarity and flow of the teaching ideas including a table mapping games against specific teaching points. More activities and guidance for multiplication and division. A new Part V consolidating new and existing teaching games in one place. 4 new videos added to the online resources. This is an ideal resource for class teachers, SENCO, Special Educational Needs Coordinator and maths subject leader and is equally useful for teaching assistants and learning support assistants. *Abacus* Ruth Merttens, David Kirkby, 1999 Each unit in the New Abacus programme begins with whole class teaching. All the direct teaching to introduce a concept is on the front of the Teacher Card; the back has further teaching references to differentiated practical activities, workbook or textbook pages and photocopy masters.

Teaching Young Children Mathematics Janice Minetola, Robert Ziegenfuss, J. Kent Chrisman, 2013-09-11 Teaching Young Children Mathematics provides a comprehensive overview of mathematics instruction in the early childhood classroom. Taking into account family differences, language barriers and the presence of special needs students in many classrooms throughout the U.S., this textbook situates best practices for mathematics instruction within the larger frameworks of federal and state standards as well as contemporary understandings of child development. Key topics covered include developmental information of conceptual understanding in mathematics from birth through 3rd grade, use of national and state standards in math including the new Common Core State Standards, information for adapting ideas to meet special needs and English Language Learners, literacy connections in each chapter, real world connections to the content and information for family connections to the content.

The Dyscalculia Toolkit Ronit Bird, 2021-04-14 Designed for all teachers, this book provides a wealth of materials and resources to support the needs of learners aged 6 to 14 years who have difficulty with maths and number. Packed full with 220 activities and 55 games, the author provides you with a complete toolkit to enable you to understand dyscalculia and implement practical and innovative strategies to use in the classroom or at home. This fourth edition is updated with new content including more on dice and board games, multiplication and division, new downloadable and printable teaching materials including tracking sheets, activity sheets, game boards and teaching resources, updated videos.
