confronted by the IDF during this period from the Al Aqsa Intifada of 2000 through Israeli unilateral disengagement from Gaza in 2005 and the second Lebanon war of 2006 to the series of Gaza confrontations of 2008 2014 The work shows how the IDF's media policy evolved from a narrow perception of its role and separation between operational and media actions to a cohesive and coherently articulated media strategy that is increasingly intertwined with military action and operational strategy and a vital component of strategic military aims and objectives This strategic stance has led the IDF to adopt a global media perspective using the most advanced new media platforms designed to influence public opinion and improve national narratives both in Israel and the international community By applying the concept of mediatization to the Israeli case this book fills a research lacuna and offers a new prism for the study of media military relations in contemporary conflicts The book will be of much interest to students of civil military relations strategic studies Middle Eastern Studies media and communication studies sociology and IR in general *Information Asymmetry in Online Advertising* Jan W.
