The Six Secrets of Raising Capital Bill Fisher,2014-09-29 Based on Bill Fisher s three day seminars that regularly sell out all over the world this book offers the kind of capital raising street smarts no entrepreneur can do without As a banker in Silicon Valley in the 80s and a businessman who founded a number of successful companies beginning in the 90s Fisher has seen firsthand the kind of rookie mistakes aspiring entrepreneurs make that end up stopping them before they have a chance to get started Fisher looks at six traditional steps in the capital raising process and digs beneath the surface to expose subtle but critical aspects of each knowledge that until now could come only with experience For example entrepreneurs believe that great business ideas get funded Not true just look at the failure rates of venture backed companies Great business stories get funded and all great business stories have a similar construction and shape And of course the entrepreneur needs an investor but each investor comes with his or her own personality issues You need the right match for long term success not just whoever is waving the biggest check a temptation that is easy for cash strapped entrepreneurs to succumb to Having this book is like going into your investor meetings with a trusted advisor who knows all the ins and outs of raising capital

Congress. House. Committee on Banking and Currency,1972 **Public Investment Management Reference Guide** Jay-Hyung Kim,Jonas Arp Fallov,Simon Groom,2020-03-03 The Public Investment Management PIM Reference Guide aims to convey country experiences and good international practices as a basis for decisions on how to address a country specific PIM reform agenda The country references are drawn largely from previous diagnostics and technical assistance reports of the World Bank The application of country diagnostics and assessments has revealed a need to address the following issues when undertaking a country reform in PIM Clarification of the definition and scope of public investment and public

investment management Establishment of a sound legal regulatory and institutional setting for PIM making sure it is linked to the budget process Allocation of roles and responsibilities for key players in PIM across government Strengthening of guidance on project preappraisal appraisal and selection prioritization procedures and deepening of project appraisal methodologies Integration of strategic planning project appraisal selection and capital budgeting Management of multiyear capital budget allocations and commitments Efforts to address effective implementation procurement and monitoring of projects Strengthening of asset management and ex post evaluation Integration of PIM and public private partnership PPP in a unified framework Rationalization and prioritization of the existing PIM project portfolio Development of a PIM database and information technology in the form of a PIM information system The PIM Reference Guide does not seek to provide definitive answers or standard guidance for the common PIM issues facing countries Nor does it seek to provide a detailed template for replication across countries this would be impossible given the diversity of country situations Instead each chapter begins with an overview of the specific reform issue lists approaches and experiences from different countries and summarizes the references and good practices to be considered in designing country specific reform actions
