

The background of the slide is a photograph of a ship's deck during sunset. The sun is a bright, glowing orb on the horizon, casting a warm orange and yellow light across the sky and the water. The ship's railing and a large, dark, curved structure, possibly part of the mast or a lifeboat cover, are visible in the foreground on the left. The water is dark with white foam from the ship's wake.

Valencia, 2015-03-05 *Students of Color and the Achievement Gap* is a comprehensive landmark analysis of an incontrovertible racialized reality in U S K 12 public education: the relentless achievement gap between low socioeconomic students of color and their economically advantaged White counterparts. Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap focusing on Black and Latino/Latina students. He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory an asset based perspective and a systemic inequality approach. By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools, Valencia shows how the various indicators of the achievement gap are actually symptoms of the societal and school quality gaps. Following each of these concerns, Valencia provides a number of reform suggestions that can lead to systemic transformations of K 12 education. *Students of Color and the Achievement Gap* makes a persuasive and well documented case that school success for students of color and the empowerment of their parents can only be fully understood and realized when contextualized within broader political, economic and cultural frameworks. *OECD Glossary of Statistical Terms* OECD, 2008-09-01 The OECD Glossary contains a comprehensive set of over 6 700 definitions of key terminology concepts.
