Managing Technology in Higher Education A. W. (Tony) Bates,Albert Sangra,2011-05-31 Universities continue to struggle in their efforts to fully integrate information and communications technology within their activities Based on examination of current practices in technology integration at 25 universities worldwide this book argues for a radical approach to the management of technology in higher education It offers recommendations for improving governance strategic planning integration of administrative and teaching services management of digital resources and training of technology managers and administrators The book is written for anyone wanting to ensure technology is integrated as effectively and efficiently as possible [The Experience of Technology Integration by Teacher Educators in Higher Education](#) Patricia Ann Suess,2007 With the advancing use of technology globally it is becoming essential for K 12 educators to have knowledge of educational technology and its appropriate classroom use Thus it is important for higher education faculty involved in the preparation of those K 12 teachers to achieve technology integration in their teacher education programs It is not sufficient to simply provide computers and peripheral devices to future teachers The critical issue is the way in which those tools are used to promote student learning Therefore it is necessary for faculty in higher education to model the use of technology as a teaching and learning tool In order to programmatically influence this change universities must determine what promotes greater technology use among its teacher educators This study investigates the development of technology integration by teacher educators in a Midwestern university s college of education It explores the experiences of faculty who are attempting to integrate technology in their courses This study provides insights into the

strategies and techniques that have aided one Midwestern university in its struggle to impact technological change in a teacher preparation program The roles and classification of various components such as primary and secondary benefits can be generalized to other settings Furthermore the obstacles to technology integration have been identified in a context that informs administration and support personnel Knowing the barriers should assist institutions in planning to accommodate and overcome these difficulties An outcome of this research is a systemic model describing the findings with the participants involved in this study The model is based on time availability benefit factors which create a framework for the teaching and learning process of a single course Motivation an attribute of the instructor control is dependent upon these factors and impacts the change process Thus a main result is the existence of this model which can be tested in additional educational settings so that other researchers may elaborate on it This study does not attempt to address whether or not technology integration is a worthy goal Instead it focuses on successful strategies and techniques and opens the door to further exploration of unresolved impedances

Integrating Pedagogy and Technology James A. Bernauer, Lawrence A. Tomei, 2015

Integrating Teaching and Technology A Matrix for Professional Faculty Development provides college faculty and administrators with the foundations for a new model for integrating the two most critical dimensions of teaching and learning: pedagogy and technology. The Integrated Readiness Matrix (IRM) Integrating Teaching and Technology began as dialogue among the authors and their university peers focusing on how best to integrate technology into instruction. Achieving this goal requires all faculty to be conversant with the theories of learning, the taxonomies and domains of learning, and a new methodology for preparing and developing college faculty for a career of classroom teaching. Only by building on a foundation of educational theories can we meet students where they are while designing instruction that fosters student growth and achievement.

Teaching Religion Using Technology in Higher Education John Hilton III, 2018-03-19

This edited collection helps those teaching religion in higher education utilize technology to increase student learning both inside and outside of the classroom. Recent times have seen major technological shifts that have important implications for how religion is taught at a post-secondary level. Providing multiple perspectives on a range of topics including social media use and interactive classroom learning, this book presents a series of original case studies and insights on how technology can be used in religion classes in higher education to improve student learning.
