Data Visualization with Python and JavaScript Kyran Dale,2016-06-30 Learn how to turn raw data into rich interactive web visualizations with the powerful combination of Python and JavaScript With this hands on guide author Kyran Dale teaches you how build a basic dataviz toolchain with best of breed Python and JavaScript libraries including Scrapy Matplotlib Pandas Flask and D3 for crafting engaging browser based visualizations As a working example throughout the book Dale walks you through transforming Wikipedia s table based list of Nobel Prize winners into an interactive visualization You ll examine steps along the entire toolchain from scraping cleaning exploring and delivering data to building the visualization with JavaScript s D3 library If you re ready to create your own web based data visualizations and know either Python or JavaScript this is the book for you Learn how to manipulate data with Python Understand the commonalities between Python and JavaScript Extract information from websites by using Python s web scraping tools BeautifulSoup and Scrapy Clean and explore data with Python s Pandas Matplotlib and Numpy libraries Serve data and create RESTful web APIs with Python s Flask framework Create engaging interactive web visualizations with JavaScript s D3 library

DATA VISUALIZATION FOR MANAGERS Dr. Mukul Burghate , In our increasingly data driven world it s more important than ever to have accessible ways to view and understand data After all the demand for data skills in employees is steadily increasing each year Employees and business owners at every level need to have an understanding of data and of its impact That s where data visualization comes in handy With the goal of making data more accessible and understandable data visualization in the form of dashboards is the go to tool for many businesses to analyze and share information The purpose of this Study Material is to present an introduction to the DATA VISUALIZATION FOR MANAGERS subject of MBA This book contains the syllabus from basics of the subjects going into the intricacies of the subjects All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers An attempt is made here by the authors to assist the students by way of providing Study Material as per the curriculum with non commercial considerations However it is implicit that these are exam oriented Study Material and students are advised to attend regular lectures in the

Institute and utilize reference books available in the library for In depth knowledge We owe to many websites and their free contents we would like to specially acknowledge contents of website [www wikipedia com](http://www.wikipedia.com) and various authors whose writings formed the basis for this book We acknowledge our thanks to them At the end we would like to say that there is always a room for improvement in whatever we do We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful Readers can email their queries and doubts to our authors on [tmcnagpur gmail com](mailto:tmcnagpur@gmail.com) We shall be glad to help you immediately Author Dr Mukul Burghate Expert Data Visualization Jos Dirksen,2017-04-24 Breathe life into your data by learning how to use D3 js V4 to visualize information About This Book Create complex visualizations powered by D3 js and open data Provides an extensive set of visualizations that explore all the functionality provided by D3 js V4 Shows how to set up an easy to use environment to create stunning visualizations Who This Book Is For The typical target audience of this book is JavaScript developers designers and visual artists who have some basic JavaScript programming knowledge and who now want to master pro level techniques to create interactive data visualizations using web standards which work on desktop as well as mobile devices What You Will Learn Learn how D3 js works to declaratively define visualizations Create charts from scratch by using SVG and the D3 js APIs See how to prepare data for easy visualization using D3 js Visualize hierarchical data using chart types provided by D3 js Explore the different options provided by D3 js to visualize linked data such as graphs Spice up your visualizations by adding interactivity and animations Learn how to use D3 js to visualize and interact with Geo and Gis related information sources Create visualization by streaming data over WebSockets In Detail Do you want to make sense of your data Do you want to create interactive charts data trees info graphics geospatial charts and maps efficiently This book is your ideal choice to master interactive data visualization with D3 js V4 The book includes a number of extensive examples that to help you hone your skills with data visualization Throughout nine chapters these examples will help you acquire a clear practical understanding of the various techniques tools and functionality provided by D3 js You will first setup your D3 JS development environment and learn the basic patterns needed to visualize your data After that you will learn techniques to optimize different processes such as working with selections animating data transitions creating graphs and charts integrating external resources static as well as streaming visualizing information on maps working with colors and scales utilizing the different D3 js APIs and much more The book will also guide you through creating custom graphs and visualizations and show you how to go from the raw data to beautiful visualizations The extensive examples will include working with complex and realtime data streams such as seismic data geospatial data scientific data and more Towards the end of the book you will learn to add more functionality on top of D3 js by using it with other external libraries and integrating it with EcmaScript 6 and Typescript Style and approach This book will have a real world case study approach where you will be given data sets from different domains These data sets will have different visualization goals some might need 2D or 3D charts some might need automated

workflows others might require interactive maps While you fulfill these goals you will learn different techniques and best practices which will enable you to perform data visualization tasks on your own

Virtual Worlds on the Internet John Vince, Rae Earnshaw, 1999-01-10 In recent years computer graphics has evolved into four major disciplines computer animation image processing visualization and virtual reality Now these technologies are converging into one seamless digital medium resulting in various tools that will transform the way we work in the next century Virtual Worlds on the Internet examines how the latest developments in virtual environments computer animation communication networks and the Internet are being configured to create revolutionary tools and systems Vince and Earnshaw have selected twenty papers they believe will influence computer systems of the twenty first century The topics discussed in this book include A toolkit for the development of virtual environment applications for education and research Behavior descriptions used in expansive virtual environments Different uses of VRML in information system interfaces An examination of research in virtual reality environment interfaces Five approaches to supporting changes in virtual environments How ATM networks can support multi user 3D virtual environments The transmission of vector graphics and animations over narrow band transmission channels An exploration of an implicit modeling system including an interactive editor for building models A description of the advantages of 3D environments for shopping applications on the Internet The prototype of a software tool that automatically generates 3D models of virtual supermarkets A VR Workbench that displays strategic information viewable by a user groups An overview of a VR display system describing its workbench technology and its applications How to separate the functionality of a multi user 3D modeling system into functional tools with interface specifications
