Disciplines and Interdisciplinarity in Foreign Language Studies Hans Lauge Hansen, 2004 In the last part of the twentieth century the human sciences witnessed three paradigmatic turns that made it possible to comprehend each individual discipline in the light of a unitary object of study the text the pragmatic turn within linguistics the linguistic turn within historical and cultural studies and the cultural turn within literary studies Combined with the more comprehensive nature of the texts studied the mass media postcolonial studies etc reflection on the theoretical approach is more important today than ever as a means of interdisciplinary practice across both disciplines and languages Most of the contributions in this book were originally presented at a conference on Disciplines and Interdisciplinarity in Foreign Language Studies The conference took place at the University of Aarhus Denmark 19-20 September 2003 and was organised by The Language and Culture Network Founded in 2002 the network promotes interdisciplinary collaboration between the traditional branches of Foreign Language Studies

Cross-Disciplinary Approaches to the English Language Crina Herteg, Rodica Pioariu, Teodora Popescu, 2011-09-22 Cross Disciplinary Approaches to the English Language Theory and Practice provides an overview of a less tackled field of research namely the main issues at stake when teaching English Language and Culture in Romania The

approach is an interdisciplinary and cross cultural one as the authors investigate problems offering and probing solutions from a cross curricular perspective The book is a collection of 10 contributions by teachers and researchers from Romania which draw on theoretical and applied methodological explorations into the challenges posed by teaching learning English in a globalised context Organised into three main chapters the volume addresses the multifacetedness of language education as a cross discipline The complexity and universality of the research enquiries and practical insights make the topics addressed valid across the contemporary globalising educational context Cross Disciplinary Approaches to the English Language Theory and Practice will be a useful tool to specialists and practitioners from ESP and CLIL domains alike as well as graduate and postgraduate students in foreign language teaching *Cross-Curricular Approaches to Language Education* Eleni

Agathopoulou,Angeliki Psaltou-Joycey,Marina Mattheoudakis,2015-02-05 Current applied linguistic research generally supports the adoption of interdisciplinary approaches in education with the objective of enhancing learners progress and teachers practices In this spirit this edited volume explores the issue of cross curricular learning and teaching from a wider perspective The twenty three papers collected here are categorised in four thematic units all of which however share a common feature they focus on interdisciplinary learning and promote the integration of knowledge and skills from various subject areas As such all the papers brought together in this volume thus emphasise the interconnectedness of knowledge and ideas in primary secondary and tertiary education The theme of Cross Curricular Teaching and Learning is related in this volume to Intercultural Education to Content and Language Integrated Learning and to Information and Communication Technology ICT The book will be of interest to scholars who are interested in relevant research based data and results and to educators who wish to update their knowledge about cross curricular teaching and improve their language teaching practices **Language and History, Linguistics and Historiography** Nils Langer,Steffan Davies,Wim

Vandenbussche,2011 What are the points of contact between the study of language and the study of history What are the possibilities for collaboration between linguists and historians and what prevents it This volume the proceedings of an international conference held at the University of Bristol in April 2009 presents twenty two articles by linguists and historians exploring the relationship between the fields theoretically conceptually and in practice Contributions focus on a variety of European and American languages in historical periods from the Middle Ages to the present day Key themes at the intersection of these two disciplines are the standardization and classification of languages the social and demographic history of medieval and early modern Europe the study of language and history from below and the function of language in modern politics The value of interdisciplinary collaboration is demonstrated in a wide ranging set of case studies on topics including language contact in Northern and Central Europe the relationship between peninsular and transatlantic Spanish and new approaches to the recent histories of Nicaragua Luxembourg and Bulgaria The volume seeks out the interdependencies between the two fields and asks why exchanges between linguists and historians remain the exception

rather than the rule **International Handbook of English Language Teaching** Jim Cummins, Chris Davison, 2007-12-31 This two volume handbook provides a comprehensive examination of policy practice research and theory related to English language teaching ELT in international contexts Nearly 70 chapters highlight the research foundation for the best practices frameworks for policy decisions and areas of consensus and controversy in the teaching and development of English as a second and or additional language for kindergarten through to adult speakers of languages other than English In doing so it problematizes traditional dichotomies and challenges the very terms that provide the traditional foundations of the field A wide range of terms has been used to refer to the key players involved in the teaching and learning of the English language and to the enterprise of English language teaching as a whole At various times and in different contexts the following labels have been used in countries where English is the dominant language to describe programs learners or teachers of English English as a second language ESL English as an additional language EAL limited English proficient LEP and English language learners ELL In contexts where English is not the dominant language the following terms have been used English as a foreign language EFL English as an international language EIL and English as a lingua franca ELF *Conference proceedings. ICT for language learning* Pixel, 2013 *Interdisciplinary Language Arts and Science Instruction in Elementary Classrooms* Valarie L. Akerson, 2020-08-11 This volume brings together evidence based approaches to interdisciplinary language arts and science instruction Firmly grounded in the research showing cognitive parallels between the two subjects and reflecting the many recommendations in recent years for using interdisciplinary instruction at the elementary level its goal is to help teachers effectively use this kind of instruction in elementary classrooms The book is organized around three themes Introduction to Interdisciplinary Science and Language Arts Instruction The Influence of Interdisciplinary Science and Language Arts Instruction on Children's Learning and Research on Preparing Elementary Teachers to Use Interdisciplinary Science and Language Arts Instruction Each chapter summarizes the research on its focal topic Examples of research applied to practice and questions and prompts for discussion and reflection help readers apply what they are reading in their own classroom contexts Teacher educators and prospective and practicing elementary teachers everywhere will benefit from this overview of current research and practice in interdisciplinary science and language arts instruction
