**A Handbook to the Exegesis of the New Testament** Stanley E. Porter, 2022-02-07 This handbook provides a substantial theoretical and practical guide to the multi faceted discipline of exegesis of the New Testament After an introduction to exegesis and a bibliographic essay on the basic tools the volume has two major parts The first focuses on method and includes essays on the major approaches to exegesis including textual criticism language genre and backgrounds

The second part applies exegetical method to the various literary units of the New Testament. Most exegetical handbooks are either too short and brief thereby failing to cover the requisite current topics in sufficient depth or too technically difficult failing to provide a useful methodology. This coordinated volume offers succinct and well informed essays with plenty of bibliography written by experts in their respective fields. The handbook will serve well as a textbook as well as a reference book to the major tools and topics in the area. This publication has also been published in paperback please click here for details.

*Discourse Analysis and the Greek New Testament* Stanley E. Porter, Matthew Brook O'Donnell, 2023-12-28. This volume examines and outlines a Systemic Functional Linguistic (SFL) model of discourse analysis and its relationship to New Testament Greek. The book reflects upon how SFL has grown as a field since it was first introduced to New Testament Greek studies by Stanley E. Porter in the 1980s. Porter and Matthew Brook O'Donnell first introduce basic concepts regarding discourse analysis and the major approaches towards it within New Testament studies. They then provide a detailed exploration of discourse analysis in terms of the textual metafunction beginning with an introduction to the architecture of language within SFL before exploring several individual elements within it. By focusing upon these individual components in particular theme and information structure, markedness and prominence and coherence and cohesive harmony, Porter and O'Donnell introduce and exemplify the major resources of the textual metafunction.

*A Grammar of New Testament Greek* Rodney A. Whitacre, 2021-11-30. A reader's guide to the morphology and syntax of Koine Greek. From the pen of a seasoned instructor of biblical Greek, this book functions as both an essential resource for second year students and an invaluable asset for all readers as they continue to hone and deepen their linguistic skills. It begins with a basic overview of the language for new learners and for those looking for a brief refresher before moving into nuanced matters of morphology and syntax. Whitacre's aim is ultimately to help readers understand the subtleties of the language on the pages of the New Testament; thus he engages with the biblical text both grammatically and exegetically so that readers can experience its full power and beauty. Including numerous illustrative examples throughout and several useful appendices at the end, *A Grammar of New Testament Greek* is indispensable both as a textbook and as a reference for all readers of the Greek New Testament and other texts written in Koine such as the Septuagint and the Apostolic Fathers.

*Linguistics & Biblical Exegesis* Douglas Mangum, Josh Westbury, 2017-11-01. We rarely think about the way languages work because communicating in our native tongue comes so naturally to us. Porter,Matthew Brook O'Donnell,2017-10-30 Biblical and Ancient Greek Linguistics BAGL is an international journal that exists to further the application of modern linguistics to the study of Ancient and Biblical Greek with a particular focus on the analysis of texts including but not restricted to the Greek New Testament The journal is hosted by McMaster Divinity College and works in conjunction with its Centre for Biblical Linguistics Translation and Exegesis and the OpenText org organization [www.opentext.org](http://www.opentext.org) in the sponsoring of conferences and symposia open to scholars and students working in Greek linguistics who are interested in contributing to advancing the discussion and methods of the field of research BAGL is a refereed on line and print journal dedicated to distributing the results of significant research in the area of linguistic theory and application to biblical and ancient Greek and is open to all scholars not just those connected to the Centre and the OpenText org project     **The Greek Imperative Mood in the New Testament** Joseph D. Fantin,2010 The imperative mood as a whole has generally been neglected by Greek grammarians The Greek Imperative Mood in the New Testament A Cognitive and Communicative Approach utilizes insights from modern linguistics and communication theory in order to propose an inherent semantic meaning for the mood and describe the way in which it is used in the New Testament pragmatics A linguistic theory called neuro cognitive stratificational linguistics is used to help isolate the morphological imperative mood and focus on addressing issues directly related to this area while principles from a communication theory called relevance theory provide a theoretical basis for describing the usages of the mood This book also includes a survey of New Testament and select linguistic approaches to the imperative mood and proposes that the imperative mood is volitional directive and should be classified in a multidimensional manner Each imperative should be classified according to force which participant speaker or hearer benefits from the fulfillment of the imperative and where the imperative falls within the event sequence of the action described in the utterance In this context sociological factors such as the rank of participants and level of politeness are discussed together with other pragmatic related information The Greek Imperative Mood in the New Testament is a valuable teaching tool for intermediate and advanced Greek classes     **Biblical Translation in Chinese and Greek** Toshikazu Foley,2009-09-30 This study integrates three independent subjects translation theory Mandarin aspect and Greek aspect for the purpose of formulating a working theory applicable to translating the Bible The primary objectives are defined in terms of grammatical translation of Greek aspect into Mandarin aspect at the discourse level A historical overview of the Chinese Bible is provided as a way of introducing major translation issues related to linguistic conceptual and logistical challenges The proposed theory provides the translator with a powerful tool which is tested in two sample passages from John 18 19 and

Wallace, 2009 Granville Sharp's Canon and Its Kin explains that the semantics of the article substantive KAI substantive construction TSKS have been largely misunderstood and that this misunderstanding has adversely impacted the exegesis of several theologically significant texts This issue is addressed from three angles historical investigation linguistic phenomenological analysis of the construction and exegetical implications The reasons for the misunderstanding are traced historically a better comprehension of the semantics of the construction is established by an examination of primary literature in the light of linguistic theory and the implications of this analysis are applied to a number of passages in the New Testament Historically the treatment begins with a clear grammatical principle articulated by Granville Sharp and it ends with the present day confusion This book includes a detailed examination of the New Testament data and other Ancient Greek literature which reveals that Sharp's rule has a general validity in the language Lastly a number of exegetically significant texts that are affected by the linguistic phenomenological investigation are discussed in detail This enlightening text is a valuable resource for undergraduate and graduate students of religion linguistics history and Greek *1 John* Benjamin L. *Discourse Markers in Early Koine Greek* Christopher J. Fresch, 2023-07-07 Using a cognitive functional linguistic framework and cross linguistic research on discourse markers Christopher J Fresch investigates the use of five discourse markers in the documentary papyri of the third to first centuries BCE and the Greek translations of the Hebrew Bible Through this analysis Fresch proposes linguistically grounded descriptions for how each discourse marker uniquely functions to guide readers in how they process and comprehend the text Based on these descriptions he examines the instances of these discourse markers in the Greek translation of the Minor Prophets and how the translator used them to render the Hebrew text Fresch presents a picture of a translator who selected discourse markers based on their own understanding of the structure flow and meaning of the underlying Hebrew text Their use attests to a translator who was contextually aware and who desired to produce a translation in idiomatic Koine

**Grammar Bible Version of the New Testament** Gary Gallant, 2025-03-28 After over 40 years of translation work to create Grammar Uses Version GUV a decision was made to update this version and produce Grammar Bible Version GBV GUV was developed by examining the original Greek structure more precisely and avoiding unnecessary dynamic equivalence It is also based upon the Majority Text BYZ with differences from the Textus Receptus TR noted in the variant readings The original motivation behind GUV was the lack of translations that consistently rendered the present tense as linear and the imperfect tense as ongoing rather than a simple past This distinction preserves the aorist as a simple past event while maintaining the imperfect as continuous action in the past accurately reflecting its intended sense In GUV subjunctives followed the Old English expressions of wish such as may might and should The aorist subjunctive conveys a sense of potentiality something that could happen rather than something definite GBV modernized this by introducing present indicative aligning more closely with contemporary English while preserving the non linear nature of the aorist subjunctive This revision retains Greek grammatical structures including participles and subjunctives while refining the English to be smoother and more precise The goal is to maintain the integrity of the Greek while enhancing readability and clarity

**Key Adjustments from GUV**

- Smoothed sentence structure for clarity
- Rendered aorist participles with aorist main verbs as pluperfect
- Rendered present participles with aorist main verbs as imperfect
- Rendered perfect passive indicatives as present tense non linear using the code Retained present indicative non linear for aorist subjunctives and linear for present tense subjunctives using the code
- In some cases the infinitive is used to modernize the subjunctive in English which is indicated by the code Kept present tense indicative verbs linear this means the present tense is continuous
- Maintained historical present tense where appropriate by using the code Ensured consistent tense usage avoiding unnecessary shifts
- Where shifts occur the codes or are used Improved sentence flow while preserving

structure Removed redundant conjunctions Ensured alignment with Koine Greek grammar Enhanced readability while maintaining grammatical integrity This revision refines the wording for smoothness while preserving the original tense distinctions and faithfully adhering to Greek structure
