Organization Development Interventions William J. Rothwell, Sohel M. Imroz, Behnam Bakhshandeh, 2021-09-02 To effectively adapt and thrive in today's business world organizations need to implement effective organizational development OD interventions to improve performance and effectiveness at the individual group and organizational levels OD interventions involve people trust support shared power conflict resolution and stakeholders participation just to name a few OD interventions usually have broader scope and can affect the whole organization OD practitioners or change agents must have a solid understanding of different OD interventions to select the most appropriate one to fulfill the client's needs There is limited precise information or research about how to design OD interventions or how they can be expected to interact with organizational conditions to achieve specific results This book offers OD practitioners and change agents a step by step approach to implementing OD interventions and includes example cases practical tools and guidelines for different OD interventions It is noteworthy that roughly 65% of organizational change projects fail One reason for the failure is that the changes are not effectively implemented and this book focuses on how to successfully implement organizational changes Designed for use by OD practitioners management and human resources professionals this book provides readers with OD basic principles practices and skills by featuring illustrative case studies and useful tools This book shows how OD professionals can actually get work done and what the step by step OD effort should be This book looks at how to choose and implement a range of interventions at different levels Unlike other books currently available on the market this book goes beyond individual group and organizational levels of OD interventions and addresses broader OD intervention efforts at industry and community levels too Essentially this book provides a practical guide for OD interventions Each chapter provides practical information about general OD interventions supplies best practice examples and case studies summarizes the results of best practices provides at least one case scenario and offers at least one relevant tool for practitioners

Meaningful Partnership at Work Seth Silver, Timothy Franz, 2021-08-26 Why are some work partnerships exceptional while most are not How can we establish and sustain an enhanced level of cohesion connection and collaboration in the most important work relationship the one between a manager and team What could remedy the high levels of isolation and anxiety so many feel at work these days Silver and Franz explore the concept of meaningful partnership in the workplace They present meaningful partnership as a mindset where both leaders and their teams are fully committed to ensuring the support and success of the other Then they describe a model called ERTAP which stands for Empathy Respect Trust Alignment and Partnership which is the foundation for meaningful partnership Finally they detail a practical yet transformative relationship building process referred to as the Workplace Covenant This enables

leaders and teams to create mutual commitments with obligatory weight that help them to feel accountable for the success of the relationship and each other The book includes real client stories that illustrate the dimensions of partnership and the Workplace Covenant process Silver and Franz also outline other work relationships that can benefit from meaningful partnership pitfalls to avoid relevant research and insights derived from years of consulting experience This book is a must read for leaders interested in a better working relationship with their team for teams who have critical work partnerships with other teams for individuals who work closely with other individuals and need an exceptional 1 1 partnership and finally for third party experts in HR or continuous improvement who are seeking a new powerful way to help clients feel supported and be more successful

Virtual Coaching to Improve Group Relationships William J. Rothwell, Cho Hyun Park, 2020-12-28
Process consultation invented by Edgar Schein is both a skill and an organization development change effort As a skill process consultation means the ability to observe and provide feedback about small group dynamics to a work group about how well group members interact and how to improve that interaction Just as facilitators devote their time to in one word asking process consultants devote their time to in one word watching at an expert level As a change effort process consultation is a concerted effort to help members of a group work together more effectively For that reason the word process in this context should be interpreted to mean interpersonal interaction in small groups Historically process consultation has focused attention on face to face groups and their group dynamics But times are changing More work is done online or in blended online and onsite groups than face to face alone A 2017 survey of over 25 000 workers in 12 countries revealed that 62% of global workers are now working flexibly with some residential work and some virtual work The same survey found that workers believe that flexible work arrangements make them more productive and that 48% of survey respondents reported that their virtual interactions include representatives of other cultures It is true that for workers who can discipline themselves and manage distractions at home virtual work can be more productive when commuting time is eliminated and workplace distractions are minimized Virtual work has the advantage of reducing the need for childcare slashing work wardrobe costs and cutting unproductive stressful commuting time Despite how modes of working together have changed over the years ranging from face to face to some degree of virtual video conference audio conference print only collaboration and many blended combinations and the growing need for finding ways to help people work together more effectively there has been no practical guideline of process consultation in a virtual or mixed work setting since Schein's process consultation initially focused on group dynamics in face to face settings Therefore this book aims to provide practical approaches to process consultation helping group members discover more effective ways of working together in blended virtual residential and cross cultural settings Essentially this book provides a practical how to guide for virtual coaching using step by step procedural approaches cases and helpful platforms technologies and tools It also provides information about how to use technology to support the process of improving virtual or mixed group relationship
