with ourselves God and others But the book doesn't stop there it also shows ways to combat our sin so that we can change our hearts not just our behavior Sin is serious and specific and it doesn't go away on its own But here is serious and safe help for facing sin and finding freedom in Christ

Discerning Life with Dreams: The Triadic Relationships Between Dreams, Discernment, and Spiritual Intelligence B. Anne Frey, 2008-01-23 This study explored the relationship between dreams discernment and spiritual intelligence It focused on the experience of people who use dreams to help them with spiritual discernment or decision making in a spiritual context A case study methodology included questionnaires personal dream records and interviews to understand the seven participants experiences of exploring their dreams for guidance Participants were self selected by answering an ad seeking people whose dreams had helped them to make a decision who journaled their dreams and who consider themselves to be spiritual Most participants reported being drawn to dreamwork by a significant life experience While participants shared different perceptions as to what discernment consists of each participant reported that dreams helped them to grow spiritually A number of outcomes were exemplified falling into two main groupings a the use of discernment in order to understand a dream whether or not they ended up reaching a resolution or making a decision about the dream and b the use of dreams as part of a discernment process whether or not the dreams helped them to resolve their discernment issue or make a decision The intensity of emotion attached to an issue seemed for some to render it more difficult to arrive at particular decisions For others dreams seemed to ease the burden of discernment or decision making by raising their degree of confidence towards their resolution or decision Deepening appreciation of and growing desire for living spiritually and learning more about spirituality were indicators of a developing spiritual intelligence For most spiritual growth occurred through knowledge or learning gained from their dreams For some their belief about God's role in their life impacted their experience of the Divine in their dreams Finally the study showed that individuals are not always aware of what had helped them suggesting a subconscious process at work in both discernment and decision making The study affirmed a triadic link between dreams discernment and spiritual intelligence among people involved in spiritual dreamwork It demonstrated ways by which the discernment process can build confidence in people who are turning to their dreams for guidance in a spiritual context

Quest for Spiritual Community Angela H. Reed, 2011-04-25 Many churches recognize the importance of the genuine spiritual hunger in our time and are attempting to bridge the gulf between traditional religious institutions and the contemporary spiritual quest by revitalizing and retooling ancient spiritual practices This book suggests that it is possible to relish the spiritual quest while honoring tradition and theological inquiry through practices such as spiritual guidance It presents a sociological analysis of contemporary spirituality case studies of congregations with spiritual guidance ministries and reflection on historical practices and Protestant theological roots to explore the strengths and pitfalls of nurturing the contemporary spiritual quest in the average congregation The resulting vision for congregation based spiritual guidance incorporates practices that attend to person community and mission

Bakke,2000-10-01 Learn how to nurture your awareness of and response to God's love and guidance through the historical practice of spiritual direction Awakening Youth Discipleship Brian J. Mahan,Michael Warren,David F. White,2008-01-01 Youth ministry has increasingly lost touch with its origins in the way of Jesus and the social practices intrinsic to Christian discipleship and has instead substituted layers of Jesus talk middle class values fun and games and doses of warm fellow feeling Awakening Youth Discipleship articulates the history of this domestication of youth and ministry Mahan Warren and White tell a story of the ways in which our society has colluded to shape a domesticated adolescence The authors believe a Christian response to this challenge must be multilevel addressing the problem at three levels society church and individual The authors propose reclaiming practices of discernment that both engage congregations in social awareness and involve individuals in discerning fuller vocational opportunities than those allowed by popular cultural norms **Foundation**

Jones,David Fredrickson,2023-07-10 Congregations today exist in an in between or liminal time The customary answers about what it means to be and do church and strategies for renewal based on those answers no longer work But there is no certainty about the new answers It is a time of searching of letting go of the old and experimenting with the new This means facing the reality of death which may come as institutions die or as established ways are abandoned This book addresses this reality while maintaining a constant focus on the Christian promise of resurrection It offers three images that recognize the differing contexts of congregations and help them shape their future as they seek to discern God's work in their midst Congregations shaped by each of the three images remembering letting go and resurrecting have the potential to faithfully engage in God's work in their setting For each of the three there are suggestions for helping a congregation move toward an even more faithful expression of the image The book includes Bible studies and other resources that congregations will find helpful in this process Some congregations may continue in traditional ways while others seek a new way of being church But all can join in God's work in their time and place with a new and deeper understanding of the ministry that is theirs This book helps them do that Because a different kind of leadership is needed the book offers an approach to leadership that is grounded in a spiritual process of

Kyle,2015-03-06 It is reported that there are as many as 100 billion neurons that make up the human nervous system This system is incredibly complex and yet it is a fundamental part of what makes us who we are Yet there is far more to human beings than biology

Many academic disciplines study the human condition and there are many schools of thought within that study. We must also appreciate that the study of human nature did not begin in contemporary times. History, particularly Western Christian history, is full of texts that offer detailed explorations of the human condition. However, no consensus has yet emerged. Consensus or not, those working towards religious and spiritual formation are tasked with pursuing the transformation of their communities. This book is an attempt to provide some of the background to support this ministerial work. It seeks not only to offer a fuller understanding of some of the common views of human nature but also insights into how we might utilize this knowledge in our ministries—ministries that strive towards the spiritual being and becoming of our world.
