A Sensory Curriculum for Very Special People Flo Longhorn, 2011-09-12 This uniquely valuable book arose from the author's work with profoundly disabled children in a special needs school The sensory impairment of the children meant that they were unable to learn from traditional teaching methods as they were unaware of the world around them Our very first awareness of our surroundings and ourselves come through our senses of smell touch taste sight hearing and movement and without them we are isolated To benefit from the normal school curriculum children with sensory impairment must learn to develop each of their senses individually and in combination a process the non handicapped child goes through spontaneously and unconsciously This book outlines a curriculum for each of the senses in
