Get the Picture: Visual Literacy in Content-Area Instruction Marva Cappello, Nancy T. Walker, 2019-07-01 Visual sources are increasingly prevalent in today's society. This cross-curricular resource by Marva Cappello and Nancy T. Walker provides teachers with new and engaging strategies to help students closely read visual texts. Teachers will learn to evaluate the complexity of visual texts and match them to their students. Students will learn to analyze visual sources, understand both explicit and implicit messages, interpret underlying meaning, and engage in meaningful discussion. Based on practical research, this approach offers students engagement in the full suite of Language Arts as defined by the International Literacy Association and National Council of Teachers of English: reading, writing, listening, speaking, viewing, and visually representing. The strategies are divided by purpose: receptive and productive strategies, and arranged by content area to support all teachers. Sample lessons for grades K-1 and 2-3 are provided for each strategy. With concrete tools and techniques and a wide range of suggested visual texts to use in the classroom, teachers can prepare students for interaction with primary sources, digital media, and the visual-heavy world of 21st-century learning. Digital downloads of visual texts and student pages are included.

Who's in the Game? Terri Toles Patkin, 2020-11-20 Some board games like Candy Land, Chutes and Ladders, Clue, Guess Who, The Game of Life, Monopoly, Operation, and Payday have popularity spanning generations. But over time, updates to games have created significantly different messages about personal identity and evolving social values. Games offer representations of gender, sexuality, race, ethnicity, religion, age, ability, and social class that reflect the status quo and respond to social change. Using popular mass-market games, this rhetorical assessment explores board game design, game implements, tokens, markers, 3-D elements, and playing instructions. This book argues the existence of board games as markers of an ever-changing sociocultural framework, exploring the nature of play and how games embody and extend societal themes and values.
