Knowledge And Special Libraries Resources For The Knowledge Based Economy:

Knowledge and Special Libraries Suzanne Connolly, James Matarazzo, 2009-11-03 First Published in 1998 Formerly a library was viewed as a place for information storage and information was viewed as simply bits of data Furthermore many wielded information as a tool of power in that those who had more information had more authority It is becoming increasingly clear that shared collective knowledge of an organization is of far greater value than that of each individual's privately held data In view of the librarian's changing profession it has also become clear that they are now being charged with the mission to explore and implement new and innovative methods to encourage sharing and to better manage information The articles selected for this compendium are well thought out and organized and are drawn from the fields of information and library science and business management Since most special libraries are corporate libraries the selections are taken from these different disciplines to provide perspectives from both a business standpoint and an information management one The selections contain many different predictions about libraries and librarians of the future They focus on new roles and highlight the importance of the profession With the rapid growth of technology end users are being inundated with choices They need expert advice from experienced practitioners Currently much of the literature focuses solely on the management of libraries as opposed to environment in which libraries operate The purpose of this reader is to correct that

Special Libraries as Knowledge Management Centres Eva Semertzaki, 2011-06-24 This book focuses on the role of special libraries as knowledge management centres in their organisations It describes the work of a special library and the special library draws on the characteristics that make the nucleus of collecting and organising knowledge which is used for the benefit of the institution By acquiring and sharing knowledge staff will enhance the intellectual capital of the institution Traditionally libraries are the information centres that organise and classify information Further on they are the proper places to create human networks and to organise the knowledge hidden in the minds of the staff This book also examines methods to prove the value of a special library for the parent organisation when it becomes the centre to gather knowledge Draws on the characteristics that make a special library necessary for an organisation Shows the importance of knowledge management in an organisational environment Provides ways to persuade the management of an organisation that the special library is the proper centre for knowledge management *Knowledge and Special Libraries* James M.
