Grizzly Kingdom An Artists Encounter:

Grizzly Kingdom Debbie Thomas, Maureen Enns, 1995-01-01 **Bears** Michale Lang, 2010 Bears Tracks through Time is an eclectic look at our relationship with these beautiful and sometimes frightful creatures with which we co exist in the Canadian Rockies As a result of our close cohabitation with bears the Whyte Museum of the Canadian Rockies has accumulated a modest collection of art artifacts and archival materials related to bears This book features images and stories from the collection The postcards sent to us from the past provide a compelling glimpse into our changing views of bears This is neither an exhibition catalogue nor an exhaustive study of bears but rather an assortment of bear tales and the people images and artifacts related to those stories **Bears** Kevin Van Tighem, 2013-05-13 Fear of bears seems almost to be part of what it is to be human Our species emerged out of the depths of time into a world already populated by these great carnivores Before we mastered iron and later developed firearms we had few defences against bears only watchful caution and elaborate ceremonies and sacrifices to ward off fear Where human populations grow bears have traditionally dwindled or disappeared But when we return to the wild to places where bears still survive all our primeval fears awaken again The risk of an automobile accident on the way to bear country far outstrips the risk of a close range encounter with a bear but it s the bear that worries us as we hurtle down the pavement at a hundred kilometres an hour In this timely and sensitive book Kevin Van Tighem calls on decades of experience knowledge and understanding in order to enlighten readers about our relationship with and attitude toward bears Along the way we are confronted with the realities confronting these great animals as a result of our ever expanding human population and their ever shrinking natural habitat Through historical research field observation practical advice personal anecdotes and an array of stunning photos Van Tighem has written a comprehensive book that is meant to demystify bears in order to promote a deeper understanding of these powerful yet vulnerable creatures **Wild Horses, Wild Wolves** Maureen Enns, 2013 Established in 1967 the Ghost River Wilderness Area located along the eastern slopes of the Rocky Mountains in southern Alberta is one of only three provincially designated wilderness areas in the province As such it is supposed to have the strictest form of government protection available in Canada with development motorised transportation and recreational activities either tightly controlled or altogether forbidden This has not been the case however Using a stunning combination of drawn and painted images conventional and remote photography using hidden cameras activated by heat or motion and traditional stories told by Peigan and Stoney Nakoda people Enns invites the reader to join her as she untangles old myths regarding Alberta s heritage and reveals some uncomfortable realities facing the province in the 21st century The wild horses wolves moose deer and bears profiled in this book have had little contact with humankind As communities developers and governments struggle to understand the affects of conservation recreation and development in sacred places it is becoming more and more difficult to keep the wild in wild animals This project is a passionate plea for understanding conservation and action **Canadian Books in Print.
