Killing Trayvons An Anthology Of American Violence:

Killing Trayvons Kevin Alexander Gray, Jeffrey St. Clair, JoAnn Wypijewski, 2014 Skin privilege When you re block it seems the hardest thing to explain whites Even the most conscious or liberal whites sometimes don t quite it Or as Langston Hughes once said A liberal is one who complains about segregated railroad cars but rides in the all white section The killing of Trayvon Martin in February 2012 rang yet another alarm about the costs of that privilege **Killing Trayvons An Anthology of American Violence** tracks the case and explores why Trayvon s name and Geo Zimmerman s not guilty verdict symbolized all the grieving the injustice the profiling and free passes based on white privilege and police power Trayvons male and female known and unknown Book jacket **Killing African Americans** Noel A. Cazenave, 2018-05-16 **Killing African Americans** examines the pervasive disproportionate and persistent police and vigilante killings of African Americans in the United States as a racial control mechanism that sustains the racial control system of systemic racism Noel A Cazenave s well researched and conceptualized historical sociological study is one of the first books to focus exclusively on those killings and to treat them as political violence Few issues have received as much conventional and social media attention in the United States over the past few years or have for decades now sparked so many protests and so often strained race relations to a near breaking point Because of both its timely and its enduring relevance **Killing African Americans** can reach a large audience composed not only of students and scholars but also of Movement for Black Lives activists politicians public policy analysts concerned police officers and other criminal justice professionals and anyone else eager to better understand this American nightmare and its solutions from a progressive and informed African American perspective **Assata Taught Me** Donna Murch, 2022-03-29 Black Panther and Cuban exile Assata Shakur has inspired multiple generations of radical protest including our contemporary Black Lives Matter movement Drawing its title from one of America s foremost revolutionaries this collection of thought provoking essays by award winning Panther scholar Donna Murch explores how social protest is challenging our current system of state violence and mass incarceration Murch exposes the devastating consequences of overlapping punishment campaigns against gangs drugs and crime on poor and working class populations of color Through largely hidden channels it is these punishment campaigns Murch says that generate enormous revenues for the state Under such difficult conditions organized resistance to the advancing tide of state violence and incarceration has proved difficult This timely and urgent book shows how a youth led political movement has emerged since the killing of Trayvon Martin that challenges the bi partisan consensus on punishment and looks to the future through a redistributive queer and feminist lens Murch frames the contemporary Black Lives Matter movement in relation to earlier struggles for Black Liberation while excavating the origins of mass incarceration and the political economy that drives it **Assata Taught Me** offers a fresh and much needed historical perspective on the fifty years since the founding of the Black Panther Party in which the world s largest police state has emerged *Revisiting the Elegy in the Black Lives Matter Era* Tiffany Austin, Sequoia Maner, Emily

Rutter, Darlene Scott, 2019-12-09 *Revisiting the Elegy in the Black Lives Matter Era* is an edited collection of critical essays and poetry that investigates contemporary elegy within the black diaspora. Scores of contemporary writers have turned to elegiac poetry and prose in order to militate against the white supremacist logic that has led to recent deaths of unarmed black men, women, and children. This volume combines scholarly and creative understandings of the elegy in order to discern how mourning feeds our political awareness in this dystopian time as writers attempt to see, hear, and say something in relation to the bodies of the dead as well as to living readers. Moreover, this book provides a model for how to productively interweave theoretical and deeply personal accounts to encourage discussions about art and activism that transgress disciplinary boundaries as well as lines of race, gender, class, and nation.

Lynching Ersula J. Ore, 2019-03-12 Winner of the 2020 Rhetoric Society of America Book Award. While victims of antebellum lynchings were typically white men, postbellum lynchings became more frequent and more intense with the victims more often black. After Reconstruction, lynchings exhibited and embodied links between violent collective action, American civic identity, and the making of the nation. Ersula J. Ore investigates lynching as a racialized practice of civic engagement in effect, an argument against black inclusion within the changing nation. Ore scrutinizes the civic roots of lynching, the relationship between lynching and white constitutionalism, and contemporary manifestations of lynching discourse and logic today. From the 1880s onward, lynchings she finds manifested a violent form of symbolic action that called a national public into existence, denoted citizenship, and upheld political community. Grounded in Ida B. Wells's summation of lynching as a social contract among whites to maintain a racial order at its core, Ore's book speaks to racialized violence as a mode of civic engagement. Since violence enacts an argument about citizenship, Ore construes lynching and its expressions as part and parcel of America's rhetorical tradition and political legacy. Drawing upon newspapers, official records, and memoirs as well as critical race theory, Ore outlines the connections between what was said and written, the material practices of lynching in the past, and the forms these rhetorics and practices assume now. In doing so, she demonstrates how lynching functioned as a strategy interwoven with the formation of America's national identity and with the nation's need to continually restrict and redefine that identity. In addition, Ore ties black resistance to lynching to the acclaimed exhibit *Without Sanctuary*, recent police brutality, effigies of Barack Obama, and the killing of Trayvon Martin.

The Perils of Populism Sarah Tobias, Arlene Stein, 2022-09-16 Featuring interdisciplinary essays about politics in the United States, the Middle East, Europe, and India from a variety of acclaimed theorists and activists, *The Perils of Populism* shows how a feminist lens can help diagnose the factors behind the global rise of right-wing populism and teach us how to resist the threat it presents to democracy.

The Trauma of Racism Beverly J. Stoute, Michael Slevin, 2022-10-31 *The Trauma of Racism: Lessons from the Therapeutic Encounter* is a pioneering reflection on the psychology of racism and its impact on us all. With the intimacy of personal experience and depth of analytic exposition, the authors expose racism's searing effects on personal, clinical, and community interactions while providing pathways for change.

This book asserts that the insights and practice of psychoanalysis applied behind the couch and in the community create unique opportunities for change. Essayists address racially derived mental health inequities including distortions, projections, stereotypes, and historical tropes. *The Trauma of Racism* invites personal and clinical exploration of how people learn, confront, and relearn views on race. Narratives of the loss and grief and the burdens of slavery that crisscross the African American community are present. They are complemented by those of the psychological burdens and inspired acts of personal responsibility that respond to unequal access to wealth and opportunity along racial lines. In moving accounts portraying experiences of racism and access to privilege, the authors grapple with the possibilities of mutual understanding. Readers concerned about racism will find themselves challenged and engaged. This book is intended for the general reader and for clinicians at any career stage. Likewise, scholars in the humanities, law, education, or public policy will find new opportunities to reflect and to act.

Strike! Jeremy Brecher, 2020-06-01. Jeremy Brecher's *Strike* narrates the dramatic story of repeated massive and sometimes violent revolts by ordinary working people in America. Involving nationwide general strikes, the seizure of vast industrial establishments, nonviolent direct action on a massive scale, and armed battles with artillery and tanks, this exciting hidden history is told from the point of view of the rank and file workers who lived it. Encompassing the repeated repression of workers' rebellions by company-sponsored violence, local police, state militias, and the U.S. Army and National Guard, it reveals a dimension of American history rarely found in the usual high school or college history course. Since its original publication in 1972, no book has done as much as *Strike* to bring U.S. labor history to a wide audience. Now, this fiftieth anniversary edition brings the story up to date with chapters covering the mini-revolts of the twenty-first century, including Occupy Wall Street and the Fight for Fifteen. The new edition contains over a hundred pages of new materials and concludes by examining a wide range of current struggles ranging from Black Lives Matter to the great wave of teachers' strikes for the soul of public education to the global Student Strike for Climate that may be harbingers of mass strikes to come.

Islamophobia and the Politics of Empire Deepa Kumar, 2021-09-07. A critically acclaimed analysis of anti-Muslim racism from the sixteenth to the twenty-first centuries in a fully revised and expanded second edition. In this incisive account, leading scholar of Islamophobia, Deepa Kumar traces the history of anti-Muslim racism from the early modern era to the War on Terror. Importantly, Kumar contends that Islamophobia is best understood as racism rather than as religious intolerance. An innovative analysis of anti-Muslim racism and empire, *Islamophobia* argues that empire creates the conditions for anti-Muslim racism, which in turn sustains empire. This book, now updated to include the end of the Trump administration's presidency, offers a clear and succinct explanation of how Islamophobia functions in the United States, both as a set of coercive policies and as a body of ideas that take various forms: liberal, conservative, and rightwing. The matrix of anti-Muslim racism charts how various institutions—the media, think tanks, the foreign policy establishment, the university, the national security apparatus, and the legal sphere—produce and circulate this particular form of bigotry. Anti-Muslim racism not only has horrific

consequences for people in Muslim majority countries who become the targets of an endless War on Terror but for Muslims and those who look Muslim in the West as well With a new foreword by Nadine Naber **Southern and Postcolonial Perspectives on Policing, Security and Social Order** Roxana Pessoa Cavalcanti, Peter Squires, Zoha Waseem, 2024-11-12 Postcolonial legacies continue to impact upon the Global South and this edited collection examines their influence on systems of policing security management and social ordering Expanding the Southern Criminology agenda the book critically examines social harms violence and war crimes human rights abuses environmental degradation and the criminalization of protest The book asks how current states of policing came about their consequences and whose interests they continue to serve through vivid international case studies including prison struggles in Latin America and the misuse of military force Challenging current criminological thinking on the Global South the book considers how police and state overreach can undermine security and perpetuate racism and social conflict *Liberation* Mark Ludwig, 2015-10-06 An exploration of freedom by some of the world's most celebrated poets published for the seventieth anniversary of the liberation of the Nazi camps The year 2015 marks the seventieth anniversary of the liberation of the Nazi concentration camps and the conclusion of the Second World War But around the world oppressed and imprisoned people are still longing for freedom and asking What does it mean to be free This collection of poems explores that question In honor of this anniversary some of the world's top contemporary voices including Rita Dove Robert Pinsky Jay Parini Yusef Komunyakaa Agi Mishol Tsering Woeser Han Dong Ernesto Santana and Richard Blanco have written poems on the theme of liberation as it inspires them personally and creatively Nearly all of their poems are published for the first time in this volume The result is an artistic representation of the universal yearning for freedom from twenty five countries and countless stories of oppression imprisonment and liberation Here are Afghan women writing in secret Tibetan and Cuban dissidents memories and hopes inspired by topics from Fergusson to the Middle East from illness to spirituality to joy in nature This collection demonstrates the power of art to heal and to bring attention to freedom as a universal human right Lyrical uplifting contemplative sometimes angry sometimes hopeful always masterful these are enduring poems to enrich and inspire *Black Age* Habiba Ibrahim, 2021-09-14 Black Age argues that age tracks the struggle between the abuses of black exclusion from western humanism and the reclamation of non normative black life **The Apocalypse of Settler Colonialism** Gerald Horne, 2018-03-12 Account of the slave trade and its lasting effects on modern life based on the history of the Eastern Seaboard of North America the Caribbean Africa and what is now Great Britain Homestead Steel Mill-the Final Ten Years Mike Stout, 2020-06-01 Spanning the famous Homestead steel strike of 1892 through the century long fight for a union and union democracy Homestead Steel Mill the Final Ten Years is a case history on the vitality of organized labor Written by fellow worker and musician Mike Stout the book is an insider's portrait of the union at the U S Steel's Homestead Works specifically the workers activists and insurgents that made up the radically democratic Rank and File Caucus from 1977 to 1987 Developing its own inside outside approach

Republic of Neverland Robb Johnson,2020-10-01 There once was a time when teachers and communities were able to exercise democratic control over their schools Now that power has been taken away both centralised and privatised under the guise of reform There is a forgotten history of the time before reform and within it a bright horizon is visible reachable only if educators and society at large can learn the lessons of the past Robb Johnson entered the classroom as a new teacher in the 1980s and has spent a lifetime alongside his pupils encouraging both creativity and a healthy distrust of authority This book is both memoir and polemic a celebration of children s innate desire to learn share cooperate and play as well as a critique of bureaucratic interference Johnson details how we ended up with the contemporary mass education systems and why they continually fail to give children what they need Combining practical experience as a teacher with detailed pedagogical knowledge and a characteristic playful style Johnson is both court chronicler and jester imparting information and creatively admonishing the self important figureheads of the reform agenda This book considers how schools and education relate to the wider society in which they are located and how they relate to the particular needs and abilities of the people who experience them It shows that schools and education are contested spaces that need to be reclaimed from the state and turned into places where people can grow not up not old but as individuals It offers alternative ways of running classrooms schools and perhaps even society **Fighting Times** Jon Melrod,2022-09-27 Deeply personal astutely political
