*The Golden Bough: pt. VII–p1-2–s. Balder the Beautiful; the fire festivals of Europe and the doctrine of the external soul.* 1913 James George Frazer, 1913 Russia and the Russians in 1842; Austria, Vienna, Prague; Ireland; Scotland J. G. Kohl, 2025-08-12 Reprint of the original first published in 1843 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **How Germans and Russians Made Their Orthographies** Kirill Levinson, 2023-11-15 How Germans and Russians Made Their Orthographies Dealing With the Spelling Distress is the first social constructionist study of spelling norms and spelling mistakes Starting from the question of why in the modern world misspelling is considered evidence of incompetence laziness stupidity or carelessness Kirill Levinson traces the origins of such attitudes in German and Russian societies of the nineteenth and early twentieth centuries Analyzing publications and archival sources this book illustrates how the unification and codification of spelling rules in Germany and repressive attitude to errors were the result of the increased value ascribed to accuracy unambiguity and error freeness in the economy and everyday life The critical context to the development of such attitudes can be found in the challenges of the industrial revolution the political reaction following 1848 upheavals and the development of national school systems that used formalized grading and combined the academic training and moral education of schoolchildren In Russia the borrowing of Prussian models during the school reform of the 1860s played a key role to a similar repressive attitude towards spelling mistakes The rigorous orthographic regime established in the second half of the nineteenth century persisted for many decades even though alternative solutions were proposed to overcome the significant problems that the inconsistencies of German and Russian orthographies posed optimizing the rules to make them easier to learn and follow moving from alphabetical writing to shorthand and liberalizing school *The empire of the tsars an the Russians* Anatole Leroy-Beaulieu, 1893 The Empire of the Tsars and the Russians: The country and its inhabitants Anatole Leroy-Beaulieu, 1893 **The empire of the tsars and the Russians, tr. with annotations by Z.A. Minh,Quynh Thien Dac,2022-03-22 Jazz in Socialist H N i Improvisations between Worlds examines the germination and growth of jazz under communist rule perceived as the music of the enemy and ideologically decadent in the Vietnamese capital of H N i After disappearing from the scene in 1954 following the end of the First Indochina War jazz reemerged in the public sphere decades later at the end of the Cold War Since then H N i has established itself as a vital and vibrant jazz center complete with a full jazz program in the national conservatoire Featuring interviews with principal players involved in cultivating the scene from past to present this book presents the sociocultural encounters between musicians and the larger powers enmeshed in the broader political economy detailing jazz s journey to garner respect comparable to classical music as an art form possessing high artistic value Ethnographical sketches explore how Vietnamese musicians learn and play jazz while sustaining and nurturing the scene providing insight as to how jazz managed to grow in such an environment Jazz in Socialist H N i sheds light on those underlying caveats that allow Vietnamese jazz musicians to navigate the middle grounds between worlds between music and politics not as an act of resistance but as realisation of artistic expression Science and Other Poems Alison Hawthorne Deming,1994-03-01 I greatly admire Alison Deming s lucid and precise language her stunning metaphors her passion her wild and generous spirit her humor her formal cunning I am taken as all readers will be by the knowledge she displays and how she puts this knowledge to a poetic use but I am equally taken I am more taken by the wisdom that lies behind the knowledge I am amazed and delighted by her authority and tenacity She is of this world she lives in it and for better or worse it is the world she settles for and she understands that even if she must rage a little and sometimes more than a little she is one of its citizens Like every original poet she appears to have sprung full blown out of Zeus head I want to say but Aphrodite is here as well as Athena the ocean as well as the mountain I congratulate her on this fine book Gerald Stern Alison Hawthorne Deming brings to her first collection of verse the kinds of scrupulous observation and clear eyed analysis that characterize scientific inquiry as well as a poet s eye for the telling moment Science and Other Poems establishes astonishing parallels between the mute inexorable processes of the physical universe and the dark mysteries of the human heart parallels so clearly wrought and convincing that we wonder why we had not recognized them before Caffè Trieste lays bare the unexamined terror and sorrow that underlie the proliferation of faux fifties kitsch then strips the veil of spacious grace from the decade and reveals it as it was for those who lived it bombs spread like bacteria on culture plates when the cost of a family staying together might be Stelazine and high voltage erasures They re just American all shine and no pain In the chilling Alliance Ohio a mother and daughter suddenly find themselves stranded in a world of predators a poisonous world charged with sexual threat where every smile every gesture drips with sly menace Yet moments of dislocation can also be cause for rejoicing as when a speaker after surprising a bat in the house is moved to rapture by the sight of the night sky Every page of Science and Other Poems is alive with startling juxtapositions eerie parallels abrupt shifts of tone and image after image of crystalline perfection as in this dazzling evocation of soft shelled crabs their finely

stippled bodies that give to the touch translucent as Japanese lanterns These poems imbue everything from the microscopic to the stellar with wonder Each instant of illumination like poetry itself brings the world alive with a faithfulness deeper than seeing

**Deterring Armageddon: A Biography of NATO** Peter Apps, 2024-02-01 EXCELLENT THE TLS HUGE IMPRESSIVE THE INDEPENDENT AN ASTONISHINGLY FINE HISTORY COUNTRY LIFE FASCINATING DAILY MAIL The history of the world's most successful military alliance from the wrecked Europe of 1945 to Vladimir Putin's invasion of Ukraine As they signed NATO into being after World War II its founders fervently believed that only if the West's democracies banded permanently together could they avoid a catastrophic global atomic conflict Over the 75 years since the alliance has indeed avoided war with Russia also becoming a major political strategic and diplomatic player well beyond its borders It has survived disagreements between leaders from Eisenhower Churchill and de Gaulle to Trump Stoltenberg and Merkel faced down Kremlin foes from Stalin to Putin and endured unending questions and debate over what new nations might be allowed to join Deterring Armageddon takes the reader from backroom deals that led to NATO's creation through the Cold War the Balkans and Afghanistan to the current confrontation with the Kremlin following the invasion of Ukraine It examines the tightrope walked by alliance leaders between a powerful United States sometimes flirting with isolationism and European nations with their ever evolving wishes for autonomy and influence Having spent much of its life preparing for conflicts that might never come NATO has sometimes found itself in wars that few had predicted and with its members now again planning for a potential major European conflict It is a tale of tension danger rivalry conflict big personalities and high stakes military and diplomatic posturing as well as espionage politics and protest From the Korean War to the pandemic the Berlin and Cuba crises to the chaotic evacuation from Kabul Deterring Armageddon tells how the alliance has shaped and been shaped by history and looks ahead to what might be the most dangerous era it has ever faced Utterly eye opening compelling haunting and continually illuminating As Peter Apps so brilliantly demonstrates in this gripping book the story of the NATO alliance is in many ways a parallel global history of the last 75 years As well as all the outbreaks of seething tension between the US and its European allies and the counter moves of rival powers this is also an account of just how often in those postwar years that we all stood on the edge of the most terrible abyss With mesmerising fluency and dazzling research Apps follows the criss crossing threads of the Cold War and beyond Those threads converge in our shadowed present and the conflict in Ukraine In order to fathom today's dark world Apps has explored a labyrinth of once classified history and he brings dazzling clarity Sinclair McKay

*The Golden Bough* James George Frazer, 1913 Frazer's series which attempted to define the shared elements of religious belief and scientific thought discussing fertility rites human sacrifice the dying god the scapegoat and many other symbols and practices whose influences had extended into 20th century culture His thesis is that old religions were fertility cults that revolved around the worship and periodic sacrifice of a sacred king Frazer proposed that mankind progresses from magic through religious belief to scientific thought
