Flatau,Jerome F. Mitchell,1980 Race and the Scottish Enlightenment Linda Andersson Burnett,Bruce Buchan,2025-08-19 How colonialism shaped the Scottish Enlightenment s conception of race and humanity In the decades after 1750 an increasing number of former medical students from the University of Edinburgh construed humanity as a subject of both intellectual curiosity and colonial interest They drew on a shared educational background blending medicine with natural history and moral philosophy in a range of encounters with non European and Indigenous peoples across the globe whom they began to classify as races Focusing on a surprising number of these understudied students this book reveals the gradual predominance of race in Scottish Enlightenment thought Teaching provided a toolbox of concepts and theories for students who went on to careers as military and naval surgeons colonial administrators and natural historians While some such as Mungo Park who traveled in Africa are well known many others such as the long term residents in the Russian Empire Matthew Guthrie and his wife Maria Guthrie or the Caribbean botanist Alexander Anderson are less remembered Among this group were those such as the Pacific traveler Archibald Menzies and the circumnavigator of Australia Robert Brown who are known primarily as botanists rather than as ethnographers Together they formed a global network of colonial travelers and natural historians sharing a common educational background and a growing interest in race *Changing Conceptions of School Discipline* Pickens Elmer Harris,1928 Reports Great Britain. Medieval and Renaissance Manuscripts in the Claremont Libraries C. W. Dutschke,R. H. Rouse,2023-12-22 **The English Catalogue of Books Published from January, 1835, to January, 1863** ,1864 **Training for Victory** Frank Kenneth Sobchak,2024-11-19 One of the most difficult security challenges of the post Cold War era has been stabilizing failing states in an era of irregular warfare A consistent component of the strategy to address this problem has been security force assistance where outside powers train and advise the host nation s military Despite billions of dollars spent the commitment of thousands of advisors and innumerable casualties the American efforts in Afghanistan and Iraq failed catastrophically Nevertheless among those colossal military disasters were pockets of success The Iraqi Special Operations Forces ISOF held back the Islamic State in 2014 long enough to allow American and allied forces to flow back into the

country and many Afghan commando units fought to the bitter end as their country disintegrated around them What made those units successful while the larger missions ended disastrously Author Frank K Sobchak explores security force assistance across five case studies examining what factors were most critical for U S Special Forces units to build capable partners like the ISOF and the commandos More specifically the book assesses the impact of five components of Special Forces advisory missions language training and cultural awareness of the advising force the partner force to advisor ratio the advisors ability to organize host nation forces whether advisors are permitted to guide in combat and the consistency in advisor pairing Based on the experiences of U S Army Special Forces in El Salvador 1981 1991 Colombia 2002 2016 the Philippines 2001 2015 Iraq 2003 2011 and Afghanistan 2007 2021 Sobchak argues that the most crucial factors in producing combat effective partners are consistency in advisor pairing and maintaining a partner force to advisor ratio of twelve special forces soldiers advising a company sized force or smaller Intriguingly and counter to conventional wisdom at first glance language training and cultural awareness do not seem to be critical factors as most of the Green Berets that trained units in Iraq and Afghanistan lacked both capabilities Despite an orthodoxy that argues the opposite there is little evidence that combat advising is decisive in producing effective partners and there is conflicting evidence that language training and cultural awareness are important Many of these findings while focused on Special Forces operations and doctrine could be used to improve the odds of success for larger security force assistance missions as well **British Medical Journal** ,1882
