“Although we have engaged in similar conversations in the past, we have often been cut off by leaders. And we would not want to have an angry, pushy, and possibly violent shouting match,” he said. “We think that there would be a great deal of value in having a dialogue with the leaders of the group, and we would like to see that happen.”

Preventing Chemical Weapons Lijun Shang, Malcolm Dando, Michael Crowley, 2018-08-20 The life and chemical sciences are in the midst of a period of rapid and revolutionary transformation that will undoubtedly bring societal benefits but also have potentially malign applications notably in the development of chemical weapons Such concerns are exacerbated by the unstable international security environment and the changing nature of armed conflict which could fuel a desire by certain States to retain and use existing chemical weapons as well as increase State interest in creating new weapons whilst a broader range of actors may seek to employ diverse toxic chemicals as improvised weapons Stark indications of the multi faceted dangers we face can be seen in the chemical weapons attacks against civilians and combatants in Iraq and Syria and also in more targeted chemical assassination operations in Malaysia and the UK Using a multi disciplinary approach and drawing upon an international group of experts this book analyses current and likely near future advances in relevant science and technology assessing the risks of their misuse The book examines the current capabilities limitations and failures of the existing international arms control and disarmament architecture notably the Chemical Weapons Convention in preventing the development and use of chemical weapons Through the employment of a novel Holistic Arms Control methodology the authors also look beyond the bounds of such treaties to explore the full range of international law international agreements and regulatory mechanisms potentially applicable to weapons employing toxic chemical agents in order to develop recommendations for more effective routes to combat their proliferation and misuse A particular emphasis is given to the roles that chemical and life scientists health professionals and wider informed activist civil society can play in protecting the prohibition against poison and chemical weapons and in working with States to build effective and responsive measures to ensure that the rapid scientific and technological advances are safeguarded from hostile use and are instead employed for the benefit of us all

Delivering Family Justice in the 21st Century Mavis Maclean, John Eekelaar, Benoit Bastard, 2015-08-27 Family justice requires not only a legal framework within which personal obligations are regulated over the life course but also a justice system which can deliver legal information advice and support at times of change of status or family stress together with mechanisms for negotiation dispute management and resolution with adjudication as the last resort The past few years have seen unparalleled turbulence in the way family justice systems function These changes are

associated with economic constraints in many countries including England and Wales where legal aid for private family matters has largely disappeared But there is also a change in ideology in a number of jurisdictions including Canada towards what is sometimes called neo liberalism whereby the state seeks to reduce its area of activity while at the same time maintaining strong views on family values Legal services may become fragmented and marketised and the role of law and lawyers reduced while self help web based services expand The contributors to this volume share their anxieties about the impact on the ability of individuals to achieve fair and informed resolution in family matters Challenges of European External Energy Governance with Emerging Powers Michèle Knodt,Nadine Piefer,2016-03-03 In a multipolar world with growing demand for energy not least by Emerging Powers such as Brazil India China or South Africa BICS questions of EU external energy governance would at first hand appear to be a high priority Yet reality tells a different story the EU s geographical focus remains on adjacent countries in the European neighbourhood and on issues related to energy security Despite being Strategic Partners and engaging in energy dialogues it seems that the EU is lacking strategic vision and is not perceived as a major actor in energy cooperation with the BICS Thus political momentum for energy cooperation and joint governance of scarce resources is vanishing Resulting from three years of international interdisciplinary research cooperation among academics and practitioners in Europe and the BICS countries within a project funded by the Volkswagen Foundation this volume addresses one of the greatest global challenges Specific focus lies on the bilateral energy dialogues and Strategic Partnerships between the EU and Emerging Powers regarding bilateral inter and transnational energy cooperation Furthermore the analysis provides policy recommendations in order to tap the full potential of energy cooperation between the EU and Brazil India China and South Africa **Arctic Human Development Report** Joan Nymand Larsen,Gail Fondahl,2015-02-18 The goals of the second volume of the AHDR Arctic Human Development Report Regional Processes and Global Linkages are to provide an update to the first AHDR 2004 in terms of an assessment of the state of Arctic human development to highlight the major trends and changes unfolding related to the various issues and thematic areas of human development in the Arctic over the past decade and based on this assessment to identify policy relevant conclusions and key gaps in knowledge new and emerging Arctic success stories The production of AHDR II on the tenth anniversary of the first AHDR makes it possible to move beyond the baseline assessment to make valuable comparisons and contrasts across a decade of persistent and rapid change in the North It addresses critical issues and emerging challenges in Arctic living conditions quality of life in the North global change impacts and adaptation and Indigenous livelihoods The assessment contributes to our understanding of the interplay and consequences of physical and social change processes affecting Arctic residents quality of life at both the regional and global scales It shows that the Arctic is not a homogenous region Impacts of globalization and environmental change differ within and between regions between Indigenous and non Indigenous northerners between genders and along other axes **Minerals Yearbook** Mines

The 2015 Gasson Lecturers Frank

Brennan,2016-03-31 In these Gasson Lectures Frank Brennan addresses various contested contemporary issues such as church state relations physician assisted suicide and national border protection He writes I hope that these lectures can help persons of all faiths and none maintain what Pope John Paul II when addressing the Italian Parliament called a convinced and pondered trust in the heritage of virtues and values handed down by your forebears In these lectures I have drawn much inspiration from Pope Francis who travelled to the island of Lampedusa to speak boldly and prophetically about the plight of asylum seekers coming across the Mediterranean Sea in search of new life Before offering his blessing and casting a wreath on the waters Francis asked Who is responsible for the blood of these brothers and sisters of ours In these lectures I seek to draw on my own religious tradition to answer that question to the satisfaction of persons of all faiths and none and in the many precarious situations in which people find themselves especially at the borders of life and of nation states *Freedom*

Path of Blood tells the gripping and horrifying true story of the underground army which Osama Bin Laden created in order to attack his number one target his home country Saudi Arabia. His aim was to conquer the land of the Two Holy Mosques the land from where Islam had first originated and from there to reestablish an Islamic Empire that could take on the West and win. Thomas Small and Jonathan Hacker use new insider evidence to expose the real story behind the Al Qaeda. Far from the image of single minded holy warriors they present to the world the bands of soldiers are riven by infighting and lack of discipline. Drawing on unprecedented access to Saudi government archives interviews with top intelligence officials both in the Middle East and in the West as well as with captured Al Qaeda militants and access to exclusive captured video footage from Al Qaeda cells Path of Blood tells the full story of the terrorist campaign and the desperate and determined attempt by Saudi Arabia's internal security services to put a stop to it.

The Declaration on the Elimination of All Forms of Intolerance and of Discrimination Based on Religion or Belief as proclaimed by the United Nations General Assembly in 1981 is the only universal human rights instrument specifically focusing on religious intolerance and discrimination. However recent years have seen increasing controversy surrounding this right in both political and legal contexts. The European Court of Human Rights has experienced a vast expansion in the number of cases it has had brought before it concerning religious freedom and politically the boundaries of the right have been much disputed. This book provides a systematic analysis of the different approaches to religious rights which exist in public international law. The book explores how particular institutional perspectives emerge in the context of these differing approaches. It examines and challenges these institutional perspectives. It identifies new directions for approaching religious rights through international law by examining existing legal tools and assesses their

achievements and shortcomings It studies religious organisations support for international human rights protection as well as religious critique of international human rights and the development of an alternative religious Bills of Rights It investigates whether expressions of members belonging to religious minorities can be considered under the minority right to culture rather than the right to religion and discusses the benefits and shortcomings of such a route It analyses the reach and limits of the provisions in the 1981 Declaration identifies ways in which the right is being eroded as a concept and suggests new ways in which the right can be reinforced and protected Who Benefits from the Sanitized Language of Violence? Matthew Fyjis-Walker, 2024-06-11

Language is not neutral it determines and is determined by perspective This volume explores the role of an influential vocabulary of war sanitised language the language that seeks to clean up the appearance of events through euphemism abstract words and opaque phrases Critical discourse analysis of the language of recent military campaigns shows that the public authorities do not explain events as clearly as they might Despite social political and strategic incentives to use sanitised language its use appears to undermine the democratic process and reduce public authorities freedoms possibly emboldening adversaries and turning away potential partners **Parliaments in EU**

Economic Governance Diane Fromage, Ton van den Brink, 2020-05-21 This book considers national parliaments and the European Parliament s role in European Union EU economic governance It examines the recent strengthening of parliamentary involvement limitations to improvements and where and how democratic deficits still exist It also provides the basis for some reflections concerning possible future evolutions and improvements to EU economic governance The EU s economic governance framework has been significantly strengthened as a response to the 2008 economic and financial crisis and the establishment of a new Banking Union in 2013 It is thus key to determine whether these additional transfers of powers to the EU level have been accompanied by an equivalent empowerment of the national and European legislatures allowing them to ensure adequate democratic legitimation The chapters comprehensively re examine the democratic throughput legitimacy of and within the EU s economic governance by focusing on national parliaments on the European Parliament and on mechanisms for interparliamentary cooperation This book was originally published as a special issue of the Journal of European Integration **The Routledge Handbook of Diplomacy and Statecraft** B.J.C.
