Treatment as a tool for investigating cognition Lyndsey Nickels, Saskia Kohnen, Brenda Rapp, 2018-02-05 Cognitive neuropsychological research studies of people with cognitive deficits have typically been directed either at investigating methods of intervention or at furthering our understanding of normal and impaired cognition This book reports on research that combines these goals using studies that use intervention as a tool for investigating hypotheses about the functioning of the human cognitive system The introductory chapter discusses some of the unique and more general difficulties that this approach faces while the five reports describe intervention studies with children and adults with cognitive impairments studies which investigate current theories of cognition The studies demonstrate that the use of intervention to study cognition is a promising and valuable methodology Aiming to promote wider use of these combined methods this book makes it clear that while the approach faces various methodological and interpretative challenges it has the advantage of providing advances on issues of theory while at the same time providing treatment to participants and bringing together what have been largely separate research traditions This book was originally published as a special issue of Cognitive Neuropsychology

Schoolhouse Shams Peter Downs, 2013 Written by a parent and school board member who first embraced many of the ideas of the modern school reform movement Schoolhouse Shams lays bare much of the mythology and misinformation that underpin many of the failed school reform policies of the last decade Many of the top strategies of the highly publicized school reform movement already have been tried out in St Louis with disastrous results Along with demonstrating the failure of school reform prescriptions to improve education the experience of St Louis demonstrates that the ideological premise of the reform movement that a focus on providing opportunities for private profit taking will necessarily improve schools is both wrong and conflicts with the ideals of democracy accountability and justice
