*ICE Handbook of Concrete Durability* Marios Soutsos, 2023-10-24 *ICE Handbook of Concrete Durability* second edition is a comprehensive practical reference for professionals involved in design and maintenance of concrete structures of all types. It is an invaluable guide for construction professionals including design engineers, consultants and contractors as well as postgraduate students.

**Tubular Structures XIII** Ben Young, 2010-11-12 *Tubular Structures XIII* contains the latest scientific and engineering developments in the field of tubular steel structures as presented at the 13th International Symposium on Tubular Structures ISTS13 Hong Kong 15-17 December 2010. The International Symposium on Tubular Structures ISTS has a longstanding reputation for being the principal showcase for manufactured tubing and the prime international forum for discussion of research developments and applications in this field. The Symposium presentations herein include one invited ISTS Kurobane Lecture together with all the technical papers. Various key and emerging subjects in the field of hollow structural sections are covered such as special applications and case studies, static and fatigue behaviour of connections, joints, concrete filled and composite tubular members and offshore structures, stainless steel and aluminium structures, earthquake and dynamic resistance, specification and standard developments, material properties and structural reliability, impact resistance and brittle fracture, fire resistance, casting and fabrication innovations. Research and development issues presented in this book are applicable to buildings, bridges, offshore structures, entertainment rides, cranes, towers and various mechanical and agricultural equipment. *Tubular Structures XIII* is thus a pertinent reference source for architects, civil and mechanical engineers, designers, steel fabricators and contractors, manufacturers of hollow sections or related construction products, trade associations involved with tubing owners or developers of tubular structures, steel specification committees, academics and research students all around the world.

*Zinc Handbook* Frank C. Porter, 1991-04-29 Summarizes information on all aspects of metallic zinc and gives references to additional source material including major books and reviews. At the heart of the reference are 16 chapters that cover coatings and electrochemical protection of steel by zinc. Other chapters address occurrence and production.

*HVAC and Chemical Resistance Handbook for the Engineer and Architect* Tom Arimes, 1994 The title is misleading until you check out the contents. It is all about HVAC and more. This compilation has organized data frequently used by Mechanical Engineers, Mechanical Contractors and Plant Facility Engineers. The book will end the frustration on a busy day searching for design criteria.

*The BPG Building Fabric Component Life Manual* Building Performance Group Ltd, 2023-08-11 This manual provides a comprehensive source of building component life span and maintenance data for commercial and industrial building components following the same format as the ground breaking HAPM Component Life Manual for domestic buildings. Each building component is allocated its own data sheet on which a number of generic descriptions are provided together with assessed life spans and maintenance requirements. References to the relevant standards and codes of practice are also included.
