Rakestraw,2022-03-30 There is a biblically revealed sequential plan of God for the duration of every human life the knowledge of which should profoundly impact and enliven each one of us who is able to understand and embrace it in a heartfelt way The purpose of this book therefore is to inform readers of God s plans for and claims upon human beings from before their birth and continuing through their existence to the final judgment and beyond Each reader can then seriously consider their way of life now in view of the things to come The author identifies seven sequential stages in every person s life journey the majority of which occur beyond the grave Written shortly before its writer passed away this little book nonetheless exudes a spirit of joy as its author his sufferings notwithstanding leaned forward full of expectation and without fear into the glorious future promised to everyone who loves and serves their Lord Jesus now Rakestraw shares the secret to investing a brief earthly life well Like the venerable John Bunyan writer of the devotional classic Pilgrim s Progress Rakestraw points the way to our eternal home *Prayer, Middle Knowledge, and Divine-Human Interaction* Kyle D.

DiRoberts,2018-07-27 Christians generally believe that in prayer they are free in their act to petition God Christians also believe that they pray to a God that is sovereign and omniscient Kyle DiRoberts maintains that explanation as to how one affirms these two truths is dependent upon one s account of divine providence which determines how motivated the person is to offer petitionary prayer in the divine human relationship The theories of providence and their understanding of petitionary prayer discussed in this book include compatibilism hard determinism open theism and middle knowledge Each of the theories of divine providence discussed in this book share a desire to construct a view concerning petitionary prayer that would propel the Christian toward God in relationship and then lead the body of Christ to pray without ceasing DiRoberts argues that middle knowledge is the preferred theory of providence as it relates to petitionary prayer because for middle knowledge God s sovereignty includes both his omniscience and libertarian human freedom *The Message of Discipleship*

Peter Morden,2018-11-15 Soon after Jesus began his public ministry he called his first disciples He would teach and train them and then after his death and resurrection commission and empower them to go to the nations to make more followers The risen Jesus is still calling and sending people today If we heed his call the result can be just as transformative and exciting as it was for the first disciples While there are no explicit occurrences of the term disciple outside the Gospels and Acts with only two further biblical references to followers of Jesus it is Peter Morden s conviction that we need the entire Bible if we are going to be whole life disciples He reflects on Scripture and asks How do we live as committed disciples of Jesus today He explores the foundations resources and practice of discipleship in a range of Old and New Testament texts The result is a well rounded and satisfying picture of Christian discipleship one that is wonderfully attractive as well as deeply challenging With a fully integrated study guide suitable for both individuals and groups The Message of Discipleship will help you to see how the Bible s unified teaching on this vital theme can impact your life today The Bible Speaks Today series covers every book of the Old and New Testaments as well as Bible themes that run through the whole of Scripture

Wilkins, Erik Thoennes, 2018-05-16 There is an abundant need today for biblically grounded and practically applied theology In this book a New Testament scholar and a theologian team up to offer readers a robust introduction to biblical and theological studies This readable guide outlines a distinctly evangelical approach to studying the Bible and theology highlighting the proper methods for understanding and synthesizing the teachings of the Bible leading to deeper knowledge of God ourselves and how we are to meaningfully apply his Word to our lives Part of the Reclaiming the Christian Intellectual Tradition series

Theodicy and Hope in the Book of the Twelve George Athas, Beth M. Stovell, Daniel Timmer, Colin M. Toffelmire, 2021-06-03 This volume explores the themes of theodicy and hope in both individual portions of the Twelve books and sub sections and in the Book of the Twelve as a whole as the contributors use a diversity of approaches to the text's with a particular interest in synchronic perspectives While these essays regularly engage the mostly redactional scholarship surrounding the Book of Twelve there is also an examination of various forms of literary analysis of final text forms and engagement in descriptions of the thematic and theological perspectives of the individual books and of the collection as a whole The synchronic work in these essays is thus in regular conversation with diachronic research and as a general rule they take various conclusions of redactional research as a point of departure The specific themes theodicy and

hope are key ideas that have provided the opportunity for contributors to explore individual books or sub sections within the Twelve and the overarching development in both historical and literary terms and deployment of these themes in the collection

Blasphemy and Mystery Vincent Cheung,2014-11-26 Most of the articles in this collection are written in response to objections raised against various aspects of Christianity Although some of these objections come from unbelievers several are from professing Christians who have been critical of the consistently God centered system of theology philosophy and apologetics in Scripture The objections from professing believers against the Christian faith exhibit patterns of reasoning that are remarkably similar to those found in unbelievers including some of the intellectual habits and assumptions that underlie atheism In connection with this several of the articles examine some of the most treasured and ingrained doctrines that professing believers have invented in order to subvert the teachings of Scripture They show that these traditional doctrines are not only unbiblical but often even blasphemous
