Josephson Storm argues against this narrative showing that attempts to suppress magic have failed more often than not Even the human sciences have been more enchanted than is commonly supposed But that raises the question How did a magical spiritualist mesmerized Europe ever convince itself that it was disenchanted Josephson Storm traces the history of the myth of disenchantment in the births of philosophy anthropology sociology folklore psychoanalysis and religious studies He demonstrates that the founding figures of these mythless disciplines were in fact profoundly enmeshed in the occult and spiritualist revivals of Britain France and Germany It was in response to this milieu that they produced notions of a disenchanted world By providing a novel history of the human sciences and their connection to esotericism *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past
