Baker, 2007-02-12 Increase your productivity with Acrobat one technique at a time Now that PDF has become the

ubiquitous electronic document format it's important to recognize that there's much more to Adobe Acrobat than just managing your documents and improving workflow. With this powerful tool you can now communicate with new commenting tools, collaborate with individuals and teams, automate forms, provide additional security, use redactive tools, and accomplish tasks for greater productivity and efficiency. But with all this power, how do you bring your Acrobat skills up to speed quickly? Never fear! Acrobat expert Donna L. Baker has picked out the most integral techniques for accomplishing nearly any office communication task. You'll be expanding your PDF skills in no time in this focused, handy guide. Here are just some of the things you'll learn to do: Conduct searches quickly by building an index and attaching it to files. Merge multiple files into a single PDF document and create a custom cover. Create comments in PDF documents, start a review, and work with comments. Use new form tools in Acrobat 8 for drawing fields, tracking responses, and creating a form automatically. Set up an online meeting in Acrobat Connect. Add movies and 3D content and create interactive presentations. Assign levels of security and passwords to documents using new hashing algorithm support in Acrobat 8.

*Virtual Airplane* Witold Jaworski, 2015-03-15  
This book will teach you how to create the model shown on its cover. It assumes that you may know nothing about the 3D modeling software and starts this course from the very basics. In subsequent chapters, the author gradually introduces new methods and tools on the example of building a model of the P-40B fighter. Every step of this workflow is presented in numerous illustrations. The goal of this book is to encourage all the plastic modelers for this new branch of their hobby. To make this hobby more affordable, this course uses solely the free Open Source software. This publication may also be interesting to all who would like to master the powerful Blender 3D package. *Virtual Airplane* contains so many illustrations over 2400 that it is readable to some extent even in a foreign language. If you want to skim all of its contents, search the Google Books for its free version. ISBN 9788394141752, it is a Polish translation or visit [airplanes3d.net](http://airplanes3d.net).
